Members

Note: For each class of shares issued by a proprietary company, ASIC records the details of the top twenty members of the class (based on shareholdings). The details of any other members holding the same number of shares as the twentieth ranked member will also be recorded by ASIC on the database. Where available, historical records show that a member has ceased to be ranked amongst the top twenty members. This may, but does not necessarily mean, that they have ceased to be a member of the company.

Members

Note: For each class of shares issued by a proprietary company, ASIC records the details of the top twenty members of the class (based on shareholdings). The details of any other members holding the same number of shares as the twentieth ranked member will also be recorded by ASIC on the database. Where available, historical records show that a member has ceased to be ranked amongst the top twenty members. This may, but does not necessarily mean, that they have ceased to be a member of the company.

MEMBERSHIP DEFENCE FUND

The State Secretary discussed in detail the need for the Membership to have a defence fund to protect themselves not just from the upcoming draconian Industrial Relations Law changes and a hostile federal government, but also the ability to be able to campaign and protect members workers entitlements and conditions. It was agreed that the money left over from the Eagles dispute and any board fees would be allocated to the Defence Fund. It was also agreed that whilst it would apply to certain aspects of the membership in some of the other offsite fixed establishments, that is (Furniture) that it would apply to the rest of the membership in the October dues. Also it was endorsed that this membership defence fund would have no affiliation fees to the Federal office.

Carried

CFMEU CONSTRUCTION SERVICES

The State Secretary talked at length on the need of the Union to expand its membership in other areas, that is, Housing and also to provide services for members who are contractors, that is, default of payments, income protection, insurances, etc. And also for the Union to expand the number of apprentices that are trained through the Union and to expand this service into other areas of training, that is in the civil industry. The State Secretary knows that the Union would have to expend funds to set up this service but it was a worthwhile investment to see what benefit that these services would provide to a broader potential membership of the Union and also would need allocation of an Organiser in this role. The State Secretary reported that the detail would evolve in the next few weeks and present a paper to the management committee and might mean the temporary hiring of a new Industrial Relation person to assist in that role.

Moved:Wallace Trohear Seconded: Kevin Carroll

"That the report be received and adopted."

Carried

ALP FEDERAL ELECTION RESULT

The State Secretary gave an analysis of the view of why the ALP failed miserably at the October election. It was a devastating result however we need to move forward, and even there, there are some issues that need to be resolved, that is, the leadership and until some of these other issues are resolved federally, the ALP is not in the greatest shape and that we may have a coalition government for a considerably time to come.

Moved:Wallace Trohear Seconded: Kevin Carroll

"That the report be received."

Carried

SMC MEMBERS

The State Secretary reported on the retirement of members from the Management Committee and thanked them for their services to the Union which were Bill Kilmister, Brian Scheuber, Brian Hall and John Guinane.

FEDERAL CODE OF CONDUCT

The Assistant State Secretary, Michael Ravbar gave a report with the ongoing problem with the issue of the Federal Code of Conduct. Not just on federally funded work, but in trying to spread it across other areas of Constriction where the Federal Government puts funding in a project(s). They are also doing the best to interfere in Enterprise Bargaining negotiations, by telling employers that their documents should look like the federal code.

Moved:Michael Ravbar Seconded: Bradley Daniel

"That the report be received."

Carried

ORGANISING REPORT

The Assistant State Secretary Michael Ravbar gave a report in a number of areas in respect of improvements in membership, especially in areas of Main Roads, Local Government, Furniture and QBuild. All of those areas still have a lot of potential. He also spoke in length in respect of some good campaigns especially in the area of the Civil EBA outcome; also explained that there had been some good news in respect of getting back on some major projects. Level of works was high this year which contributed to a reasonable outcome for the Union and work would remain strong for the next couple of years, especially in the areas of Civil infrastructure and engineering type work.

Moved:Michael Ravbar Seconded: Paul Waters

"That the report be received."

Carried

THE EAGLE CRANES DISPUTE

The Assistant State Secretary, Michael Ravbar reported at length on what had transpired since the dispute had started on July 8th. The workers had been locked out of their workplace for sixty-seven (67) days. With this high profile dispute, a lot of time and resources of this Union had gone into trying to win this dispute. Unfortunately the dispute was broken when the AWU and the non-Union workers negotiated an Enterprise Agreement with the boss. However the Union is challenging this EBA in the Industrial Relations Commission or any other jurisdiction and we are now entering the legal phase of this dispute. Realistically, it will not be an easy one to win, but the Union is sending a broad message that it would not accept workers being locked out of their workplace in respect of negotiating Enterprise Bargaining or if the employer wants to do a deal with another Union. A decision on this ongoing matter should happen in early 2005.

Moved:Michael Ravbar Seconded: Vince Breen

"That the report be received."

NATIONAL MATTERS

The State Secretary gave a detailed report again on the problems resurfacing within the Union. The State Secretary reported that we are obtaining legal advice to look at the numbers of the Union in respect of spots at the National Conference for Delegates and other matters associated with this internal dispute. Unfortunately, this will disappoint the Management Committee and the membership which we believe needs to resolve and focus on solving these issues and focus on the common enemy which is the Federal Government and the bosses.

INDUSTRIAL REPORT

CRANE SAFE PROGRAM

The Assistant State Secretary, Chris Price reported on a number of areas the first one being Crane Safe. He said that they were going to try and do an annual check of the operation of the cranes and were trying to seek legislation across the board. Need to push the issue on the job and we need to keep the heat on the bureaucrats to move this important issue for the Mobile Crane Industry along.

WORKCOVER

The Assistant State Secretary, Chris Price reported that it there been improvements recently resulting in the WorkCover act which was a bill called Workers Compensation Rehabilitation Act 2003 which would improve the statutory benefits to injured workers especially the death cover and also a lot of the changes would result in greater protection for injured workers, quicker decisions for all workers and a better appeals process.

Moved:Chris Price Seconded: Rodney Black

"That the report be received."

Carried

BERT

The State Secretary gave a report on the new benefits which increase training, dental cover and the financial planning. The State Secretary also reported that we had a recent good result with the Australian Tax Office in respect of the issue dealing with Fringe Benefits Tax resulting out of the BEWT fund.

Moved:Wallace Trohear Seconded: Gary Jurss-Lewis

"That the report be received."

Carried

ORGANISERS PHONES

Discussion of the Management Committee occurred in respect of the merit in increasing the mobile phone or phone expenses of the Organisers. After much debate it was agreed to make an increase to the phone expenses.

Moved:Wallace Trohear Seconded: Kevin Carroll

"That the State Management Committee endorses that the phone expenses for the Organisers be increased with the home phone expenses to be equated to increase from $60.00 to $70.00 a quarter and mobile phones to increase from $80.00 to $90.00 a month."

Carried

BUILDING INDUSTRY EBA

The State Secretary gave a detailed report about the problems associated with the likely new powers of the Federal Government through the government mid next year and that this would result in complications with the expiry of the Building Industry EBA's. It is critical that we need to address these issues now and the State Secretary reported about the method to address this issue with a long term type of agreement which legally could be done through the State Industrial Relations Commission. However, he stated that it was up to this Union and the membership to drive this issue early in the New Year on the job and hopefully get some consensus and some common sense with the builders and try and achieve a claim that would be suitable to all parties.

Moved:Wallace Trohear Seconded: Michael Ravbar

"That the report be adopted."

Carried

DELEGATE/ACTIVIST/ORGANISER TRAINING

Jason Stein gave a lengthy report on the delivery of training for the Union to Delegates and Organisers during 2004 and what was proposed for 2005. We can certainly we do more and better training in 2005.

Moved: Michael Ravbar Seconded: David Matakovic

WORKERS RIGHTS

The Assistant State Secretary, Michael Ravbar, gave a report and was supplemented by the State Secretary that this campaign itself had resulted to a real benefit to the Union in respect of getting its membership back who have been poached from other Unions and protected and make sure the bosses pay the workers the right amount of pay and conditions for our members. It had been a good campaign, but we need to keep the work up if we are going to translate this campaign more successfully in 2005 and it is important that we don't loose the momentum out of it.

Moved:Michael Ravbar Seconded: Bob Bostock

"That the report be received."

LEGAL MATTERS

EVENCO

The State Secretary reported on this ongoing case, the Union was working hard to get the undertakings buried on this matter.

INDEPENDENT CONTRACTORS

The State Secretary reported that there was a need to make a rule change in the state rules of our Union to give us the ability to cover independent contractors.

Moved:Wallace Trohear Seconded: Kevin Carroll

"That State Management Committee endorses that the Union make application to seek coverage of independent contractors in its state rules."

Carried

TASKFORCE

The State Secretary reported that the matter dealing with Peter and Michael was ongoing and has been ongoing for some time. However, we believe that the Taskforce is purposely delaying waiting for the new powers in February next year and then to be able to fast track this particular case against two officers in the Union. With the matter preceding it is unlikely for a determination until at least the middle of next year.

Moved:Wallace Trohear Seconded: Steve Williams

"That the legal reports be received."

Carried

TRAINING

The State Secretary reported that there was going to be an increase in the levy next July and that hopefully that would see a lot more funds being provided for training and hopefully reduce the skills shortage in our industry. The lack of trained people and skills shortages would take some time to fix. It is, however, a positive initiative and the new system would be of a similar structure as the BCITF. Also, the Sate Secretary reported the CFMEU scholarship is going well and we are proud of our achievements.

Moved:Wallace Trohear Seconded: Laurie Genrich

"That the report be received."

Carried

PUBLIC SECTOR BARGAINING

The State Secretary gave a lengthy report saying that the Unions must operate differently with the State Government with the next round of Public Sector bargaining. Again, the two departments leading which would be the first cab off the rank which affect our area which is Main Roads and QBuild. The Unions we would look at obtaining agreement on Union friendly matters, then look at common matters and then look at individual issues with the departments and once we have the structure sorted out then we talk about the dollars. It seems when we talk about the dollars first then all the other issues get bargained down.

Moved:Wallace Trohear Seconded: Bradley Daniels

"That the report be received."

Carried

QUEENSLAND GOVERNMENT STATE SUPERANNUATION PROJECT

The State Secretary just reported briefly that this project was still ongoing however in recent times there was no movement due to various reasons but it would need to be given a kick a long soon.

Moved:Wallace Trohear Seconded: Brian Hall

"That the report be received."

Carried

INDUSTRIAL MANSLAUGHTER

The State Secretary gave a report that this issue was moving along slowly. The Assistant State Secretary, Michael Ravbar, supplemented the report about what had taken place with some movements in other states, that is, New South Wales, Western Australia and Victoria in respect of the more heavily penalty provisions dealing with this issues. This was a burning issue which would need to be given more effort in 2005.

Moved:Wallace Trohear Seconded: Michael Ravbar

"That the report be received."

Carried

GREENFIELD SITES

The Assistant State Secretary, Michael Ravbar, reported positive news stating that we had become parties to a number of major projects and were trying hard to get on a few more. This was a huge improvement but, until we remove Greenfield agreements this threat against our Union will remain.

The financial accounts of the Construction Forestry Mining and Energy Union Industry Union of Employees Queensland, for the year ending 31st December 2004 were presented

The State Secretary, Wallace Trohear reported that the criteria was adopted last year but the final budget income and expenditure was to be presented with the one amendment being the words "Fighting Fund Levy" be replaced with "Membership Defence Fund".

Moved:Wallace Trohear Seconded: Allan Poutney

"That the budget be adopted with the amendment."

Carried

RESIGNATION OF BILL PERRETT

The State Secretary reported to the Management Committee that Bill Perrett, a long time serving elected official of this union had for a long time been engaged as a coordinator for the BERT fund. Bill had decided that due to his role he would be better engaged directly by the BERT fund, and as such decided to tender his resignation and commence employment directly with the BERT fund.

Moved:Wallace Trohear Seconded: Michael Ravbar

"That SMC accepts the resignation of Bill Perrett and thanks Bill for his services and contribution to this union and the labour movement and further, that the SMC determines not to fill the vacancy for State Organiser caused by the resignation of Bill Perrett."

Carried

DIRECT DEBIT

The Assistant State Secretary, Michael Ravbar reported that after nearly two years of direct debit we are still progressing very slowly. The uptake is increasing but not enough people are accepting it. The union had made an amendment last year allowing people in fixed establishments, Main Roads, Councils, Furniture to be able to access a system very similar to payroll deductions. However, in the first six month they wouldn't get a vote but they would maintain the benefits. It is also important that organisers and delegates get out there and promote direct debit. This is being done with the upcoming Way Forward and just recently at a delegates meeting; again keeping it on the agenda and pushing the delegates and the officials to promote direct debit.

Moved:Michael Ravbar Seconded: Gary Jurss-Lewis

"That the report be received."

Carried

APPOINTMENT OF TEMPORARY ORGANIERS

The State Secretary, Wallace Trohear said that due to the changing roles and with Bud Neiland now working in the Housing industry there was an urgent need for an organiser to fill the void. It was agreed that Rohan Crotty would fill that void. Therefore the two organisers to be appointed temporary for the next six months were Rohan Crotty and Jamie McQueen.

Moved:Wallace Trohear Seconded: David Matakovic

"That Jamie McQueen and Rohan Crotty be appointed temporary organisers for the next six months."

Carried

UNION DEFENCE FUND

The State Secretary gave an overview of how the new fund was working and on some of the responses from the members. It was supplemented by the Assistant State Secretary Michael Ravbar, who said that the fund itself is being promoted through various forums, we need to get the message even more out there to the members. While the officials and delegates know about the fund, we need to promote it a lot more and explain that this fund is in for the long term to the entire membership.

Moved:Wallace Trohear Seconded: Laurie Genrich

"That the report be received and adopted."

Carried

NATIONAL MATTERS

The State Secretary gave a detailed report on what was happening with the internal issues of the union, which are unfortunately coming to the forefront again. The State Secretary went through some of the happenings with this matter over the last few months and what was likely to occur, noting that a quite substantial legal battle over the next couple of years which was unnecessary especially in an environment that we are going to face.

Moved:Wallace Trohear Seconded: David Matakovic

"Note the Secretary report and endorse the actions of the secretary."

Carried

CFMEU CONSTRUCTION SERVICES TRAINING MODEL AND HOUSING

The Assistant State Secretary's, Chris Price and Michael Ravbar gave detailed reports about what was likely to happen with the unions move into training and housing. Whilst still in its early days, there is a lot of preparation and initial steps still to take. It is envisaged that an action plan will be available to put to the State Executive Meeting in May. The Assistant State Secretary, Chris Price gave a bit of a more detailed overview about the housing side and how it was going to be put together in terms of services. This was supplemented by Michael Ravbar who stated what services and brochures would need to be promoted and how the organising model was going to take place; this should occur by end of March. Training side was explained with a document highlighting the areas that the union wanted to get into. Again it is early days and some of these things will come off and others won't.

Moved:Chris Price Seconded: Michael Ravbar

"That the report be received and adopted."

Carried

THE BUILDING EBA CAMPAIGN

The State Secretary gave a detailed overview on how the campaign was progressing to date. Unfortunately early discussions with the QMBA failed to deliver any positive outcome. In actual fact they were running the hard line right wing agenda of the Federal Government and not prepared to negotiate until the agreement expired at the end of 2005. Their view of the world was that with the new laws and the current environment, the union would give the world. However, the union was not prepared to do that either in this state or at a national level. We are prepared to try and finalise these agreements as soon as possible but at the same time get an outcome that was suitable to all parties.

The are three main concern to the employers. The first one being the dispute settlement procedure, the second being the hours, and lastly the federal code. The only outstanding issue, which was always going to be a difficult one, was the issue of the hours. We are however hopeful that a bit of common sense would prevail and that the parties would come to some agreed outcome. The Assistant State Secretary Michael Ravbar supplemented the report in relation to the new career structure that was proposed for our members in the building and construction industry which was long over due and hopefully would be accepted as part of the claim for the next round of EBA's.

Moved:Wallace Trohear Seconded: Michael Ravbar

"That the report be received and adopted."

Carried

ORGANISING

The Assistant State Secretary Michael Ravbar gave a detailed report about what was happening with organiser activities. He especially spent a lot on time focusing on what was happening with the furniture industry, explaining that there was a long road ahead and that the organiser responsible had to lift his game. Hopefully by July we would be a lot clearer with the membership of the FFTS moving forward. Early 2004 could be described as a pretty average year, with the first half disastrous the second half bouncing back. So far 2005 looks hopeful, however a critical decision would need to be made about the Furniture Industry. The Assistant State Secretary reported about the structural changes, that Peter Close will take primary responsibility for all organisers, including regional. Michael also reported on some high profile disputes (Eagles and Sleepyhead) in recent months and the level of construction work that was going ahead. Some of the challenges for this year are the new Industrial Relations environment we are coming into and

the Building EBA campaign. Peter Close supplemented the report in a number of areas in respect of the EBA campaign which was a primary focus of organisers over the last few months and in coming months.

Moved:Michael Ravbar Seconded: Peter Close

"That the report be received."

Carried

INDUSTRIAL REPORTS

The Assistant State Secretary, Michael Ravbar commented that the Award Flow On matter was now in its final throws, and that he had taken over the matter from Chris Price. The witness evidence from our union, including expert witnesses, would all be finalised by mid March. The hearing dates for regional areas will be held in May with final hearings in June. While there is still a lot of work to be done on the case, and despite being kicked around for three and a half years we are in the final leg. Getting a decision is going to be a uphill outcome. However if there is ever going to be a time to move the award it is going to be in this current climate, with the current rates being paid in the construction market, especially the non-regulated housing area. The other one was the Local Government Award. Chris Price supplemented this saying things needed to move on again and at this stage there hasn't been much progress.

FURNITURE AWARD

The Assistant State Secretary Michael Ravbar reported that there were a couple of outstanding matters that employers were concerned about, however if we get resolution we are hopeful that we would have a new state based dated furniture award. Hopefully in the next couple of months we will have some positive outcomes with the particular matter, we are so close and yet so far.

OTHER MATTERS

The Assistant State Secretary Chris Price reported with an update of what was taking place statistically in 2004 for finalised wage claims. Again we had a reduction in claims with an extremely good effort in respect of members wage claims. A chart was provided to highlight were the money was being recovered for.

Moved:Michael Ravbar Seconded: Jim Hardy

"That the reports be received."

Carried

COST OF SERVICING INDUSTRY FUNDS

The State Secretary spoke about the ongoing problem of the union spending a lot of time and funds recovering claims with respect to BUSS (superannuation), CIPS and BERT. A document was presented to the Management Committee highlighting the cost to the union. Over the past twelve months we have been trying to make progress with the respective boards to be compensated in some form for all the activities that we are doing. The State Secretary reported that he had received board support from the BERT fund for compensation, however at this stage had received no formal response from CIPS and no response from BUSSQ. Therefore from 1st March, all wage complaints will be undertaken by the funds (with the exception of the BERT fund) themselves. It is important that members ring the administrators of the fund and not be referred to the Union.

Moved:Wallace Trohear Seconded: Greg MacClaren

"That the report be received."

Carried

BUIDLING INDUSTRY TASK FORCE

The State Secretary spoke about the proposed new laws that are coming in, and although they are going to be back dated, no one knew what the dates were going to be. It is important that we get the message out to the delegates and organisers; that we follow dispute settlement procedures and make sure that we try and resolve as many things on the job and not take strike activity. Again, what needs to happen is the promotion of this message to the messages, whether through t-shirts, updating the task force manual, etc. The union had undertaken a course with the delegates in December; however this issue would need to be given more focus especially with the proposed new laws to come through any day now with all the nasties attached with it.

Moved:Wallace Trohear Seconded: Peter Close

"That the report be received."

Carried

WORK COVER

A brief report was given to explain the change in the organisation of whose principle responsibility for WorkCover. The Assistant State Secretary Chris Price, reported on the campaign in the factories to improve Workplace Health and Safety and at the same time reduce the number of WorkCover claims which had increased in that particular sector of the market and, hopefully would deliver some real change. The result came out of the delegate convention which has been actioned by this union to improve health and safety in the workplace and reduce the number of WorkCover and workplace incidents.

Moved:Chris Price Seconded: David Matakovic

"That the report be received."

Carried

LEGAL MATTERS

EVENCO

The State Secretary reported that this matter is ongoing and reported to the new management committee members what this whole case was about.

TASKFORCE

The State Secretary reported that the matter had been set down for hearing on the 21st & 22nd July 2005 and again this was a long outstanding matter which was coming up for final hearings.

Moved:Wallace Trohear Seconded: Gordon McFarlane

"That the legal reports be received."

The three nominations endorsed by the Electoral Commission were Laurie Genrich, Kevin Carroll, Bradley Daniels. The State Executive nominations endorsed by the Electoral Commission were Bradley Daniel, Robert Bostock and Russell Beattie.

WORKING WITH GOVERNMENT

The State Secretary reported with an update on the initiatives working with Government. He reported on some of the changes agreed to in respect of pre-qualification for government contracts, which were starting to come through the pipeline and be implemented through a tendering process. A lot of these changes will happen on the first of July. He also reported on what was happening with superannuation and also on workers compensation. The union delivered great changes in respect of the level of benefits and an increase of weeks of coverage from twenty-six(26) to thirty-nine (39). However, the government could perform a lot better and it is important that they lift their game and put the issue of code of conduct and resisting the Federal Governments take over the state system on the agenda.

Moved:Wallace Trohear Seconded: Bradley Daniels

"That the report be received."

Carried

HEALTH AND SAFETY NATIONAL REPORT

The Assistant State Secretary, Peter Close gave a detailed report a number of issues dealing with problems with cranes and other health and safety matters at the national level. He explained that the working group was a useful in setting policy and agendas at a national level and the importance of the outcomes of those meetings being reported, which had been lacking previously.

The Assistant Secretary, Chris Price gave a report about Workplace Health and Safety Queensland's proposed changes in the way Occupational Health and Safety (OHS) Certification training and assessment is delivered.

Moved:Peter Close Seconded: Paul Waters

"That the SMC regrets any proposed changes to the licensing arrangements for load shifting and cranes and calls on the State Government to leave licensing the way it is."

Carried

TRAINING

The Apprentice Master, Rob Cameron reported on how the CFMEU scholarship was performing, the very high standard of the recent intake, again making it very competitive. He gave a short report supplemented by Assistant State Secretary, Chris Price regarding the Civil Industry which is another positive move to increase the number of young trained and skilled workers for the civil industry.

Moved:Russell Beattie Seconded: Laurie Genrich

"That the report be received."

Carried

STATE PUBLIC SECTOR ENTERPRISE BARGAINING

The State Secretary went through a proposed model that had been developed by the senior officials of the Public Sector Unions. For this model to work, we need solidarity amongst the Public Sector Unions which has to be co-ordinated by the QCU. However, at this stage certain elements are not committing to the proposed model and seeing as QBuild and Main Roads are one of the two departments come up for renegotiation in the next few months we would need to proceed and look after the interests of our own members. The Assistant State Secretary Michael Ravbar reported in more detail on how the QBuild and Main Roads negotiations were going, however a lot of it was based on what was going to take place with the proposed model which was holding things up. However, this union and the membership in those areas would at some stage need to break away and go forward.

Moved:Wallace Trohear Seconded: Michael Ravbar

"That the report be received."

Carried

AWU

The State Secretary reported that this union was playing a pretty straight bat when it came to issues with the AWU, for example, Greenfield's etc in keeping people together as a union movement. However in recent time the actions of the AWU, especially with Eagles Cranes, Sleepyhead and their actions in Civil, mean that this union will need to be more proactive in targeting AWU areas. While giving them a little bit of the grief that they are giving us is not the way this union operates, when you have to fight you have to fight.

Moved:Wallace Trohear Seconded: Greg MacClaren

"That the report be received."

Carried

DELEGATES CONVENTION

The Assistant State Secretary Michael Ravbar reported that a number of decisions had been finalised from the convention. While not all items were actioned, the Senior Officers recently meet with the outcome being that the outstanding matters would be actioned over the next few months. It was also pointed out that there was an amendment to the issue dealing with smoking.

Moved:Michael Ravbar Seconded: Alan Poutney

"That the amendment be made to the smoke free clause on page 92 and reflect the decision of the delegate's convention."

Carried

WORK RIGHTS

The Assistant State Secretary gave a report, supplemented by the State Secretary, about how the union had been defending our work rights. This is especially important with other unions approaching members along with the changes in technology reducing our membership base. What was highlighted in the recent campaign, which will be a long term, ongoing campaign, was that some organisers and delegates were performing well in this area and others weren't. It was agreed that this issue be apart of the performance of an organiser and be recorded like their income.

Moved:Michael Ravbar Seconded: Laurie Genrich

"That the report be received."

Carried

CHARITY BALL

The Assistant State Secretary Michael Ravbar noted that the Charity Ball had been locked in for August 5th and that we would start getting things settled over the next few months.

Preamble

1. The State Divisional Executive notes that:

   (a) an election is to occur in the Manufacturing Division of the Construction, Forestry, Maritime, Mining and Energy Union ('**CFMMEU**');

   (b) Bluey Menon is intending to contest the office of Divisional Secretary in the election;

   (c) Bluey Menon has sought assistance from the CFMEUQ in relation to his campaign;

   (d) the Federated Furnishing Trade Society of Australasia (Queensland Branch) Union of Employees ('**FFTSQ**') was the registered organisation in Queensland which had the Federated Furnishing Trade Society of Australasia ('**FFTS**') as its counterpart federal body;

   (e) the FFTS amalgamated in March 1993 to become part of the (then) Construction, Forestry, Mining and Energy Union and, subsequently, became part of the Forestry Furnishing Building Products & Manufacturing Division ('**FFPD**') and its members were attached to the FFPD;

   (f) in January 1998 the FFTSQ amalgamated with other organisations to form the Construction, Forestry, Mining & Energy, Industrial Union of Employees, Queensland ('**CFMEUQ**');

   (g) the CFMEUQ has not had, and does not have, a separate section for those members who fall within Rule A7 Section A(e) of the CFMEUQ, Part A Rules ('**FFTSQ Members**');

   (h) the FFTSQ Members have, since the CFMEUQ was sectionalised following the amalgamations with FEDFAQ/QCEUE, and are presently attached, in accordance with the CFMEUQ's rules, to the State Construction and General Division;

   (i) the eligibility of the FFTSQ and the FFTS was significantly the same and the consequence of this was that the FFTSQ Members were members of both the CFMEUQ and the CFMEU;

   (j) the FFTSQ Members are now:

      (i) members of the CFMEUQ attached to the State Construction and General Division ('**State Division**'); and

      (ii) members of the CFMMEU attached to the Manufacturing Division;

(q) there are FFTSQ Members intending to stand for, and contest, a number of offices in the elections of the Manufacturing Division, including Bluey Menon who is the FFTSQ Members representative on the State Divisional Council;

(r) the FFTSQ Members have a common purpose with those other members of the Manufacturing Division who are running against incumbent offices of the Manufacturing Division to effect change in the service and representation currently provided both in relation to Districts and in the Manufacturing Division, and they have determined to form a 'ticket' in the elections;

(s) in order for these FFTSQ Members, and those other members of the Manufacturing Division that form part of their 'ticket', to be able to contest these elections they will require resources;

(t) Bluey Menon, who is currently the WA, QLD and NT District Honorary President, will take a leave of absence from his employment in order to contest the election and that he intends to contest the significant office of Divisional Secretary against a longstanding incumbent officer;

(u) it is in the interest of the State Division to effect national change in the Manufacturing Division on behalf of these FFTS Members to effect better leadership and to assist in the election of the FFTS Members and their 'ticket'; and

(v) the State Division has sought advice, and has been advised, that it can direct resources of the State Division to support of those FFTSQ Members and those persons on the 'ticket' standing in the elections of the Manufacturing Division.

Relationship with Federal Union

The State Secretary provided a report on why the union needed to make changes where necessary and in the best interests of the union and its members.

Decision:

1. *The Construction, Forestry, Maritime, Mining and Energy Union in respect of the Construction and General Division, Queensland Northern Territory Divisional Branch ('**QNTDB**') is the federal counterpart of the CFMEUQ C&G.*
2. *A significant number of the members of the QNTDB are eligible to be, and are, members of the Construction, Forestry, Mining & Energy, Industrial Union of Employees, Queensland attached to the CFMEUQ C&G.*

Initial: _____ Date: 22/11/19

3. *A significant number of the members of the CFMEUQ C&G are eligible to be, and are, members of the Construction, Forestry, Maritime, Mining and Energy Union, attached to the QNTDB.*

4. *A significant number of the members of the QNTDB/CFMEUQ C&G are dual members ('**Dual Members**').*

5. *Prior to 2013, the CFMEUQ collected the whole of the membership fee for the Dual Members and, by administrative arrangement, made payment of the QNTDB's capitation on behalf of the QNTDB.*

6. *As a result of what was considered by the State Divisional Executive at its meeting on the 17 May 2013:*

   (a) to be a significant growth in the membership of the QNTDB in the Northern Territory;

   (b) to be significant organising opportunities presented by the merger of the (then) Queensland Construction Workers Divisional Branch with the Builders Labourers Divisional Branch that required the divisional branch to be better, more effectively and more appropriately resourced; and

   (c) the (then) Newman LNP Qld Government seeking to restrict, by oppressive legislation, the legitimate rights and freedoms of the CFMEUQ C&G to campaign for the industrial and other rights of its Dual Members,

   it was determined that it was in the best interests of the Dual Members for the CFMEUQ C&G make payment to the (then) Queensland Construction Workers Divisional Branch to ensure the effective functioning and its ongoing representation of the dual members of the CFMEUQ/CFMEU and the Northern Territory members in the federal jurisdiction.

7. *It was also determined, as it was considered to be in the best interests of the Dual Members at that time and for the reasons set out in paragraph 6, that the administrative and operational arrangements between the CFMEUQ C&G and the QNTDB were to be altered and that the QNTDB would become responsible for collecting the whole of the membership fee for the Dual Members and, by administrative arrangement, make payment to the QNTDB.*

8. *The State Divisional Executive considers, as a result of the current state of domestic construction and the likelihood of the Queensland Government significantly increasing its expenditure on state infrastructure and other building works, there is now the potential for significant growth in the members of the CFMEUQ C&G employed by the State and Local Governments in Queensland.*

9. *The State Divisional Executive notes the advice of the State Secretary that the QNTDB is not able to industrially represent the Dual Members employed by the State and Local Government in Queensland.*

10. *The State Divisional Executive considers that, since 2013, the CFMEUQ C&G has been inadequately resourced in respect of the Dual Members employed by the State and Local Government in Queensland.*

11. *The State Divisional Executive recognises that:*

    (a) the anti-worker Newman LNP Government was quickly and soundly defeated, its legislation was reversed and the significant risks of operating in the state jurisdiction were removed;

    (b) the growth of the membership in Northern Territory did not reach the expectation of the QNTDB at the time of its determination in May 2013 and that that growth was dependent to a greater extent than was expected on project work,

    with the consequence that the basis for the decisions made by the CFMEUQ C&G did not in fact transpire.

Initial: _____ Date: 22/11/192

12. *The State Divisional Executive considers that the Morrison Coalition Government is now seeking to severely restrict the legitimate rights and freedoms of the QNTDB, just as the Newman LNP Government sought to do to the CFMEUQ C&G in Qld, to act in the best interests of the Dual Members.*

13. *In particular, the State Divisional Executive notes:*

    (a) the report of the State Secretary in relation to the effect of legislation being introduced that is designed to use up the resources of the Dual Members on dealing with matters that do not further their industrial interests; and

    (b) that the international community has made clear in the report of the International Centre for Trade Union Rights that the recent industrial legislation of the Morrison Coalition Government is inconsistent with the international labour obligations of Australia.

14. *The State Divisional Executive notes the advice received by the State Secretary that those restrictions do not apply to the CFMEUQ C&G.*

15. *The State Divisional Executive will, due to the matters set out above, namely:*

    (a) the permanent growth in the NT not being as expected;

    (b) the Newman Government being quickly and roundly defeated;

    (c) the expected growth in state infrastructure and employment; and

    (d) the draconian anti-worker legislation of the Morrison Coalition Government,

    amongst other things, require the alteration of the arrangements for the collection of the membership fee and the arrangements for resourcing the CFMEUQ C&G.

16. *The CFMEUQ will advise the QNTDB that it now intends to ensure that it effectively operates and is appropriately and adequately resourced.*

17. *The State Divisional Executive determines that the State Secretary advise the QNTDB:*

    (a) that the CFMEUQ C&G now intends to ensure that it effectively operates and is appropriately and adequately resourced to the benefit of the Dual Members; and

    (b) that there is significant benefit in the administrative arrangements between the CFMEUQ C&G and the QNTDB being reviewed to ensure effective delivery of resource for Dual Members and:

        (i) the CFMEUQ C&G and the QNTDB consider, as part of the review of the administrative arrangements, other ways to improve the effectiveness, and, as far as practicable, reduce unnecessary costs, of dual registration;

        (ii) the CFMEUQ C&G may take up further obligations that the QNTDB may require, in consideration for an alteration to the administrative arrangements, relating to, amongst other things:

            A staffing (including labour costs/requirements);

            B communication with members;

            C industrial representation and objectives;

            D access to advice;

            E industrial campaigning on professional issues;

            F industrial and other campaigning;

            G state campaigning;

H *community campaigning;*

I *national campaigning;*

J *political campaigning;*

17.2. The State Divisional Executive directs the State Secretary to:

(a) *negotiate with the QNTDB and following those negotiations to prepare a draft service agreement to set out the arrangements between the QNTDB and the CFMEUQ C&G; and*

(b) *seek payment from the QNTDB to ensure the CFMEUQ C&G is presently able to effectively function and provide appropriate ongoing support to the Dual Members whilst the review is ongoing.*

Administrative Arrangements

The following resolutions regarding administrative arrangements were presented to the Construction, Forestry, Mining and Energy Union Industrial Union of Employees, Queensland- Construction and General Division State Executive:

Resolution 1 – Income

The State Executive notes that:

- there has for a very long time been arrangements in place between the CFMEU and its predecessors and the CFMEUQ and its predecessors for the sensible administration of the 2 entities so as to maximise membership benefit and avoid unnecessary cost by duplication;
- a number of amalgamations and mergers have occurred in Queensland that have had an effect on the way in which the CFMEUQ operates;
- the amalgamations that have occurred in the last 2 years have unified the state components of the CFMEU and have been with the:

  (a) CFMEUQ;
  (b) FEDFA;
  (c) QCEUE; and
  (d) BLF;

- the amalgamations were structured to reflect the arrangements that exist in the CFMEU and utilise a divisional structure (Construction and General/Miners);

- a merger occurred in the federal jurisdiction which resulted in the C & G Division representing all members in Queensland not otherwise attached to the Mining Division, with the exception of the FFPD members who are represented on an agency basis by the C & G Division;

- different structural arrangements have also been necessary to provide for the representation of the Northern Territory members who are also attached to the C & G Division and the Divisional Branch was renamed the Queensland Northern Territory Divisional Branch ("the C&G Divisional Branch");

- the State Construction and General Division ("the State Division") of the CFMEUQ has substantially the same membership as the C&G Divisional Branch;

- the general position of the C&G Divisional Branch in the last few years, and which takes into account the unification of the state counterparts of the CFMEU, was to create uniformity by emphasising the Federal identity of the CFMEU, not just between the members of the former BLF and Building Workers Division Branches in Queensland, but particularly with the Northern Territory members;

- the State Division recognises that the C&G Divisional Branch and the CFMEU consider it both appropriate and desirable that the contributions of Joint Members be administered by Divisional Branches and not state counterparts, as the CFMEU is streamlining its operations around Australia to move to a greater federal focus, more defined identity and to respond to Government and Employer attacks in a more cohesive way;

- due to the State Division having significantly the same membership as the C&G Divisional Branch ("Joint Members") with the exceptions of the FFTS/Northern Territory members, administrative practices have been implemented to avoid overlap, inefficiencies and unnecessary cost;

- structural/administrative arrangements have also been implemented by the State Division in conjunction with the C&G Divisional Branch due to:

  (a) the significant growth in the number of members of the C&G Divisional Branch in the Northern Territory;
  (b) the significant majority of Joint Members being national system employees;
  (c) the significant majority of members of the former BLF are national system employees;
  (d) the continued decline in the state industrial systems around Australia as the Howard amendments to the industrial relations system has taken hold;
  (e) the attack on workers in Queensland by the Newman Government;
  (f) the unmeritorious attack on Queensland union structures by Bleije/Newman; and
  (g) the stripping of employees from Queensland government services;

- recognition of these factors and the appropriateness of utilising the CFMEU as the more relevant overarching structure, that can accommodate the needs of the Joint Members into the future, has required the administrative process, inclusive of the:

  (a) payment of subscriptions and levies;

(b) employment of staff;
(c) training of officials;
(d) engagement of agents/suppliers; and
(e) purchase of plant and equipment,

to occur in the C & G Divisional Branch as opposed to using the state union as previously occurred;

- the State Division has, through its officers, confirmed to the C & G Divisional Branch that the preferred approach of the State Division is to operate in a cohesive way through the C & G Divisional Branch by streamlining to the extent possible the administrative arrangements between the 2 entities, provided that compliance must be effected in relation to the state registered union so that the ability of the state registered union to continue to represent members in the state commission is ensured;

- the joint members are only to pay one set of contributions which the C & G Divisional Branch will collect and the rules of the state union will provide that members of the State Division who are financial in the CFMEU and are attached to the C & G Divisional Branch are not required to pay a further fee,

- the State Division will also ensure its rules provide for similar structures to the C & G Divisional Branch and that an exemption from election can be obtained by the State Division so that the officers who hold corresponding offices will be the same;

- the officers of the C & G Divisional Branch have confirmed that a priority of the administrative arrangements will be to ensure the continued existence and ongoing compliance of the state registered entity; and

- it is appropriate to formalise the arrangements between the State Division and the C & G Divisional Branch in writing.

<u>Decision:</u> *"The State Executive authorises the State Secretary to prepare a written agreement to provide for the administrative arrangements in place between the State Division and the C&G Divisional Branch, for:*

(a) subscription fees to be paid to, and collected by, the C & G Divisional Branch;
(b) levies to be collected by the C & G Divisional Branch;
(c) employees to be engaged by the C & G Divisional Branch;
(d) employees/joint employees to be administered by the C & G Divisional Branch;
(e) agents/suppliers to be engaged by the C & G Divisional Branch;
(f) finances/administration to be conducted by the C & G Divisional Branch; and
(g) membership services to be delivered through the C & G Divisional Branch,

and to liaise with the Divisional Branch Secretary of the C & G Divisional Branch on the terms of the arrangements.

The State Executive authorises the State Secretary, on behalf of the State Division, to enter into written agreements with the C & G Divisional Branch, once the State Secretary is satisfied that the agreement provides for the administrative arrangements currently in place between the State Division and the C & G Divisional Branch."

Resolution 2 – Grants

The State Executive notes that:

- as part of the restructuring of administrative arrangements between the State Division and the C & G Divisional Branch to ensure effective operations, the administration of the existing BERT apprenticeship scheme grants was transferred by the State Division to the C & G Divisional Branch, on the basis that the C & G Divisional Branch act as the agent for the State Division for the purposes of discharging the grant and to fulfil its obligations with respect to its grant funding;

- commencing in 2013 BERT grants for the apprenticeship scheme are made to the C & G Divisional Branch and not the State Division; and

- the State Secretary confirmed that it is best practice for the administrative and financial activities relating to the grants to be delivered by the C & G Divisional Branch, and consequently agreed to act as the agent of the State Division for the purposes of effecting the grants.

Decision: *"The State Executive resolves that the State Division confirms the appointment of the C&G Divisional Branch as the agent for the purpose of assisting the State Division to fulfil its obligations with respect to its BERT grant funding for apprentices, and confirms and adopts the State Secretary's administrative decision to do so."*

Resolution 3 – Maintenance of property

The State Executive notes that:

- the State Division has, for a number of years, agreed that the C & G Divisional use the State Division's property for the benefit of Joint Members;

- the maintenance of the properties of the State Division is a continuing expense of the State Division;

- the previous administrative arrangements in place between the C & G Divisional Branch and either the CFMEUQ (prior to 1.5.13) and the State Division, as the case may be, provided that the CFMEUQ/State Division collected the membership subscriptions of Joint Members who were required to only pay a single subscription;

- due to the change in the structural/administrative arrangements, this is no longer the situation and the State Division no longer has a direct source of funds derived from membership subscriptions;

- consequently the State Division must seek payment from the C & G Divisional Branch to defray the costs associated with ownership/maintenance of its property which the C & G Divisional Branch uses;

- in exchange for the payment the State Division will provide a license (or other appropriate arrangement) to the C & G Divisional Branch to use its property held in the State Division's divisional fund; and

- it is appropriate for the State Secretary to enter into an agreement with the C & G Divisional Branch to provide for the license or other arrangement.

Decision: *"The State Executive authorises the State Secretary, on behalf of the State Division, to enter into a written agreement with the C & G Divisional Branch which provides for payments to be made from the C & G Divisional Branch to the State Division for the C & G Divisional Branch's continued use of the State Division's properties."*

Resolution 4 – GST

The State Executive notes that:

- administrative arrangements are in place which require a number of transactions to be made between the State Division and the C & G Divisional Branch;

- the C & G Divisional Branch and the State Division:

  (a) are both registered for GST;
  (b) have the same tax periods as each other;
  (c) account for GST on the same basis as each other;
  (d) are not a member of any other GST groups; and
  (e) do not have any registered GST branches;

- if the State Division and C & G Divisional Branch were to register as a GST Group, transactions between the State Division and C & G Divisional Branch would not treated as taxable sales or purchases; and

- it is appropriate for this matter to be investigated by the State Secretary.

Decision: *"1. The State Executive directs the State Secretary to investigate forming a GST Group with the C & G Divisional Branch in accordance with the A New Tax System (Goods and Services Tax) Act 1999.*

2. The State Executive directs the State Secretary to:
(a) seek specific advice as to the accounting treatment of GST Groups; and
(b) report to a subsequent meeting of the State Executive about the advantages and disadvantages of forming a GST Group."

Resolution 5 – Defence Fund

The State Executive notes that:

- the State Division's defence fund has been transferred to the Branch Fund of the C & G Divisional Branch where it has been used for, and is to be used for, the purpose of defending joint members;
- the reason for this transfer are that the concerted attacks against members are occurring in relation to joint members who are engaged as national system employees and it is more administratively sensible for the funds to be managed by the C & G Divisional Branch;
- the transfer is also consistent with the matters noted in relation to resolution 1; and
- the actions of the State Secretary in transferring the funds are endorsed.

Decision: *"The State Executive endorses, and confirms, the decision of the State Secretary to transfer the fighting fund to the C & G Divisional Branch to be used in accordance with the purpose for which it was established."*

Resolution 6 – Accrued Employee Entitlements

The State Executive notes that:

- the State Division's accrued employee entitlements have been transferred to the divisional branch fund of the C & G Divisional Branch where it has been used for, and is to be used for, the purpose of payment of accrued entitlements to the Joint Employees and/or former employees of the CFMEUQ/State Division;
- the transfer is consistent with the matters noted in relation to resolution 1;
- the arrangements need to be regularised to ensure that the interests of the State Division are protected by way of an enforceable indemnity; and
- the actions of the State Secretary in transferring the funds are endorsed .

Decision: *"The State Executive endorses, and confirms, the decision of the State Secretary to transfer the accrued employee entitlements to the C & G Divisional Branch to be used for the payment of the accrued employment entitlements of Joint Employees or former employees of the CFMEUQ/State Division."*

Resolution 7 – Other administrative arrangements

The State Executive notes that:

- other aspects of the administrative arrangements, including those relating to the employment of joint staff, full-time officials, utilisation of plant and equipment and

the provision of membership services are appropriate to be dealt with by way of a written agreement, and may not presently be the subject of an agreement.

Decision: *"The State Secretary is directed to negotiate with the Divisional Branch Secretary of the C & G Divisional Branch and the C & G Divisional Branch to ensure all administrative arrangements, not otherwise specifically dealt with in resolutions 1-6, are the subject of a written agreement."*

Decision: *"That the State Executive of the Construction, Forestry, Mining & Energy Union, Industrial Union of Employees, Queensland – Construction and General Division endorse the resolutions."*

Administrative Arrangements

The following resolutions regarding administrative arrangements were presented to the Construction, Forestry, Mining & Energy Union, Construction & General Division, Queensland Northern Territory Divisional Branch Executive:

Resolution 1 – Accrual accounting

Preamble

The C&G Divisional Branch Executive notes:

(a) the reporting unit has historically recognised membership subscriptions as income on the date on which payment was received (the cash basis);
(b) the accrual basis recognises the financial effects of transactions or other events in the financial years in which they occur, to the extent that those financial effects can be recognised, irrespective of whether cash has been received or paid;
(c) by reporting membership subscriptions on the accrual basis, the income is recognised in the year that the subscription relates to, rather than when it is received;
(d) the Fair Work Commission ("FWC") has requested that membership subscriptions be reported on the accrual basis, in accordance with the Australian Accounting Standards; and
(e) the C&G Divisional Branch Secretary agreed to the request of the FWC and the financial reports for the year ending 31 December 2013 were prepared on an accrual basis.

0493

Decision: *"The C&G Divisional Branch Executive confirms and adopts the administrative decision of the C&G Divisional Branch Secretary to comply with the request of the FWC and to use the accrual basis for reporting membership subscriptions for the financial reports commencing from the 2013 financial year".*

Resolution 2 – Income

Preamble

The C&G Divisional Branch Executive notes:

1. A number of amalgamations unifying the CFMEU state counterpart have occurred in Queensland with the effect that different structural arrangements have been adopted for the operations of the:
   (a) CFMEUQ;
   (b) FEDFA;
   (c) QCEUE; and
   (d) BLF.

2. The general position that the C&G Divisional Branch has adopted in the last few years, and which takes into account the unification of the state counterparts, is to create uniformity by maximizing the Federal identity of the CFMEU, not just between the members of the former BLF and Building Workers Division Branches in Queensland, but also with the Northern Territory members.

COM.0001.0002.4409_0090

3. The merger of the Qld Divisional Construction Branches has also occurred in the federal jurisdiction which has meant that different structural arrangements were necessary for the continued operation of the C&G Divisional Branch.

4. The State Construction and General Division ("the State Division") of the CFMEUQ has substantially the same membership as the C&G Divisional Branch ("Joint Members") with some exceptions in relation to the FFTS and Northern Territory members, which has resulted in administrative practices being adopted to avoid overlap and unnecessary cost.

5. Structural and administrative arrangements have also been implemented in recognition of the fact that:
   (a) there has been significant growth in the number of members of the C&G Divisional Branch in the Northern Territory;
   (b) the significant majority of Joint Members are now national system employees; and
   (c) the significant majority of members of the former BLF are national system employees.

6. The C&G Divisional Branch also recognises that the National Division and National Union consider it appropriate that the membership subscriptions of Joint Members be administered by C&G Divisional Branches and not counterpart State Unions, as the CFMEU streamlines its operations around Australia to move to a greater federal focus, and it is appropriate for the C&G Divisional Branch to support the Division and the National Union.

7. Recognition of these factors and the appropriateness of utilising the Federal Union as the more relevant overarching structure, that can accommodate the needs of the Joint Members into the future, requires the administrative process, inclusive of the payment of subscriptions, to be effected in the C&G Divisional Branch as opposed to utilising the State Union as previously occurred.

8. The State Division has, through its officers, confirmed that the preferred approach of the C&G Divisional Branch is also the preferred approach of the State Division.

9. The C&G Divisional Branch Secretary considers it is appropriate to formalise these arrangements in writing with the State Division and the C&G Divisional Branch wishes that he do so.

0494

<u>Decision:</u> *"The C&G Divisional Branch Executive authorises the C&G Divisional Branch Secretary to establish agreements that reflect the administrative arrangements in place between the C&G Divisional Branch and the State Division with the:*

(a) subscription fees to be paid to the C&G Divisional Branch;
(b) finances/administration to be conducted by the C&G Divisional Branch;
(c) membership services to be delivered through the C&G Divisional Branch,

and to liaise with the State Secretary of the State Division as to the terms of the arrangements.

The C&G Divisional Branch Executive authorises the C&G Divisional Branch Secretary, on behalf of the C&G Divisional Branch, to enter into written agreements with the State Division, once the C&G Divisional Branch Secretary is satisfied that the agreements provide for appropriate administrative arrangements in accordance with the preamble to this resolution between the C&G Divisional Branch and the State Division."

COM.0001.0002.4409_0091

Resolution 3 – Grants

Preamble

(a) As part of the restructuring of administrative arrangements between the State Division and the C&G Divisional Branch to ensure effective operations, the administration of the existing BERT apprenticeship grants was transferred by the State Division to the C&G Divisional Branch, with the C&G Divisional Branch to act as the agent for the State Division.

(b) Commencing in 2013 the BERT grants are made to the C&G Divisional Branch and not the State Division.

(c) The C&G Divisional Branch Executive notes that the State Executive of the State Division has appointed the C&G Divisional Branch as agents of the State Division for the purpose of assisting the State Division to fulfil its obligations with respect to its grant funding.

(d) The C&G Divisional Branch Secretary confirmed that it is best practice for the administrative and financial activities relating to the grants to be delivered by the C&G Divisional Branch, and consequently agreed to act as the agent of the State Division for the purposes of effecting the grants.

Decision: *"The C&G Divisional Branch Executive resolves that the C&G Divisional Branch accepts appointment as the agent of the State Division for the purpose of assisting the State Division to fulfil its obligations with respect to its BERT grant funding for apprentices, and confirms and adopts the C&G Divisional Branch Secretary's administrative decision to do so."*

0495

Resolution 4 – Maintenance of property

Preamble

(a) The State Division has, for a number of years, agreed that the C&G Divisional Branch use the State Division's property for the benefit of Joint Members.

(b) The maintenance of the properties of the State Division is an expense of the State Division.

(c) The previous administrative arrangements in place between the C&G Divisional Branch and the CFMEUQ (as it was) and the State Division, as the case may be, provided that the CFMEUQ/State Division collected the membership subscriptions of Joint Members who were required to only pay a single subscription.

(d) Due to the change in the structural/administration arrangements, this is no longer the situation and the State Division no longer has the direct access to the funds derived for membership subscriptions.

(e) Consequently the State Division seeks a contribution from the C&G Divisional Branch to defray the costs associated with ownership and maintenance of its property which is utilised by the C&G Divisional Branch.

(f) In exchange for the contribution the State Division will provide a licence to the C&G Divisional Branch to use the property.

COM.0001.0002.4409_0092

Decision: *"The C&G Divisional Branch Executive authorises the C&G Divisional Branch Secretary, on behalf of the C&G Divisional Branch, to enter into a written agreement with the State Division which provides for relevant payments to be made from the C&G Divisional Branch to the CFMEUQ for the C&G Divisional Branch's continued use of the State Division's properties."*

Resolution 5 – GST

Preamble

(a) Administrative arrangements are in place which require a number of transactions to be made between the State Division and the C&G Divisional Branch.

(b) The C&G Divisional Branch and the State Division:
- (i) are both registered for GST;
- (ii) have the same tax periods as each other;
- (iii) account for GST on the same basis as each other;
- (iv) are not a member of any other GST groups; and
- (v) do not have any registered GST branches.

If the State Division and C&G Divisional Branch were to register as a GST Group, transactions between the State Division and C&G Divisional Branch would not treated as taxable sales or purchases.

Decision: *"1. The C&G Divisional Branch Executive directs the C&G Divisional Branch Secretary to investigate forming a GST Group with the State Division in accordance with the A New Tax System (Goods and Services Tax) Act 1999.*

2. The C&G Divisional Branch Executive directs the C&G Divisional Branch Secretary to:

(a) seek specific advice as to the accounting treatment of GST Groups; and

(b) report to a subsequent meeting of the C&G Divisional Branch Executive about the advantages and disadvantages of forming a GST Group."

0496

Resolution 6 – Defence Fund

The C&G Divisional Branch Executive notes that:

- the State Division's defence fund has been transferred to the Branch Fund of the C&G Divisional Branch where it has been used for, and is to be used for, the purpose of defending joint members;
- the reason for this transfer are that the concerted attacks against members are occurring in relation to joint members who are engaged as national system employees and it is more administratively sensible for the funds to be managed by the C&G Divisional Branch;
- the transfer is also consistent with the matters noted in relation to resolution 2;
- the C&G Divisional Branch Executive acknowledges the purpose for which the funds were transferred and the purpose for which the fund was established; and
- the C&G Divisional Branch Executive acknowledges that the fund will only be used for that purpose.

Decision: *"The C&G Divisional Branch Executive accepts the decision of the State Secretary to transfer the fighting fund to the C&G Divisional Branch and agrees to use the fund in accordance with the purpose for which it was established."*

COM.0001.0002.4409_0093

Resolution 7 – Accrued Employee Entitlements

The C&G Divisional Branch Executive notes that:

- the State Division's accrued employee entitlements have been transferred to the C&G Divisional Branch fund of the C&G Divisional Branch where it has been used for, and is to be used for, the purpose of payment of accrued entitlements to the Joint Employees and/or former employees of the CFMEUQ/State Division;
- the transfer is consistent with the matters noted in relation to resolution 2;
- the C&G Divisional Branch Executive acknowledges the purpose for which the accrued employee entitlements were transferred;
- the C&G Divisional Branch Executive acknowledges that the money held for the purpose of accrued employee entitlements will only be spent for that purpose; and
- the arrangements need to be regularised to ensure that the interests of the State Division are protected by way of an enforceable indemnity and the C&G Divisional Branch Executive understands the purpose for which the entitlements were transferred;

Decision: *"The C&G Divisional Branch Executive accepts the decision of the State Secretary to transfer the accrued employee entitlements to the C&G Divisional Branch and agrees to only use the money held for the purpose of accrued employee entitlements to pay accrued employee entitlements of Joint Employees or former employees of the CFMEUQ/State Division."*

Resolution 8 – Other administrative arrangements

Preamble

The C&G Divisional Branch Executive considers that other aspects of the administrative arrangements, including those relating to the employment of joint staff, full-time officials, utilisation of plant and equipment and provision of membership services are appropriate to be dealt with by way of a written agreement, and may not presently be the subject of an agreement.

Decision: *"The C&G Divisional Branch Secretary is directed to negotiate with the State Secretary and the State Division to ensure all administrative arrangements, not otherwise specifically dealt with in resolutions 2-7, are the subject of a written agreement."*

Financial Reports:

The Divisional Branch State Secretary presented and explained the financial accounts. We have had a good start to 2014 with income but our expenditure (legal bills) has been very high. We will be moving to a system called accrual accounting because of an order from the Abbott Government through Fair Work Australia. This shift in accounting will show a poor start for 2014 but will do catch up figures later in the year to then show the current figures.

Decision: "That the report be received"

Moved: Ian McKewin Seconded: Kane Pearson

Royal Commission:

The Divisional Branch State Secretary reported on the 2014 Royal Commission to be headed by Ex Judge Dyson Heydon. This case will commence on April 9 and will mostly be run out of Sydney and will take approximately one whole year. The purpose of this Royal Commission will be to dirty up the CFMEU then in the lead up to a Federal Election make the ALP look bad in the process. We will run with one legal team for the whole of the CFMEU and Tony Maher will be spokesman.

BLF/CFMEU Amalgamation:

The Divisional Branch Secretary reported that the amalgamation process is 90% finalised and has been well accepted by all Delegates and the members. Just waiting for the 60 day appeal period to expire then the Commission will finalise the process. All staff and the organisers are working well in their new environment. All organisers and staff will be on the CFMEU payroll as of 1 April 2014. There has been some issues around direct debit but have now been sorted. Peter Close will be resigning his employment with the CFMEU on 6 June and moving on so all his union responsibilities will have to be redirected to other Senior Officials.

Decision: "That the report be received"

Moved: Ian McKewin Seconded: Keith Murphy

Right of Entry:

1. **Health and Safety**

The Divisional Branch Secretary reported that the Queensland State Newman Government is legislating that union officials will have to provide 24 hours' notice to Builders to investigate Health and Safety complaints and breaches. This will encourage Health and Safety standards to deteriorate on sites. These changes will take effect by April. The CFMEU will continue to represent our members Health and Safety concerns. This is a good issue to campaign on.

0506

2. **Industrial**

The Federal Government is looking at processes to restrict access to our members and access to job sites. We will have some major issues with some our official's entry permits. The Abbott Government will attack all our Right of Entry permits in order to restrict our ability to gain access to our members and weaken the CFMEU. Nigel Hadgkiss is an evil operator and a liar.

Decision: "That the report be received"

Moved: Ian McKewin Seconded: Royce Kupsch

ABCC& Federal Matters:

The Divisional Branch State Secretary reported that the FWBC inspectors have been very active across the Country and have lots of issues against CFMEU and its officials.

There is a proposal for the CFMEU, Michael O'Connor's "FFPD" Division to fully integrate into our Construction and General Division Nationally.

There are also discussions for another National organiser in Dave Noonan's National office.

Campaigns:

The Divisional Branch Secretary reported on the following campaigns:

0507

1. **Local Government**

There have been major changes to Industrial Relations in Queensland by the Newman State Government. The maximum allowable pay rise for Government employees is 2½ %, there are also job security clauses and protections removed and no payroll deductions for union dues. This is an excellent campaigning opportunity to attack the Newman Government.

2. **Shopfitters**

The CFMEU is pursuing a National Agreement with Westfield design and Construction for their shopping Centres Brookfield Multiplex. Indooroopilly shopping Centre is the perfect example of sham contracting with every avoidance of superannuation and awards possible. Retail construction is going to go crazy over the next few years.

3. **Union Protection**

The Divisional Branch Council has authorised a $10 levy on each 6 month ticket to raise $10 million over the next 3 years to help defend the Union from the attacks by the Abbott Government and the Heydon Royal Commission. The National Union is providing assistance to the South Australia Branch to help them get back on their feet. The dues contributions across the Country in all Branches will be adjusted to match the Queensland dues contribution rate.

The State Divisional Executive notes the following:

1. On 27 July 2023, Judge Vasta in *Fair Work Ombudsman v Construction, Forestry, Maritime, Mining and Energy Union (BBQ Case)* [2023] FedCFamC2G 668 declared that Michael Ravbar contravened the *Fair Work Act 2009* (Cth) on two occasions and, as a result, ordered that he pay two penalties totalling $9,320.00;
2. In respect of each of those penalties, Mr Ravbar must not:
   (a) seek or encourage the Construction, Forestry, Maritime, Mining and Energy Union (**CFMMEU**) to pay to them, or their financial benefit, any money or financial benefit referable to the payment of the penalty; and
   (b) accept or receive from the CFMMEU any money or financial benefit referable to the payment of the penalty.
3. Mr Ravbar must comply with the orders.

4. The Construction, Forestry, Mining & Energy, Industrial Union of Employees, Queensland, State Construction and General Division (**State Union**) has received advice from Hall Payne Lawyers, confirming that:

   (a) the Construction, Forestry, Mining & Energy, Industrial Union of Employees, Queensland (**CFMEUQ**) is a separate legal entity to the CFMMEU;

   (b) the CFMEUQ was not involved in the contravention nor was it a party to the proceedings before the Federal Court; and

   (c) consequently, the Federal Court could not impose such an order on the CFMEUQ (nor, on their understanding of the findings, was such an order intended).

5. As a result, the Federal Court order places no obligation or prohibition on the CFMEUQ nor is it drafted to be binding upon the CFMEUQ.

6. The State Assistant Secretary has confirmed that the State Divisional Executive has all the powers of the State Union and can exercise that power in accordance with the objects of the CFMEUQ, which relevantly include:

   (a) advancing the interests of members;

   (d) doing all such things as may be necessary or incidental to the carrying out of the objects of the CFMEUQ.

7. The State Divisional Executive also has the power to grant donations in accordance with Rule B70 of the Part B Rules of the CFMEUQ, set out below:

   B70. DONATIONS/LOANS/GRANTS

   (a) The State Divisional Executive will have the power to grant donations when application has been made in accordance with the provisions of these State Divisional rules.

   (b) Payments may be made for the purpose of relieving members who are in distress.

   (c) No member who has been less than 3 months in the State Division will be eligible for assistance.

   (d) Requests for donations for purposes other than the relief of members will be forwarded to the State Divisional Executive and must contain full particulars of the purpose of the proposed donation.

   (e) Notwithstanding anything contained elsewhere in these rules a loan, grant or donation of any amount exceeding $1,000.00 will not be made by the Union, unless the State Divisional Executive has satisfied itself:

   (i) that the making of the loan, grant or donation would be in accordance with these State Divisional rules and the Union's rules; and

   (ii) in relation to a loan - that, in the circumstances, the security proposed to be given for the repayment of the loan is adequate and the proposed arrangements for the repayment of the loan are satisfactory,

   and has approved the making of the loan, grant or donation.

8. Michael is a member of the State Union, and the State Union is well known for looking after members. The State Divisional Executive has the power to make this decision and such a payment is within the objectives of the State Union.

9. Further, Hall Payne Lawyers have confirmed that action taken here today as officers of the State Union is not action taken by you as officers of the Queensland Branch of the CFMMEU, Construction and General Division.

10. Michael is absent from both deliberation of the request and voting to approve/reject the request.

- Request from member for release of financial distress

Correspondence addressed to the State Secretary from temporary organiser, Beau Seiffert regarding relief of his financial distress was tabled.

The State Secretary determined that it was appropriate to abstain from both the deliberations and decision in relation to the request. He left the room and did not participate in any discussion or decision in relation to the request.

The President and Assistant State Secretary, Kane Lowth spoke to the request.

The State Divisional Executive notes the following:

1. On about 16 June 2022, Justice Logan in *Australian Building and Construction Commissioner v Construction, Forestry, Maritime, Mining and Energy Union (the Titan Cranes Case)* [2022] FCA 774 declared that Beau Seiffert contravened section 52(c) of the *Building and Construction Industry (Improving Productivity) Act 2016* (Cth).
2. As a result, the Federal Court ordered that Beau pay a penalty of $30,000.00 and in respect of 50% of that penalty, Beau must not:
   (a) seek or encourage the Construction, Forestry, Maritime, Mining and Energy Union (**CFMMEU**) to pay to him, or his financial benefit, any money or financial benefit referable to the payment of the penalty; and
   (b) accept or receive from the CFMMEU any money or financial benefit referable to the payment of the penalty.
3. Beau must comply with the order and, to enable him to do so, he has requested financial assistance from the Construction, Forestry, Mining & Energy, Industrial Union of Employees, Queensland, State Construction and General Division (**State Union**). The request has been provided to all

members of the State Divisional Executive on the condition that each member keep the information disclosed by Beau as to his financial affairs confidential.

4. The State Divisional Executive has all the powers of the State Union and can exercise that power in accordance with the objects of the CFMEUQ, which relevantly include:

   (a) advancing the interests of members;

   (b) advancing the living and working conditions of workers and their families;

   (c) being involved in socially responsible actions as part of the wider community in Queensland, Australia and overseas; and

   (d) doing all such things as may be necessary or incidental to the carrying out of the objects of the CFMEUQ.

5. The State Divisional Executive also has the power to grant donations in accordance with Rule B70 of the Part B Rules of the CFMEUQ, set out below:

> ***B70. DONATIONS/LOANS/GRANTS***
> *(a) The State Divisional Executive will have the power to grant donations when application has been made in accordance with the provisions of these State Divisional rules.*
> *(b) Payments may be made for the purpose of relieving members who are in distress.*
> *(c) No member who has been less than 3 months in the State Division will be eligible for assistance.*
> *(d) Requests for donations for purposes other than the relief of members will be forwarded to the State Divisional Executive and must contain full particulars of the purpose of the proposed donation.*
> *(e) Notwithstanding anything contained elsewhere in these rules a loan, grant or donation of any amount exceeding $1,000.00 will not be made by the Union, unless the State Divisional Executive has satisfied itself:*
> *(i) that the making of the loan, grant or donation would be in accordance with these State Divisional rules and the Union's rules; and*
> *(ii) in relation to a loan - that, in the circumstances, the security proposed to be given for the repayment of the loan is adequate and the proposed arrangements for the repayment of the loan are satisfactory,*
> *and has approved the making of the loan, grant or donation.*

6. Beau is a member of the State Union and has been for significantly longer than the three months required. Beau has made a request for a payment by the State Union to relieve him of the distress caused by the financial hardship that would be imposed upon him by the payment of 50% of the penalty. Beau has set out the particulars of this financial hardship to enable the State Divisional Executive to make a decision.

7. The State Union is well known for looking after members who require its assistance. The State Divisional Executive has the power to make this decision and such a payment is within the objectives of the State Union.

8. The State Union is a division of the Construction, Forestry, Mining & Energy, Industrial Union of Employees, Queensland (**CFMEUQ**), which is a separate legal entity to the CFMMEU. The CFMEUQ was not involved in the contravention nor was it a party to the proceedings before the Federal Court.

9. The State Secretary has sought legal advice from Hall Payne Lawyers in relation to the effect of the Federal Court order on the operations of the State Union.

10. Hall Payne Lawyers have confirmed that '*...the CFMEUQ is a separate legal entity and was not a party to the Titan Cranes Case and, as a consequence, the Federal Court could not impose such*

an order on the CFMEUQ (nor, on our understanding of the findings, was such an order intended)...'.

11. As a result, the Federal Court order places no obligation or prohibition on the CFMEUQ nor is it drafted to be binding upon the CFMEUQ.

12. Further, Hall Payne Lawyers have confirmed that action taken here today as officers of the State Union is not action taken by you as officers of the Queensland Branch of the CFMMEU, Construction and General Division.

13. The State Secretary has decided to abstain from both deliberation of the request and voting to approve/reject the request.

Hall Payne Lawyers, Dale Blackmore addressed Executive members regarding the request and took questions from the floor.

Decision: *"The State Divisional Executive, noting the report given and the request for financial assistance under rule B70 of the Part B Rules, directs the State Secretary to make a donation to Beau Seiffert of $15,000 in order to relieve him of the distress caused by the financial hardship that would be imposed upon him by the payment of 50% of the penalty".*

Relationship with State Union

The Divisional Branch Secretary provided a report on why the union needed to make changes where necessary and in the best interests of the union and its members.

Decision:

1. *The Construction, Forestry, Mining and Energy, Industrial Union of Employees, Queensland, State Construction and General Division ('**CFMEUQ C&G**') is the state counterpart of the QNTDB.*
2. *A significant number of the members of the CFMEUQ C&G are eligible to be, and are, members of the Construction, Forestry, Maritime, Mining and Energy Union attached to the QNTDB.*
3. *A significant number of the members of the QNTDB are eligible to be, and are, members of the CFMEUQ, attached to the State Construction and General Division.*
4. *A significant number of the members of the QNTDB/CFMEUQ C&G are dual members ('**Dual Members**').*

Initial: Date: 12/4/19 2

5. *Prior to 2013, the CFMEUQ collected the whole of the membership fee for the Dual Members and, by administrative arrangement, made payment of capitation on behalf of the (then) Queensland Construction Workers Divisional Branch ('**QCWDB**').*

6. *As a result of what was considered by the Divisional Branch Executive at its meeting on the 17 May 2013:*

   (a) to be a significant growth in the membership of the (then) QCWDB in the Northern Territory;

   (b) to be significant organising opportunities presented by the merger of the (then) QCWDB with the (then) Builders Labourers Divisional Branch that required the QCWDB to be better, more effectively and more appropriately resourced; and

   (c) the (then) Newman LNP Qld Government seeking to restrict, by oppressive legislation, the legitimate rights and freedoms of the CFMEUQ C&G to campaign for the industrial and other rights of its Dual Members.

   it was determined that it was in the best interests of the Dual Members for the CFMEUQ C&G make payment to the (then) QCWDB to ensure the effective functioning and its ongoing representation of the dual members of the CFMEUQ/(then) CFMEU and the Northern Territory members in the federal jurisdiction.

7. *It was also determined, as it was considered to be in the best interests of the Dual Members at that time and for the reasons set out in paragraph 6, that the administrative and operational arrangements between the CFMEUQ C&G and the (then) QCWDB were to be altered and that the QCWDB would become responsible for collecting the whole of the membership fee for the Dual Members and, by administrative arrangement, make payment to the QCWDB.*

8. *The (then) QCWDB and (then) Builders Labourers Divisional Branch merged and became the QNTDB.*

9. *The QNTDB recognises that:*

   (a) the growth of the membership in Northern Territory did not reach the expectation of the (then) QCWDB at the time of its determination in May 2013 and that that growth was dependent to a greater extent than was expected on project work; and

   (b) that the anti-worker Newman LNP Government was quickly and soundly defeated, its legislation was reversed and the significant risks of operating in the state jurisdiction were removed,

   with the consequence that the basis for the decisions made by the QNTDB did not in fact transpire.

10. *The CFMEUQ C&G has advised, and the Divisional Branch Executive accepts that, noting the current state of domestic construction and the likelihood of the Queensland Government significantly increasing its expenditure on state infrastructure, there is now the potential for significant growth in the members of the CFMEUQ C&G employed by the State and Local Governments in Queensland.*

11. *The Divisional Branch Executive considers that the Morrison Coalition Government is now seeking to severely restrict the legitimate rights and freedoms of the QNTDB, just as the Newman LNP Government sought to do to the CFMEUQ C&G in Qld, to act in the best interests of the Dual Members.*

12. *In particular, the Divisional Branch Executive notes*

   (a) the report of the Divisional Branch Secretary in relation to the effect of legislation being introduced that is designed to use up the resources of the Dual Members on dealing with matters that do not further their industrial interests; and

   (b) that the international community has made clear in the report of the International Centre for Trade Union Rights that the recent industrial legislation of the Morrison Coalition Government is inconsistent with the International labour obligations of Australia.

13. *The QNTDB notes the advice received by the Divisional Branch Secretary that those restrictions do not apply to the CFMEUQ C&G.*

COM.0001.0002.4410_0125

14. *The CFMEUQ C&G has in the view of the Divisional Branch Executive, since 2013, been inadequately resourced in respect of the Dual Members employed by the State and Local Government in Queensland.*

15. *The Divisional Branch Executive notes the advice of the Divisional Branch Secretary that the QNTDB is not able to industrially represent the Dual Members employed by the State and Local Government in Queensland.*

16. *The CFMEUQ C&G has advised that it will, due to the matters set out above, namely:*

    (a) the permanent growth in the NT not being as expected;

    (b) the Newman Government being quickly and roundly defeated;

    (c) the expected growth in state infrastructure and employment; and

    (d) the draconian anti-worker legislation of the Morrison Coalition Government,

    amongst other things, require the alteration of the arrangements for the collection of the membership fee and the arrangements for resourcing the CFMEUQ C&G.

17. *The CFMEUQ C&G has advised the QNTDB that it now intends to ensure that it effectively operates and is appropriately and adequately resourced.*

18. *The Divisional Branch Executive noting the matters set out above, shares the concern of the CFMEUQ C&G and endorses the position of the CFMEUQ C&G in relation to the resourcing so that Dual Members may be properly supported.*

19. *The Divisional Branch Executive determines that:*

    (a) it is appropriate and to the benefit of the Dual Members for the CFMEUQ C&G to be properly and adequately resourced;

    (b) there is significant benefit in the administrative arrangements between the CFMEUQ C&G and the QNTDB being reviewed to ensure effective delivery of resource for Dual Members;

    (c) the QNTDB agrees, in principle, to the review sought by the CFMEUQ C&G;

    (d) the CFMEUQ C&G and the QNTDB consider, as part of the review of the administrative arrangements, other ways to improve the effectiveness, and, as far as practicable, reduce unnecessary costs, of dual registration.

    (e) in consideration for an alteration to the administrative arrangements that the CFMEUQ C&G may require the QNTDB to adopt, the QNTDB may require the CFMEUQ C&G to take up further obligations relating to, amongst other things:

        (i) staffing (including labour costs/requirements);

        (ii) communication with members;

        (iii) industrial representation and objectives;

        (iv) access to advice;

        (v) industrial campaigning on professional issues;

        (vi) industrial and other campaigning;

        (vii) state campaigning;

        (viii) community campaigning;

        (ix) national campaigning;

        (x) political campaigning;

        (xi) training programs;

        (xii) health and safety initiatives;

(xiii) compliance obligations; and

(xiv) administration

(f) directs the Divisional Branch Secretary to negotiate with the CFMEUQ and following those negotiations to prepare a draft service agreement to set out the arrangements between the QNTDB and the CFMEUQ C&G; and

(g) payment be made to the CFMEUQ C&G to ensure the CFMEUQ C&G is presently able to effectively function and provide appropriate ongoing support to the Dual Members whilst the review is ongoing.

Beau and Blake have set out the particulars of this distress to enable the State Divisional Executive to make a decision.

7. The State Union is well known for looking after members who require its assistance. The State Divisional Executive has the power to make this decision and such a payment is within the objectives of the State Union.

8. The State Union is a division of the Construction, Forestry, Mining & Energy, Industrial Union of Employees, Queensland (**CFMEUQ**), which is a separate legal entity to the CFMMEU. The CFMEUQ was not involved in the contravention nor was it a party to the proceedings before the Federal Court.

9. The State Secretary has sought legal advice from Hall Payne Lawyers in relation to the effect of the Federal Court order on the operations of the State Union.

10. Hall Payne Lawyers have confirmed that the CFMEUQ is a separate legal entity and was not a party to these proceedings. Consequently, the Federal Court could not impose such an order on the CFMEUQ (nor, on their understanding of the findings, was such an order intended).

11. As a result, the Federal Court order places no obligation or prohibition on the CFMEUQ nor is it drafted to be binding upon the CFMEUQ.

12. Further, Hall Payne Lawyers have confirmed that action taken here today as officers of the State Union is not action taken by you as officers of the Queensland Branch of the CFMMEU, Construction and General Division.

13. The State Secretary has decided to abstain from both deliberation of the request and voting to approve/reject the request.

Decision: *The State Divisional Executive, noting the report given and the requests for assistance under rule B70 of the Part B Rules, directs the State Secretary to make a donation to:*

(e) Beau Seiffert of $24,000 in order to relieve him of the distress caused by the penalty; and

Dear Michael

Re: Defence Fund

We refer to our ongoing discussions, and your instructions in respect of the ownership of assets, particularly the asset described as the 'Defence Fund' (**'Fund'**) and enclose:

- minutes of the QNTDB Executive of 12 November 2019 (**'Schedule A'**); and
- minutes of the QNTDB Executive of 17 March 2020 (**'Schedule B'**).

We confirm that we have prepared a draft advice in relation to the:

- creation of the Fund and the Defence Fund Levy (**'Levy'**); and
- decisions of respectively the Queensland Northern Territory Divisional Branch (**'QNTDB'**) and the State Construction and General Division (**'State Division'**) to return the Fund, and the monies collected in accordance with the Levy, to the State Division.

That advice is still being settled in relation to its text and, in the interim, we provide the following executive summary:

1. In 2004, the (then) Construction, Forestry, Mining & Energy, Industrial Union of Employees, Queensland (**'CFMEUQ'**)[1] determined to create the Fund and resolved that members were required to make payment of the Levy.
2. This was a decision of the CFMEUQ as opposed to the Queensland Construction Workers Divisional Branch (**'QCWDB'**), for, inter alia, the following reasons:
   (a) the historical operation of the 'union' in Queensland as a state union;
   (b) fees were set, and collected, by the CFMEUQ;
   (c) that the QCWDB did not maintain a bank account nor have any financial affairs and, consequently, could not hold the Fund nor collect the Levy from members; and

[1] As it then was.

(d) the FFTS Members[2] have always made payment of the Levy.

3. All payments by members of the Levy were paid to the CFMEUQ until July 2013.[3]

4. On, and from, 1 July 2013, a 'restructure' occurred whereby the QNTDB opened a bank account, became the operating entity and began collecting the Levy from Dual Members[4], FFTS Members and the NT Members[5].

5. On 1 July 2013, the State Division transferred those monies held in the Fund to the QNTDB.

6. On 15 September 2014, the management committees of both the State Division and the QNTDB determined to implement administrative arrangements between the two entities to avoid overlap, inefficiencies and unnecessary cost.

7. The first relevant administrative arrangement implemented was a decision of the State Divisional Executive that the Levy was to be collected by the QNTDB, not that it was to be paid to the QNTDB, but rather remained part of the fund of the State Division.

8. Consistently, the QNTDB did not determine a levy of its own for contributions to the Defence Fund by Dual Members, albeit that the QNTDB has (and again consistently) implemented a levy of NT Members, and that the monies, collected in accordance with that levy, remain part of the Divisional Branch fund of the QNTDB.

9. The second relevant administrative arrangement implemented was a determination of the respective management committees in relation to the 'transfer' of the Fund. It is respectably arguable that this determination was the creation of an arrangement for management of the Fund by the QNTDB, rather than a transfer of ownership of the monies that comprised the Fund. This argument cannot, however, be unequivocally put.

10. In any event, if the 'transfer' was intended as a disposition of the rights over the monies that comprised the Fund by the State Division, the transfer was appropriate in the circumstances that applied, which circumstances the respective management committees considered in making that decision.

11. In these circumstances, the Fund comprises:

(a) the monies paid by the NT Members, which are to remain with the QNTDB;

(b) the monies transferred by the State Division in 2013 (which may or may not be monies of the State Division); and

(c) the monies paid by Dual Members and FFTS Members in accordance with the Levy and collected by the QNTDB since 1 July 2013.

12. It is not possible to trace the current amount of those monies identified in paragraph 11(b) and (c) due to the intermixing of those monies with the balance of the Fund and accretions, by way of interest, investment or otherwise, to those monies.

13. The QNTDB and the State Division have now agreed that those monies identified in paragraph 11(b) and (c) are to be returned to the State Division. The reasons for that occurring appear prudentially sound – see relevantly Schedule A and Schedule B.

14. Whilst it is arguable that the first 'transfer' was merely the creation of an arrangement for the management of the Fund, that could be cancelled and the Fund returned, it is not

[2] Being those members of the State Division who are eligible for membership under rule A7(Section A)(e) of the Part A Rules.
[3] Including payments made by T1 members in accordance with the increased Levy determined by the CFMEUQ on 12 October 2012.
[4] Being those members eligible for membership of the CFMMEU and the CFMEUQ.
[5] Being those members of the QNTDB resident or working in the Northern Territory.

necessary to reach a final conclusion on that proposition, given that if the Fund was able to be transferred for appropriate reasons as part of the administrative arrangements in 2013/14, it is now able to be transferred back if there are sound prudential reasons for doing so, which there appear to be.

15. The QNTDB will now transfer the Fund to the State Division for the reasons set out at Schedule A and Schedule B.

16. The officers of both entities have been kept appraised of the issues and have had the opportunity to inform themselves about the subject matter of the determinations made to return the Fund, prior to making the determinations.

17. No officer has identified that they have a material personal interest in the determinations to return the Fund to the State Division and there is no reason to suggest that the officers do not rationally believe that the determinations to return the Fund are in the best interests of both entities.

18. Consequently, for all these reasons we consider that the officers of respectively the State Division and the QNTDB have complied with the obligation to exercise their powers, and discharge their office, with the degree of care and diligence required by the *Industrial Relations Act 2016* (Qld) and the *Fair Work (Registered Organisations) Act 2009* (Cth).

19. We commend to you that arrangements be made for the return of the Fund in accordance with the determinations of the QNTDB and the State Division.

We will provide the more extensive advice when it is at hand.

Yours faithfully

Relationship with State Union

The Divisional Branch Secretary provided a report on why the union needed to make changes where necessary and in the best interests of the union and its members.

Decision:

1. *The Construction, Forestry, Mining and Energy, Industrial Union of Employees, Queensland, State Construction and General Division ('**CFMEUQ C&G**') is the state counterpart of the QNTDB.*
2. *A significant number of the members of the CFMEUQ C&G are eligible to be, and are, members of the Construction, Forestry, Maritime, Mining and Energy Union attached to the QNTDB.*
3. *A significant number of the members of the QNTDB are eligible to be, and are, members of the CFMEUQ, attached to the State Construction and General Division.*
4. *A significant number of the members of the QNTDB/CFMEUQ C&G are dual members ('**Dual Members**').*

5. *Prior to 2013, the CFMEUQ collected the whole of the membership fee for the Dual Members and, by administrative arrangement, made payment of capitation on behalf of the (then) Queensland Construction Workers Divisional Branch (**'QCWDB'**).*

6. *As a result of what was considered by the Divisional Branch Executive at its meeting on the 17 May 2013:*

   (a) to be a significant growth in the membership of the (then) QCWDB in the Northern Territory;

   (b) to be significant organising opportunities presented by the merger of the (then) QCWDB with the (then) Builders Labourers Divisional Branch that required the QCWDB to be better, more effectively and more appropriately resourced; and

   (c) the (then) Newman LNP Qld Government seeking to restrict, by oppressive legislation, the legitimate rights and freedoms of the CFMEUQ C&G to campaign for the industrial and other rights of its Dual Members,

   it was determined that it was in the best interests of the Dual Members for the CFMEUQ C&G make payment to the (then) QCWDB to ensure the effective functioning and its ongoing representation of the dual members of the CFMEUQ/(then) CFMEU and the Northern Territory members in the federal jurisdiction.

7. *It was also determined, as it was considered to be in the best interests of the Dual Members at that time and for the reasons set out in paragraph 6, that the administrative and operational arrangements between the CFMEUQ C&G and the (then) QCWDB were to be altered and that the QCWDB would become responsible for collecting the whole of the membership fee for the Dual Members and, by administrative arrangement, make payment to the QCWDB.*

8. *The (then) QCWDB and (then) Builders Labourers Divisional Branch merged and became the QNTDB.*

9. *The QNTDB recognises that:*

   (a) the growth of the membership in Northern Territory did not reach the expectation of the (then) QCWDB at the time of its determination in May 2013 and that that growth was dependent to a greater extent than was expected on project work; and

   (b) that the anti-worker Newman LNP Government was quickly and soundly defeated, its legislation was reversed and the significant risks of operating in the state jurisdiction were removed,

   with the consequence that the basis for the decisions made by the QNTDB did not in fact transpire.

10. *The CFMEUQ C&G has advised, and the Divisional Branch Executive accepts that, noting the current state of domestic construction and the likelihood of the Queensland Government significantly increasing its expenditure on state infrastructure, there is now the potential for significant growth in the members of the CFMEUQ C&G employed by the State and Local Governments in Queensland.*

11. *The Divisional Branch Executive considers that the Morrison Coalition Government is now seeking to severely restrict the legitimate rights and freedoms of the QNTDB, just as the Newman LNP Government sought to do to the CFMEUQ C&G in Qld, to act in the best interests of the Dual Members.*

12. *In particular, the Divisional Branch Executive notes*

   (a) the report of the Divisional Branch Secretary in relation to the effect of legislation being introduced that is designed to use up the resources of the Dual Members on dealing with matters that do not further their industrial interests; and

   (b) that the international community has made clear in the report of the International Centre for Trade Union Rights that the recent industrial legislation of the Morrison Coalition Government is inconsistent with the international labour obligations of Australia.

13. *The QNTDB notes the advice received by the Divisional Branch Secretary that those restrictions do not apply to the CFMEUQ C&G.*

14. *The CFMEUQ C&G has in the view of the Divisional Branch Executive, since 2013, been inadequately resourced in respect of the Dual Members employed by the State and Local Government in Queensland.*

15. *The Divisional Branch Executive notes the advice of the Divisional Branch Secretary that the QNTDB is not able to industrially represent the Dual Members employed by the State and Local Government in Queensland.*

16. *The CFMEUQ C&G has advised that it will, due to the matters set out above, namely:*

    (a) the permanent growth in the NT not being as expected;

    (b) the Newman Government being quickly and roundly defeated;

    (c) the expected growth in state infrastructure and employment; and

    (d) the draconian anti-worker legislation of the Morrison Coalition Government,

    amongst other things, require the alteration of the arrangements for the collection of the membership fee and the arrangements for resourcing the CFMEUQ C&G.

17. *The CFMEUQ C&G has advised the QNTDB that it now intends to ensure that it effectively operates and is appropriately and adequately resourced.*

18. *The Divisional Branch Executive noting the matters set out above, shares the concern of the CFMEUQ C&G and endorses the position of the CFMEUQ C&G in relation to the resourcing so that Dual Members may be properly supported.*

19. *The Divisional Branch Executive determines that:*

    (a) it is appropriate and to the benefit of the Dual Members for the CFMEUQ C&G to be properly and adequately resourced;

    (b) there is significant benefit in the administrative arrangements between the CFMEUQ C&G and the QNTDB being reviewed to ensure effective delivery of resource for Dual Members;

    (c) the QNTDB agrees, in principle, to the review sought by the CFMEUQ C&G;

    (d) the CFMEUQ C&G and the QNTDB consider, as part of the review of the administrative arrangements, other ways to improve the effectiveness, and, as far as practicable, reduce unnecessary costs, of dual registration;

    (e) in consideration for an alteration to the administrative arrangements that the CFMEUQ C&G may require the QNTDB to adopt, the QNTDB may require the CFMEUQ C&G to take up further obligations relating to, amongst other things:

        (i) staffing (including labour costs/requirements);

        (ii) communication with members;

        (iii) industrial representation and objectives;

        (iv) access to advice;

        (v) industrial campaigning on professional issues;

        (vi) industrial and other campaigning;

        (vii) state campaigning;

        (viii) community campaigning;

        (ix) national campaigning;

        (x) political campaigning;

        (xi) training programs;

        (xii) health and safety initiatives;

(xiii) compliance obligations; and

(xiv) administration

(f) directs the Divisional Branch Secretary to negotiate with the CFMEUQ and following those negotiations to prepare a draft service agreement to set out the arrangements between the QNTDB and the CFMEUQ C&G; and

(g) payment be made to the CFMEUQ C&G to ensure the CFMEUQ C&G is presently able to effectively function and provide appropriate ongoing support to the Dual Members whilst the review is ongoing.

> *The State Executive endorses, and confirms, the decision of the State Secretary to transfer the fighting fund to the C & G Divisional Branch to be used in accordance with the purpose for which it was established.*
>
> ***Resolution 5 – Defence Fund***

('**Resolution**');

*(b) its understanding that the fighting fund was a reference to the Defence Fund which was at that time an amount of $1,863,122 ('**Monies**');*

(c) that in accordance with the Resolution the Monies were received into the Divisional Branch fund of the QCWDB;

(d) that the Defence Fund has, since the transfer of the Monies, continued to grow due to:

- *investment of the Monies;*
- *interest payments on the Monies; and*
- *further receipt of levy payments into the Defence Fund;*

(e) neither the QCWDB nor the QNTDB have resolved to levy the members of the QNTDB for the purposes of the Defence Fund;

(f) that the levies received by the QCWDB/QNTDB in relation to the Defence Fund since 2014 are in accordance with the resolution of the State Division (formally the CFMEUQ) of 2004, and have been received in accordance with the State Divisions resolutions of 15 September 2014:

> *The State Executive authorises the State Secretary to prepare a written agreement to provide for the administrative agreements in place between the State Division and the C&G Divisional Branch, for:*
>
> *subscription fees to be paid to, and collected by, the C & G Divisional Branch;*

membership services to be delivered through the C & G Divisional Branch,

and to liaise with the Divisional Branch Secretary of the C & G Divisional Branch on the terms of the arrangements.

The State Executive authorizes the State Secretary, on behalf of the State Division, to enter into written agreements with the C & G Divisional Branch, once the State Secretary is satisfied that the agreement provides for the administrative arrangements currently in place between the State Division and the C & G Divisional Branch.

, and that consequently those monies have been collected by the QCWDB/QNTDB and paid into the Defence Fund on behalf of the State Division;

(g) that the Defence Fund has continued to be held for the purpose for which it was raised in 2004;

(h) that no monies have to date been expended from the Defence Fund;

(i) the resolutions of the QNTDB Executive of 12 November 2019 and the reasons, to ensure the protection of the joint members of the QNTDB/State Division, for the reallocation/change in administrative arrangements and other arrangements as between the QNTDB and the State Division; and

(j) that levy has been collected also on behalf of the Northern Territory members of the QNTDB.

The Executive of the QNTDB determines:

1. *That the Defence Fund, as transferred to the QNTDB by the State Division together with any accretions by way of interest or investment to the Defence Fund, be transferred back to the CFMEUQ for, and on behalf of the State Division, to be used in accordance with the purpose for which the Defence Fund was established.*

2. *That, subject to resolutions 3 and 4, as the QNTDB has collected the Defence Fund levy on behalf of the State Division those monies collected, together with any accretions, by way of interest, investment or otherwise, be returned to the CFMEUQ on behalf of the State Division.*

3. *That, subject to resolution 4, in the event that the right to collect the Defence Fund levy was a right of the QNTDB on its own behalf, and not as an agent for the State Division, then those monies collected, together with any accretions, by way of interest, investment or otherwise, be transferred to the CFMEUQ, for and on behalf of the State Division, to be consolidated with the Defence Fund and used in accordance with the purpose for which the Defence Fund was established.*

4. *That the QNTDB will retain for the purposes of establishing a defence fund for its members in the NT, any monies that have been received from members of the NT and which have been paid into the Defence Fund".*

Dear Michael

Re: Defence Fund

We refer to our ongoing discussions, and your instructions in respect of the ownership of assets, particularly the asset described as the 'Defence Fund' (**'Fund'**) and enclose:

- minutes of the QNTDB Executive of 12 November 2019 (**'Schedule A'**); and
- minutes of the QNTDB Executive of 17 March 2020 (**'Schedule B'**).

We confirm that we have prepared a draft advice in relation to the:

- creation of the Fund and the Defence Fund Levy (**'Levy'**); and
- decisions of respectively the Queensland Northern Territory Divisional Branch (**'QNTDB'**) and the State Construction and General Division (**'State Division'**) to return the Fund, and the monies collected in accordance with the Levy, to the State Division.

That advice is still being settled in relation to its text and, in the interim, we provide the following executive summary:

1. In 2004, the (then) Construction, Forestry, Mining & Energy, Industrial Union of Employees, Queensland (**'CFMEUQ'**)[1] determined to create the Fund and resolved that members were required to make payment of the Levy.
2. This was a decision of the CFMEUQ as opposed to the Queensland Construction Workers Divisional Branch (**'QCWDB'**), for, inter alia, the following reasons:
   (a) the historical operation of the 'union' in Queensland as a state union;
   (b) fees were set, and collected, by the CFMEUQ;
   (c) that the QCWDB did not maintain a bank account nor have any financial affairs and, consequently, could not hold the Fund nor collect the Levy from members; and

(d) the FFTS Members[2] have always made payment of the Levy.

   (b) to be significant organising opportunities presented by the merger of the (then) QCWDB with the (then) Builders Labourers Divisional Branch that required the QCWDB to be better, more effectively and more appropriately resourced; and

   (c) the (then) Newman LNP Qld Government seeking to restrict, by oppressive legislation, the legitimate rights and freedoms of the CFMEUQ C&G to campaign for the industrial and other rights of its Dual Members,

   it was determined that it was in the best interests of the Dual Members for the CFMEUQ C&G make payment to the (then) QCWDB to ensure the effective functioning and its ongoing representation of the dual members of the CFMEUQ/(then) CFMEU and the Northern Territory members in the federal jurisdiction.

7. *It was also determined, as it was considered to be in the best interests of the Dual Members at that time and for the reasons set out in paragraph 6, that the administrative and operational arrangements between the CFMEUQ C&G and the (then) QCWDB were to be altered and that the QCWDB would become responsible for collecting the whole of the membership fee for the Dual Members and, by administrative arrangement, make payment to the QCWDB.*

8. *The (then) QCWDB and (then) Builders Labourers Divisional Branch merged and became the QNTDB.*

9. *The QNTDB recognises that:*

   (a) the growth of the membership in Northern Territory did not reach the expectation of the (then) QCWDB at the time of its determination in May 2013 and that that growth was dependent to a greater extent than was expected on project work; and

   (b) that the anti-worker Newman LNP Government was quickly and soundly defeated, its legislation was reversed and the significant risks of operating in the state jurisdiction were removed,

   with the consequence that the basis for the decisions made by the QNTDB did not in fact transpire.

10. *The CFMEUQ C&G has advised, and the Divisional Branch Executive accepts that, noting the current state of domestic construction and the likelihood of the Queensland Government significantly increasing its expenditure on state infrastructure, there is now the potential for significant growth in the members of the CFMEUQ C&G employed by the State and Local Governments in Queensland.*

11. *The Divisional Branch Executive considers that the Morrison Coalition Government is now seeking to severely restrict the legitimate rights and freedoms of the QNTDB, just as the Newman LNP Government sought to do to the CFMEUQ C&G in Qld, to act in the best interests of the Dual Members.*

12. *In particular, the Divisional Branch Executive notes*

   (a) the report of the Divisional Branch Secretary in relation to the effect of legislation being introduced that is designed to use up the resources of the Dual Members on dealing with matters that do not further their industrial interests; and

   (b) that the international community has made clear in the report of the International Centre for Trade Union Rights that the recent industrial legislation of the Morrison Coalition Government is inconsistent with the international labour obligations of Australia.

13. *The QNTDB notes the advice received by the Divisional Branch Secretary that those restrictions do not apply to the CFMEUQ C&G.*

14. *The CFMEUQ C&G has in the view of the Divisional Branch Executive, since 2013, been inadequately resourced in respect of the Dual Members employed by the State and Local Government in Queensland.*

15. *The Divisional Branch Executive notes the advice of the Divisional Branch Secretary that the QNTDB is not able to industrially represent the Dual Members employed by the State and Local Government in Queensland.*

16. *The CFMEUQ C&G has advised that it will, due to the matters set out above, namely:*

    (a) the permanent growth in the NT not being as expected;

    (b) the Newman Government being quickly and roundly defeated;

    (c) the expected growth in state infrastructure and employment; and

    (d) the draconian anti-worker legislation of the Morrison Coalition Government,

    amongst other things, require the alteration of the arrangements for the collection of the membership fee and the arrangements for resourcing the CFMEUQ C&G.

17. *The CFMEUQ C&G has advised the QNTDB that it now intends to ensure that it effectively operates and is appropriately and adequately resourced.*

18. *The Divisional Branch Executive noting the matters set out above, shares the concern of the CFMEUQ C&G and endorses the position of the CFMEUQ C&G in relation to the resourcing so that Dual Members may be properly supported.*

19. *The Divisional Branch Executive determines that:*

    (a) it is appropriate and to the benefit of the Dual Members for the CFMEUQ C&G to be properly and adequately resourced;

    (b) there is significant benefit in the administrative arrangements between the CFMEUQ C&G and the QNTDB being reviewed to ensure effective delivery of resource for Dual Members;

    (c) the QNTDB agrees, in principle, to the review sought by the CFMEUQ C&G;

    (d) the CFMEUQ C&G and the QNTDB consider, as part of the review of the administrative arrangements, other ways to improve the effectiveness, and, as far as practicable, reduce unnecessary costs, of dual registration;

    (e) in consideration for an alteration to the administrative arrangements that the CFMEUQ C&G may require the QNTDB to adopt, the QNTDB may require the CFMEUQ C&G to take up further obligations relating to, amongst other things:

        (i) staffing (including labour costs/requirements);

        (ii) communication with members;

        (iii) industrial representation and objectives;

        (iv) access to advice;

(xiv) administration

(f) directs the Divisional Branch Secretary to negotiate with the CFMEUQ and following those negotiations to prepare a draft service agreement to set out the arrangements between the QNTDB and the CFMEUQ C&G; and

2. *That, subject to resolutions 3 and 4, as the QNTDB has collected the Defence Fund levy on behalf of the State Division those monies collected, together with any accretions, by way of interest, investment or otherwise, be returned to the CFMEUQ on behalf of the State Division.*

Dear Michael

Re: Defence Fund

We refer to our ongoing discussions, and your instructions in respect of the ownership of assets, particularly the asset described as the 'Defence Fund' (**'Fund'**) and enclose:

- minutes of the QNTDB Executive of 12 November 2019 (**'Schedule A'**); and
- minutes of the QNTDB Executive of 17 March 2020 (**'Schedule B'**).

We confirm that we have prepared a draft advice in relation to the:

- creation of the Fund and the Defence Fund Levy (**'Levy'**); and
- decisions of respectively the Queensland Northern Territory Divisional Branch (**'QNTDB'**) and the State Construction and General Division (**'State Division'**) to return the Fund, and the monies collected in accordance with the Levy, to the State Division.

That advice is still being settled in relation to its text and, in the interim, we provide the following executive summary:

1. In 2004, the (then) Construction, Forestry, Mining & Energy, Industrial Union of Employees, Queensland (**'CFMEUQ'**)[1] determined to create the Fund and resolved that members were required to make payment of the Levy.
2. This was a decision of the CFMEUQ as opposed to the Queensland Construction Workers Divisional Branch (**'QCWDB'**), for, inter alia, the following reasons:
   (a) the historical operation of the 'union' in Queensland as a state union;
   (b) fees were set, and collected, by the CFMEUQ;
   (c) that the QCWDB did not maintain a bank account nor have any financial affairs and, consequently, could not hold the Fund nor collect the Levy from members; and

[1] As it then was.

Individual liability limited by a scheme approved under professional standards legislation (personal injury work exempted). | JWP:4191739:4939014

(d) the FFTS Members[2] have always made payment of the Levy.

3. All payments by members of the Levy were paid to the CFMEUQ until July 2013.[3]

4. On, and from, 1 July 2013, a 'restructure' occurred whereby the QNTDB opened a bank account, became the operating entity and began collecting the Levy from Dual Members[4], FFTS Members and the NT Members[5].

5. On 1 July 2013, the State Division transferred those monies held in the Fund to the QNTDB.

6. On 15 September 2014, the management committees of both the State Division and the QNTDB determined to implement administrative arrangements between the two entities to avoid overlap, inefficiencies and unnecessary cost.

7. The first relevant administrative arrangement implemented was a decision of the State Divisional Executive that the Levy was to be collected by the QNTDB, not that it was to be paid to the QNTDB, but rather remained part of the fund of the State Division.

8. Consistently, the QNTDB did not determine a levy of its own for contributions to the Defence Fund by Dual Members, albeit that the QNTDB has (and again consistently) implemented a levy of NT Members, and that the monies, collected in accordance with that levy, remain part of the Divisional Branch fund of the QNTDB.

9. The second relevant administrative arrangement implemented was a determination of the respective management committees in relation to the 'transfer' of the Fund. It is respectably arguable that this determination was the creation of an arrangement for management of the Fund by the QNTDB, rather than a transfer of ownership of the monies that comprised the Fund. This argument cannot, however, be unequivocally put.

10. In any event, if the 'transfer' was intended as a disposition of the rights over the monies that comprised the Fund by the State Division, the transfer was appropriate in the circumstances that applied, which circumstances the respective management committees considered in making that decision.

11. In these circumstances, the Fund comprises:

(a) the monies paid by the NT Members, which are to remain with the QNTDB;

(b) the monies transferred by the State Division in 2013 (which may or may not be monies of the State Division); and

(c) the monies paid by Dual Members and FFTS Members in accordance with the Levy and collected by the QNTDB since 1 July 2013.

12. It is not possible to trace the current amount of those monies identified in paragraph 11(b) and (c) due to the intermixing of those monies with the balance of the Fund and accretions, by way of interest, investment or otherwise, to those monies.

13. The QNTDB and the State Division have now agreed that those monies identified in paragraph 11(b) and (c) are to be returned to the State Division. The reasons for that occurring appear prudentially sound – see relevantly Schedule A and Schedule B.

14. Whilst it is arguable that the first 'transfer' was merely the creation of an arrangement for the management of the Fund, that could be cancelled and the Fund returned, it is not

[2] Being those members of the State Division who are eligible for membership under rule A7(Section A)(e) of the Part A Rules.
[3] Including payments made by T1 members in accordance with the increased Levy determined by the CFMEUQ on 12 October 2012.
[4] Being those members eligible for membership of the CFMMEU and the CFMEUQ.
[5] Being those members of the QNTDB resident or working in the Northern Territory.

necessary to reach a final conclusion on that proposition, given that if the Fund was able to be transferred for appropriate reasons as part of the administrative arrangements in 2013/14, it is now able to be transferred back if there are sound prudential reasons for doing so, which there appear to be.

15. The QNTDB will now transfer the Fund to the State Division for the reasons set out at Schedule A and Schedule B.

16. The officers of both entities have been kept appraised of the issues and have had the opportunity to inform themselves about the subject matter of the determinations made to return the Fund, prior to making the determinations.

17. No officer has identified that they have a material personal interest in the determinations to return the Fund to the State Division and there is no reason to suggest that the officers do not rationally believe that the determinations to return the Fund are in the best interests of both entities.

18. Consequently, for all these reasons we consider that the officers of respectively the State Division and the QNTDB have complied with the obligation to exercise their powers, and discharge their office, with the degree of care and diligence required by the *Industrial Relations Act 2016* (Qld) and the *Fair Work (Registered Organisations) Act 2009* (Cth).

19. We commend to you that arrangements be made for the return of the Fund in accordance with the determinations of the QNTDB and the State Division.

We will provide the more extensive advice when it is at hand.

Yours faithfully

(c) that in accordance with the Resolution the Monies were received into the Divisional Branch fund of the QCWDB;

(d) that the Defence Fund has, since the transfer of the Monies, continued to grow due to:

- *investment of the Monies;*
- *interest payments on the Monies; and*
- *further receipt of levy payments into the Defence Fund;*

(e) neither the QCWDB nor the QNTDB have resolved to levy the members of the QNTDB for the purposes of the Defence Fund;

(f) that the levies received by the QCWDB/QNTDB in relation to the Defence Fund since 2014 are in accordance with the resolution of the State Division (formally the CFMEUQ) of 2004, and have been received in accordance with the State Divisions resolutions of 15 September 2014:

> *The State Executive authorises the State Secretary to prepare a written agreement to provide for the administrative agreements in place between the State Division and the C&G Divisional Branch, for:*
>
> *subscription fees to be paid to, and collected by, the C & G Divisional Branch;*
> *levies to be collected by the C & G Divisional Branch;*
> *employees to be engaged by the C & G Divisional Branch;*
> *employees/joint employees to be administered by the C & G Divisional Branch;*
> *agents/suppliers to be engaged by the C & G Divisional Branch;*
> *finances/administration to be conducted by the C & G Divisional Branch; and*

membership services to be delivered through the C & G Divisional Branch,

and to liaise with the Divisional Branch Secretary of the C & G Divisional Branch on the terms of the arrangements.

The State Executive authorizes the State Secretary, on behalf of the State Division, to enter into written agreements with the C & G Divisional Branch, once the State Secretary is satisfied that the agreement provides for the administrative arrangements currently in place between the State Division and the C & G Divisional Branch.

, and that consequently those monies have been collected by the QCWDB/QNTDB and paid into the Defence Fund on behalf of the State Division;

(g) that the Defence Fund has continued to be held for the purpose for which it was raised in 2004;

(h) that no monies have to date been expended from the Defence Fund;

(i) the resolutions of the QNTDB Executive of 12 November 2019 and the reasons, to ensure the protection of the joint members of the QNTDB/State Division, for the reallocation/change in administrative arrangements and other arrangements as between the QNTDB and the State Division; and

(j) that levy has been collected also on behalf of the Northern Territory members of the QNTDB.

The Executive of the QNTDB determines:

1. *That the Defence Fund, as transferred to the QNTDB by the State Division together with any accretions by way of interest or investment to the Defence Fund, be transferred back to the CFMEUQ for, and on behalf of the State Division, to be used in accordance with the purpose for which the Defence Fund was established.*

2. *That, subject to resolutions 3 and 4, as the QNTDB has collected the Defence Fund levy on behalf of the State Division those monies collected, together with any accretions, by way of interest, investment or otherwise, be returned to the CFMEUQ on behalf of the State Division.*

3. *That, subject to resolution 4, in the event that the right to collect the Defence Fund levy was a right of the QNTDB on its own behalf, and not as an agent for the State Division, then those monies collected, together with any accretions, by way of interest, investment or otherwise, be transferred to the CFMEUQ for and on behalf of the State Division, to be consolidated with the Defence Fund and used in accordance with the purpose for which the Defence Fund was established.*

4. *That the QNTDB will retain for the purposes of establishing a defence fund for its members in the NT, any monies that have been received from members of the NT and which have been paid into the Defence Fund".*

Dear Michael

Re: Service Agreement and Dual Registration

We refer to recent discussions with the writer and our Dale Blackmore, and your instructions in respect of the ownership of assets in respect of dual registration, particularly the asset described as the 'Fighting Fund'.

We advise:

1. We preface this advice by confirming that the officers are aware of the duties owed them as officers of both the:

   (a) Construction, Forestry, Maritime, Mining and Energy Union, Construction and General Division, Queensland Northern Territory Divisional Branch ('**QNTDB**'); and

   (b) Construction, Forestry, Mining & Energy, Industrial Union of Employees, Queensland, State Construction and General Division ('**State Division**'),

   and that the duties are owed to the members of respectively the QNTDB and the State Division who are substantially the same cohort of members.[1]

2. For ease of reference, we set out the following obligations on the officers of the QNTDB and the State Division:

   (a) section 285 of the *Fair Work (Registered Organisations) Act 2009* (Cth) ('**FW(RO)A**') provides:

   285 Care and diligence—civil obligation only
   (1) An officer of an organisation or a branch must exercise his or her powers and discharge his or her duties with the degree of care and diligence that a reasonable person would exercise if he or she:
   (a) were an officer of an organisation or a branch in the organisation's circumstances; and
   (b) occupied the office held by, and had the same responsibilities within the organisation or a branch as, the officer.
   Civil penalty: 100 penalty units, or 1,200 penalty units for a serious contravention.
   (2) An officer of an organisation or a branch who makes a judgment to take or not take action in respect of a matter relevant to the operations of the organisation or branch is taken to meet the requirements of subsection (1), and their equivalent duties at common law and in equity, in respect of the judgment if he or she:

[1] Noting the FFTS members of the CFMEUQ and the Northern Territory members of the QNTDB.

(a) makes the judgment in good faith for a proper purpose; and
(b) does not have a material personal interest in the subject matter of the judgment; and
(c) informs himself or herself about the subject matter of the judgment to the extent he or she reasonably believes to be appropriate; and
(d) rationally believes that the judgment is in the best interests of the organisation.

The officer's belief that the judgment is in the best interests of the organisation is a rational one unless the belief is one that no reasonable person in his or her position would hold.

Note: This subsection only operates in relation to duties under this section and their equivalents at common law or in equity (including the duty of care that arises under the common law principles governing liability for negligence)—it does not operate in relation to duties under any other provision of this Act or under any other laws.

(b) section 715 of the *Industrial Relations Act 2016* (Qld) provides:

715 Duty of reasonable care and diligence

The officer must exercise the degree of care and diligence that a reasonable person in the officer's position would be reasonably expected to exercise.

Maximum penalty—3,091 penalty units or 5 years imprisonment.

Context

3. The rules of the:

   (a) Construction, Forestry, Maritime, Mining and Energy Union ('**CFMMEU**');

   (b) CFMMEU, Construction and General Division ('**C&G Division**');

   (c) Construction, Forestry, Mining & Energy, Industrial Union of Employees, Queensland ('**CFMEUQ**');

   (d) CFMEUQ, State Construction and General Division ('**State Division**'),

   each prescribe the payment of a fee and/or a levy as an obligation of membership.

4. A significant number of the members of the State Division are eligible to be, and are, members of the CFMMEU attached to the C&G Division, Queensland Northern Territory Divisional Branch ('**QNTDB**').

5. A significant number of the members of the QNTDB are eligible to be, and are, members of the CFMEUQ, attached to the State Division.

6. A significant number of the members of the QNTDB/State Division are dual members ('**Dual Members**'). These Dual Members are under an obligation to comply with the rules of the CFMMEU and the CFMEUQ in respect of the C&G Division, QNTDB and the State Division.

7. This relevantly includes the payment of both a membership subscription and levies imposed on the Dual Members.

CFMMEU

8. Rule 8 of the CFMMEU rules ('**National Rules**') provides for the payment of membership contributions:

8 - ENTRANCE FEES AND CONTRIBUTIONS

(i) Entrance fees and contributions payable by any person on application to join the union and/or for membership or continuous membership of the Union shall be in accordance with the Rules of the division to which, in accordance with the Rules of the Union, the person or member is to be or is assigned.

(ii) Any member who has failed to pay the entrance fees, or contributions, levies and fines imposed in accordance with the rules of the union on or before the date specified in such rules, shall be deemed to be unfinancial, and shall not be eligible to receive any benefits, participate in any deliberations,

propose or second any new applicant for admission or exercise any authority or any membership rights, provided that the rules may provide that some members or some class or classes of members may vote in a ballot and/or may differentiate between classes of members as to the amount of any contribution and/or entrance fee.

(iii) A member shall be deemed to be financial immediately upon payment of all arrears outstanding.

(iv) (a) Notwithstanding anything contained in Rules 7 and 8 of these National Rules or any Divisional Rules to the contrary, the Union may reach agreement with any organisation of employees, trade union, industrial union or organisation, whether incorporated or otherwise or whether registered under a law of the Commonwealth, State or Territory or unregistered (herein referred to as an "association"), which agreement may provide for automatic membership of this Union for members of any such association and may provide for the receipt and holding of moneys jointly or in common by the aforementioned association and this Union and conversely the automatic membership of members of this Union in such an association.

(b) The Union may, by agreement or unilaterally, grant to any class of members, who are members of another association of a kind referred to in paragraph (a) hereof, membership and waive the requirement to pay an entrance fee and/or contributions in whole or in part.

(c) Nothing in this Sub-Rule shall render eligible for membership any person not otherwise eligible for membership of the Union under the eligibility Rules or pursuant to S.151 of the RO Act, or any other provision of that Act or any Act amending or replacing same. Further, "automatic membership" when used in this Sub-Rule shall mean membership granted to a member free of the payment of any entrance fee and contribution in circumstances where the person applying for membership has signified an intention to become a member or having been notified that membership would be granted unless objected to, has not signified objection to that membership.

(emphasis added)

9. Rule 6 of the C&G Divisional rules provides for the payment of membership contributions:

6 – CONTRIBUTIONS

1. The annual contribution payable by each member shall be fixed by the Divisional Executive on the basis that such contribution shall be no less than 1% of the carpenter base rate in the Building and Construction General On-Site Award 2010 or any award of Fair Work Australia replacing same, multiplied by 52, provided that the Divisional Executive may fix some other rate.

For the purposes of the immediately preceding sentence and Rule 32(b) herein, base rate shall mean the sum of the award base rate, supplementary payment and arbitrated safety net adjustments as determined by the relevant industrial body or tribunal.

2. Any member who has failed to pay the entrance fee, all contributions, levies and fines imposed in accordance with these or the Divisional Branch rules on or before the date specified in the Divisional Branch rules, shall be deemed to be unfinancial, and shall not be eligible, provided that Divisional Branch rules may provide that such members or some class or classes of such members may vote in a ballot, to receive any benefits, participate in any deliberations, propose or second any new applicant member for admission, or exercise any authority or any membership rights.

A member shall be deemed to be financial immediately upon payment of all arrears outstanding. Divisional Branch rules may provide that unfinancial members shall not be entitled to funeral, accident or any other benefits or to exercise any of the rights of members under Divisional Branch rules.

10. Rule 25 of the C&G Divisional Rules provides for the imposition of levies:

25 – LEVIES

(i) Levies may be imposed for the purpose of carrying out any of the objects of the Union and for assisting the members of this or any other Union or body having objects similar in whole or in part to those of this Union.

(ii) The amount of any levy may be decided by a majority of the Divisional Executive and when so decided shall be binding on all members or sections of members as the Divisional Executive may decide.

(iii) A Divisional Branch may impose a levy on its members.

(iv) A levy may be of one specific sum, payable at one specific time, or may be for a weekly, fortnightly or monthly period, payable for a certain specific period.

All levies shall be added to contributions and shall be a first charge against all payments made by members of the Divisional Branch.

11. Divisional Rule 32(d) provides for the imposition of levies on members of the QNTDB:

Levies
(d) All levies required to be paid by members in accordance with these rules shall be paid in terms decided by Divisional Branch Council or the Divisional Branch Management Committee.

CFMEUQ

12. The CFMEUQ Part A rules ('**Part A Rules**') provide at rule A14:

A14. LEVIES
(a) A Division may impose a requirement on its members to pay a levy in accordance with the Divisions rules.
(b) No member is required to pay a levy to the Union other than as provided by sub-rule (a).

13. Rule B6 of the CFMEUQ, Part B rule ('**Part B Rules**') provides:

6. SUBSCRIPTIONS
(a) The annual subscription payable by each member will be fixed by the State Divisional Council on the recommendation of the Divisional Executive.
(b) All members over 65 years of age who have had 25 years' continuous membership in the State Division, who through physical infirmities are unable to work continuously in the State Division's callings, may become an Honorary Member by:
(i) making application to the State Secretary; and
(ii) paying a fee of $50, or other amount as may be determined by the State Divisional Executive.
(c) An Honorary Member has, subject to rule B11, the rights provided to financial members pursuant to rule B8.
(d) A member who was more than 50 years of age when admitted to membership of the State Division, is not entitled to the benefit of sub-rule (c) but will, on the payment of the application fee to the State Secretary be entitled to receive the State Divisional Journal.
(e) Half year terms begin on the first day of April and October, respectively.
(f) An applicant admitted to membership of the State Division during the currency of any half-year will be credited in the subsequent half-year for such period of the half-year as had elapsed before the applicant was admitted, with the credit being calculated on a monthly basis.

14. The CFMEUQ[2] Part B rules provide at rule B6A:

B6A. LEVIES
(a) The State Divisional Council may, subject to sub-rule (d) set a levy for payment by members:
(i) of the State Division; or
(ii) entitled to participate in a particular Regional Rank and File Meeting; or
(iii) who follow a particular calling of the State Division,
provided that any levies set pursuant to parts (ii) or (iii) may only be utilised, respectively, for the benefit of the Members in the Sub-Branch or who follow the callings concerned.
(b) Levies are to be paid at the same time as subscriptions and may be paid by the following means:

[2] The relevant levy rule at the time of the creation of the Fighting Fund (see below) was xxx.

(i) cash;
(ii) cheque/money order;
(iii) credit card; or
(iv) direct debit.

(c) Despite sub-rule (b) where the levy is an amount of less than $50.00 it will be paid as a single payment by the following means:
(i) cash;
(ii) cheque/money order;
(iii) credit card; or
(iv) direct debit.

(d) The State Divisional Council will determine whether or not members who are apprentices or trainees must pay any levy set pursuant to sub-rule (a).

Historical Context

15. [insert]

16. The CFMEUQ (as it then was without Divisions), as set out in the minutes entitled 'Adoption of the 2005 Budget' of the meeting of the CFMEUQ of 3 and 4 March 2005, resolved:

> *The State Secretary, Wallace Trohear reported that the criteria was adopted last year but the final budget income and expenditure was to be presented with the one amendment being the words "Fighting Fund Levy" be replaced with "Membership Defence Fund".*

17. This resolution (by way of explanation) provided for the raising of a levy to be identified as the Defence Fund.

18. In our view there is no doubt that this was a resolution of the State Union as:

(a) we note the participation of Mr xxx and Mr xxx, who were members eligible pursuant to eligibility rule A7, that is:

(i) they were FFTS members; and

(ii) FFTS members were only entitled to vote in meetings of the CFMEUQ as at that time they were in the then CFMEU attached to the Forestry and Furnishing Products Division and were not members of the then CFMEU, Construction and General, Qld Construction Workers Divisional Branch (now the QNTDB);

(b) it was a notorious matter that the former State Secretary, Mr Wallace Trohear, operated through the state entity which was originally the ASC & J which (following amalgamations and name changes became the CFMEUQ); and

(c) the minutes are clearly identified as minutes of the State registered entity.

19. We recommend Mr Trohear be approached to provide a statement to confirm the writer's understanding.

20. Consequently, the starting position for determining the 'ownership' of the Defence Fund, is that the original resolution for the raising of the Defence Fund was a resolution of the CFMEUQ.

21. We are instructed that to the best of the State Secretary/QNTDB Divisional Branch Secretary's knowledge the QNTDB has at no time passed a resolution for the raising of the levy and/or the adoption of the levy and/or creating a Fighting Fund account.

Administrative Arrangements

22. Resolution 1 of the meeting of the State Divisional Executive (that is the committee of management of the State Division), held on 15 September 2014, ('**2014 Meeting of State Executive**') contains the following decision:

> *Decision: "The State Executive authorises the State Secretary to prepare a written agreement to provide for the administrative arrangements in place between the State Division and the C&G Divisional Branch, for:*
>
> *(a) subscription fees to be paid to, and collected by, the C & G Divisional Branch;*
> *(b) levies to be collected by the C & G Divisional Branch;*
> *(c) employees to be engaged by the C & G Divisional Branch;*
> *(d) employees/joint employees to be administered by the C & G Divisional Branch;*
> *(e) agents/suppliers to be engaged by the C & G Divisional Branch;*
> *0) finances/administration to be conducted by the C & G Divisional Branch; and*
> *(g) membership services to be delivered through the C & G Divisional Branch,*
>
> *and to liaise with the Divisional Branch Secretary of the C & G Divisional Branch on the terms of the arrangements.*
>
> *The State Executive authorises the State Secretary, on behalf of the State Division, to enter into written agreements with the C & G Divisional Branch, once the State Secretary is satisfied that the agreement provides for the administrative arrangements currently in place between the Slate Division and the C & G Divisional Branch."*
>
> (emphasis added)

23. Resolution 2 of the meeting of the Divisional Branch Executive (that is the committee of management of the QNTBD), held on 15 September 2014, ('**2014 Meeting of QNTDB Executive**') contains the following decision:

> *[insert]*

24. We note that these resolutions provide for an alteration to the administrative arrangements between the State Division and the QNTDB in relation to, inter alia, subscription fees and levies to be paid by the Dual Members.

Defence Fund Levy

25. Resolution:

(a) 5 of the 2014 Meeting of the State Executive resolved:

> *The State Executive notes that:*
>
> - *the State Division's defence fund has been transferred to the Branch Fund of the C & G Divisional Branch where it has been used for, and is to be used for, the purpose of defending joint members;*
> - *the reason for this transfer are that the concerted attacks against members are occurring in relation to joint members who are engaged as national system employees and it is more administratively sensible for the funds to be managed by the C & G Divisional Branch;*
> - *the transfer is also consistent with the matters noted in relation to resolution 1; and*
> - *the actions of the State Secretary in transferring the funds are endorsed.*
>
> *Decision: "The State Executive endorses, and confirms, the decision of the State Secretary to transfer the fighting fund to the C & G Divisional Branch to be used in accordance with the purpose for which it was established."*

(b) 6 of the 2014 Meeting of the QNTDB Executive resolved:

> *[insert]*

(together the '**Transfer Resolutions**')

26. The Transfer Resolutions use language that strongly suggests that ownership was not being transferred, that the proprietary interest was not altered (or intended to be altered) and that the changed arrangements was that the levy was on, and from, 15 September 2014 merely to be collected by the QNTDB. That is, at all times the property in the Fighting Fund remained with the CFMEUQ.

27. The administrative arrangements, as determined at the 2014 State Divisional Executive Meeting and at the 2014 QNTDB Executive Meeting, between the QNTDB and the CFMEUQ has provided for the collection of the levy of the State Division and accords with the powers under National Rule 8 iv.

28. It will be necessary to rectify the financial returns of the State Division, the CFMEUQ and the QNTDB. As part of rectification the 'adjustment' return

Subscriptions

29. The resolutions of the CFMEUQ, C&G State Executive provide that the membership subscriptions are to be paid to, and collected by, the QNTDB.

30. This is, in our view, a reference to the subscriptions that are owed under the rules of the CFMEUQ by the members of the State Division to the State Division.

31. The 2014 Meeting of the State Executive concerned the implementation of administrative arrangements between the QNTDB and the State Division and it appears from the resolutions that the payment of the subscription fee to the QNTDB was merely an arrangement of an administrative nature.

32. That is, the QNTDB is tasked with collecting the subscriptions of the CFMEUQ, C&G and holding them. This is in contrast to the QNTDB setting a subscription fee and collecting it in their own right.

33. In support of this proposition, is:

    (a) National Rule 8, which relevantly provides '*…which agreement may provide for automatic membership of this Union for members of any such association and may provide for the receipt and holding of moneys jointly or in common by the aforementioned association and this Union and conversely the automatic membership of members of this Union in such an association*'; and

    (b) the absence of a rule in the CFMEUQ Part A and Part B Rules recognising membership of the CFMMEU (for a member who is attached to the QNTDB) as financial membership of the CFMEUQ State Division.

34. The latter proposition is particularly relevant as rule C11 of the CFMEUQ Part C Rules provides for the recognition of membership of the CFMMEU (for a member who is attached to the Mining and Energy Division, Queensland District Branch) as financial membership of the CFMEUQ Mining, Energy and Ports District and, consequently, the absence of such a rule in the Part B rules may be a result of specific instruction regarding the administrative arrangements.

35. On our instructions, it appears that the subscriptions that have been paid to the QNTDB since the 2014 Meeting of the State Executive are:

    (a) the subscriptions that are owed under the rules of the CFMEUQ by the members of the State Division to the State Division; and

(b) are held by the QNTDB jointly or in common with the CFMEUQ, in respect of the State Division.

Recognition of Membership

36. Incidental to, and as a consequence of, the foregoing, is that it is not necessary for the CFMEUQ Part B rules to provide for recognition of financial membership of the CFMEUQ, as those members have been paying subscriptions.

37. However, if the view we have expressed above is incorrect and with a view to removing any doubt about the financiality of the officers of the State Division, CFMEUQ Part B Rule B9 provides for the waiver of the payment of the subscription fee and it is appropriate that the State Divisional Executive should resolve to waive, to the extent and only in the event that payment has not been made, the payment of membership subscriptions from 2014 until the first payment received by the State Division under the new administrative arrangements (the subject of the Service Agreement).

38. Any potential argument that the State Divisional Executive could not vote to waive as they were not financial, is answered in 2 ways, a holding over in office and/or section 833 of the *Industrial Relations Act 2016* (Qld).[3]

Yours faithfully

John Payne
Hall Payne Lawyers

[3]The section provides that decisions of the State Divisional Executive cannot be challenged in proceedings on the grounds that the CFMEUQ, C&G does not collect a separate subscription fee of a dual member.

Dear Michael

Re: Defence Fund

We refer to ongoing discussions with the writer and our Dale Blackmore, and your instructions in respect of the ownership of assets in respect of dual registration, particularly the asset described as the 'Defence Fund'.

We advise:

1. The Construction, Forestry, Maritime, Mining and Energy Union ('**CFMMEU**') is an organisation registered under the *Fair Work (Registered Organisations) Act 2009* (Cth) ('**FW(RO)A**'). The CFMMEU has four divisions which includes the Construction and General Division. The Queensland Northern Territory Divisional Branch ('**QNTDB**') is a divisional branch of the CFMMEU, Construction and General Division.

2. The Construction, Forestry, Mining & Energy, Industrial Union of Employees, Queensland ('**CFMEUQ**') is an organisation registered under the *Industrial Relations Act 2016* (Qld) ('**Qld Act**'). The CFMEUQ has two divisions which includes the State Construction and General Division ('**State Division**').

3. Members of the:

   (a) CFMMEU, attached to the QNTDB, are eligible to be members of the CFMEUQ, attached to the State Division, except those members of the QNTDB who are resident or who work in the Northern Territory; and

   (b) CFMEUQ, attached to the State Division, are eligible to be members of the CFMMEU, attached to the QNTDB, except those members of the State Division who are eligible for membership under rule A7(Section A)(e) of the Part A Rules ('**FFTS Members**'),

   (together, '**Dual Members**').

4. The officers of the State Division and the QNTDB are the same and the members of the Executive of the State Division and the QNTDB are the same. The officers owe mirrored obligations to the Dual Members under both the FW(RO)A and the Qld Act.[1]

[1] Noting slight differences in obligation.

Individual liability limited by a scheme approved under professional standards legislation (personal injury work exempted). | JWP:4191739:4939014

5. There is presently a fund controlled, and operated, by the QNTDB entitled the Defence Fund ('**Fund**'). The Fund, as at 31 March 2020, equated to **$7,946,203** and each year generates significant income by compulsory levy.

Historical Arrangements

6. The QNTDB and the State Division (together, the '**Entities**') have, historically, operated through the organisation registered under the Qld Act (and its predecessors).

7. The relevant history of the CFMEUQ is as follows:

   (a) in 1998, the Amalgamated Society of Carpenters, Joiners, Bricklayers, Plasterers, Painters and Decorators of Australasia, Union of Employees, Queensland amalgamated with the The Federated Furnishing Trade Society of Australiasia (Q'land) Branch Union of Employees to become the CFMEUQ;

   (b) on 1 May 2013, the CFMEUQ amalgamated with the:

      (i) Queensland Colliery Employees Union of Employees ('**QCEUE**'); and

      (ii) Federated Engine Drivers' and Firemens' Association of Queensland, Union of Employees ('**FEDFAQ**'); and

   (c) the CFMEUQ implemented a divisional structure whereby:

      (i) members of the former CFMEUQ and FEDFAQ were attached to the State Division; and

      (ii) QCEUE were attached to the Mining, Energy and Ports District of the CFMEUQ; and

   (d) on 1 May 2014, the CFMEUQ amalgamated with the Australian Building Construction Employees Builders' Labourers' Federation (Queensland) Union of Employees ('**BLF**') and those members of the former BLF were attached to the State Division.

8. As a part of the 1998 amalgamation to form the CFMEUQ, the CFMEUQ and the (then) CFMEU, in respect of its FFTS Division, agreed that the CFMEUQ will provide services to the FFTS Members in return for the contributions of the FFTS Members to be paid to the CFMEUQ (rather than the (then) CFMEU, FFTS Division).

9. The relevant history of the QNTDB is as follows:

   (a) prior to 2014, there were two divisional branches of the CFMMEU, Construction and General Division in Queensland:

      (i) the Queensland Builders Labourers Divisional Branch ('**QBLDB**'); and

      (ii) the Queensland Construction Workers Divisional Branch ('**QCWDB**');

   (b) in 2012, members of the Construction and General Division resident in the Northern Territory were attached to the QCWDB;

   (c) in 2013, the QCWDB changed its name to the QNTDB; and

   (d) in 2014, the two divisional branches merged with the host divisional branch being the QNTDB.

10. Prior to 2014, the State Division (and its predecessors) collected contributions from members and facilitated the operation of both the State Division and the QNTDB through agreed unwritten administrative arrangements.[2]

Creation of the Defence Fund

11. Historically, meetings of the management committees of then CFMEUQ and the (then) QCWDB were held simultaneously.

Events in 2004

12. At a meeting of the management committee of the CFMEUQ and the QCWDB held on 25 and 26 November 2004, the management committees received a report from the State Secretary as follows:

> *The State Secretary discussed in detail the need for the Membership to have a defence fund to protect themselves not just from the upcoming draconian Industrial Relations Law changes and a hostile federal government, but also the ability to be able to campaign and protect members workers entitlements and conditions. It was agreed that the money left over from the Eagles dispute and any board fees would be allocated to the Defence Fund. It was also agreed that whilst it would apply to certain aspects of the membership in some of the other offsite fixed establishments, that is (Furniture) that it would apply to the rest of the membership in the October dues. Also it was endorsed that this membership defence fund would have no affiliation fees to the Federal office.*

13. Further, at this meeting the management committees determined to approve the membership subscriptions for 2005, which included a $1.00 contribution towards the Fund commencing in the March to September subscriptions.

14. Together, these decisions of the management committees created the Fund and imposed a levy on members to contribute to the Fund and it is necessary, in order to determine the origin of the Fund, to determine which of the Entities these resolutions relate.

15. The respective management committees were not made up of the same officers, as the CFMEUQ had officers employed in the FFTS eligibility who were not attached to the QCWDB.[3]

16. The participation of Mr S Williams and Mr G Williams in meetings, and also particular resolutions, convolutes the matter as FFTS Members were only entitled to vote in meetings of the CFMEUQ. However, in that regard the resolution was moved by the State Secretary and seconded by Mr Bob Bostock, being members of both management committees, which takes the matter no further.

17. It is well known that the former State Secretary, Mr Wallace Trohear, operated through the CFMEUQ (or its predecessors), including the collection and expenditure of monies. Membership subscriptions were paid by members to the CFMEUQ, and the levy was relevantly attached to membership subscriptions. This is suggestive of the determination, relating to levies and a financial matter, being a decision of the CFMEUQ.

18. We consider the following additional matters to be informative:

    (a) the Fund had a clear intent, that is '*…to protect themselves not just from the upcoming draconian Industrial Relations Law changes and a hostile federal government, but also the ability to be able to campaign and protect members workers entitlements and conditions*';

    (b) the 'draconian industrial laws' and 'hostile federal government' was a reference to the Howard Coalition Government and their intention to establish the Australian Building and Construction Commission;

[2] Contributions is used as a broad term intended to capture subscriptions, levies, fines etc in which a member is required to pay.
[3] These members were attached to the FFTS Division of the federal union.

(c) the Fund was initially funded by left over monies arising from the 'Eagles Dispute' and by board fees payable to the union and

(i) the 'Eagles Dispute' can be summarised as follows:

A in July 2004, Eagles Cranes and Rigging locked out its employees after a breakdown in negotiations for an enterprise bargaining agreement;

B the lockout lasted some 67 days, with significant time and resources of the union being expended;

C the dispute was broken as a result of the AWU and non-union members entering an Enterprise Agreement with the company; and

D the Enterprise Agreement was later challenged in the Australian Industrial Relations Commission; and

(ii) board fees were due and payable to the CFMEUQ in respect of the directorships;

(d) that it was agreed that the FFTS members would contribute to the Fund and that FFTS members were only members of the CFMEUQ;

(e) that the Fund would 'have' no affiliation fees to the Federal Office, in which we consider the following to be relevant:

(i) in 2004, Divisional Rule 14(i) provided:

(i) Each Divisional Branch shall forward to the Divisional Office such percentage of the Divisional Branch income as may be apportioned from time to time by the Divisional Executive.

A Divisional Branch that does not remit to the Divisional Office the moneys or part thereof owed by it by the time after such moneys are due and payable so that it becomes an Unfinancial Divisional Branch within the meaning of rule 3, shall in addition to those moneys, also be liable to pay to the Divisional Office interest on the unpaid amount at the percentage rate for 90-day bank bills as at the date that Divisional Branch becomes an Unfinancial Divisional Branch, on and from the said date. Such a Branch will remain an Unfinancial Divisional Branch for all purposes under these Rules until the principal sum and interest thereon specified in this sub-rule are paid to the Divisional Office.

If the Divisional Executive is of a view that the reasons for the non-payment are genuine reasons of incapacity to pay, then such interest shall not be levied.

(emphasis added)

(ii) Divisional Branch income is not defined, however, given the use of the term 'income' it is likely to include all receivable money such as contributions, levies, fines etc.;

(iii) if levies were included as part of 'Divisional Branch income', the management committee of the (then) QCWDB could not set aside rule 14(i) of the Division by resolution; and

(iv) a determination that the Fund would have no affiliation fee to the Federal Office is more consistent with the management committee determining that the Fund was held by the CFMEUQ and, consequently, was not required to pay affiliation fees to the Federal Office from income generated.

19. For the reasons we have set out above, in our view, the original resolution for the raising of the Fund was a resolution of the CFMEUQ.

20. On our instructions, these circumstances accord with the recollection of the events from Mr Michael Ravbar, the then State Assistant Secretary.

Events in 2005

21. In 2005, the procedure for conducting meetings of the management committees had not altered and at a meeting of the respective management committees held on 3 and 4 March 2005, the management committee considered the 2005 budget and determined as follows:

> *The State Secretary, Wallace Trohear reported that the criteria was adopted last year but the final budget income and expenditure was to be presented with the one amendment being the words"Fighting Fund Levy" be replaced with "Membership Defence Fund".*

22. The management committees also considered a report of the State Secretary in respect of the Fund as follows:

> *The State Secretary gave an overview of how the new fund was working and on some of the responses from the members. It was supplemented by the Assistant State Secretary Michael Ravbar, who said that the fund itself is being promoted through various forums, we need to get the message even more out there to the members. While the officials and delegates know about the fund, we need to promote it a lot more and explain that this fund is in for the long term to the entire membership.*

23. We note that neither the determination nor the report takes the history of the Fund any further nor do they alter the arrangements in respect of the Fund.

24. In our view, the Fund remained a fund of the CFMEUQ and the Financial Reports for the (then) CFMEUQ for FYE 31 December 2005 record that:

    (a) $274,097 was paid by compulsory levy into the Fund;

    (b) $62,958 was paid by voluntary contributions into the Fund; and

    (c) a total of $483,686 was paid into the Fund.

Events in 2005 to 2012

25. During the period 2005 to 2012 the Fund grew from $483,686 to $2,383,362 and there was no alteration to the control, or operation, of the Fund.

26. In 2012, the procedure for conducting meetings of the management committees had not altered and at a meeting of the respective management committees held on 12 October 2012, the management committees considered the recommended dues for 2013 and determined as follows:

> *…An extra 50 cents per week be paid by T1 members as per proposed union dues 2013 document and allocated to the defence fund…*

27. Consequently, the levy for the Fund increased from $1.00 per Tier 1 member per 6 months to $1.50 per Tier 1 member.

28. As membership subscriptions in 2012 were still paid to the CFMEUQ, the $1.50 for Tier 1 members being part of the subscriptions supports the view that the Levy was a decision of the CFMEUQ and that the Fund remained a fund of the CFMEUQ.

29. In our view, from its creation until 2012 the Fund was a fund of, and the levy was a levy of, the CFMEUQ.

Organisational Change

30. We confirm our view that historically the Fund was a fund of the CFMEUQ. In support of this view, is the fact that the QNTDB (nor its predecessor, the QCWDB) maintained a bank account until 2013.

31. Between 2013 and 2014, the Entities undertook a process of organisational change commencing on 17 May 2013, whereby the QCWDB Executive held a separate meeting to the CFMEUQ and determined to open a bank account in the name of the Divisional Branch.

32. On the same day, the State Divisional Executive:

    (a) noted:

        (i) the potential for significant growth in membership from the Northern Territory;

        (ii) that persons residing in the Northern Territory cannot be members of the State Division;

        (iii) the significant organising opportunities presented by the merger of the QCWDB and the QBLDB; and

        (iv) the then Newman Liberal Government was seeking to restrict legitimate rights and freedoms of the CFMEUQ to campaign for the industrial rights of its members, and that those restrictions did not apply to the QCWDB; and

    (b) determined to make payment of $1,500,000.00 to the QCWDB to ensure its effective functioning and its ongoing representation of dual members.

33. This was, relevantly, the commencement of a 'restructure' in respect of the operation of the State Division and the QNTDB, whereby determinations, structural and administrative arrangements between the State Division and the QNTDB were planned and, in effect, the operational entity became the QNTDB.

Restructure

34. The date of this 'restructure' was 1 July 2013, as recorded in the Financial Reports of the QNTDB for FYE 31 December 2013:

> *The CFMEU has restructured during the year incorporating a reorganisation of branches and rule changes including membership rule changes.*
>
> *As a consequence of the restructure, from 1 July 2013 membership and other income and operating expenditure is recorded in the accounts of the CFMEU C&G QNTDB.*

, and the Financial Reports confirmed that there was an arrangement between the QNTDB and the CFMEUQ for the administration of the QNTBD's financial affairs which ceased on 1 July 2013:

> *The Union's financial affairs were administered by the Construction, Forestry, Mining and Energy, Industrial Union of Employees, Queensland.*
>
> *Under this informal arrangement membership subscriptions were collected and all affiliation fees paid on the Union's behalf with any surplus funds paid to the CFMEUQ as an administrative fee.*
>
> *This arrangement ceased effective 1 July 2013.*

Defence Fund

35. The Financial Reports for FYE 31 December 2013 confirmed:

(a) a transfer of the Defence Fund was made from the then CFMEUQ to the QNTDB and was recorded in the Financial Reports of the:

(i) CFMEUQ:

Transfer Defence Fund retained earnings to CFMEU C&G QNTD	*(1,863,122)*

(ii) QNTDB:

Transfer Defence Fund from CFMEUQ	*1,863,122*

(b) the transfer was recorded in the Financial Reports of the QNTDB as an acquisition of assets/liabilities from an amalgamation/restructure:

Errors – Financial Reporting

36. Following the lodgement of the separate 2013 Financial Reports of the QNTDB and the CFMEUQ, an issue was identified with the Regulator, then the Fair Work Commission, in respect of historical financial reporting.

37. This error related to a very lengthy historical practice of reporting the financial position of the CFMEUQ and the QCWDB in the same financial reports for an excess of 20 years.

38. After significant consultation and exchanges of lengthy correspondence between the QNTDB and the Fair Work Commission, the QNTDB in the Financial Reports for FYE 31 December 2014, recorded the following notes in respect of the errors that occurred:

> ***Note 3: Prior Period Error- Basis of Accounting***
> *Prior to 2013, due to a very lengthy historical practice, the financial results and position of the state union (in respect of income, liabilities and assets) was incorrectly also reported as the financial position of the Queensland Construction Workers Divisional Branch ("QCWDB") (this Divisional Branch later changed its name and became the Queensland and Northern Territory Divisional Branch ("QNTDB")). There were no differences between the financial results and positions included in the two reports.*
> *On a practical level, and as a matter of entrenched historical practice, what occurred was that for the consideration of not recovering a membership fee and treating financial members (otherwise eligible) of the CFMEUQ, who applied for membership and were attached to the QCWDB, as financial members of the QCWDB, the CFMEUQ provided full administrative, servicing, auditing and resourcing capability to the QCWDB.*
> *The QCWDB, until May 2013, did not have income or expenses and did not maintain a bank account separate to that of the CFMEUQ. It is considered that until the establishment of its bank account the QCWDB did not have financial affairs.*
> *This matter is not adequately dealt with in the notes to the 2013 Report of the QNTDB.*
> *In making the assumption that the CFMEUQ and the QCWDB would be treated as the same (entity) for the purposes of financial reporting, the practical outcome was that each financial report was the same*

and in effect a report reflecting the totality of the affairs of the CFMEUQ and the QCWDB. That is there was only one set of income and expenditure.

…

Importantly, given the practical effect of the financial reporting and that the members of the CFMEUQ and the QCWDB were significantly the same for the period up to and including the financial year ended 31 December 2012, the reports that were historically provided to members appropriately advised the overall financial situation that had impacted on them as a member of the two entities. Consequently the members of the QCWDB have not been placed in a position to their detriment because of the error.

Note 4: Prior Period Error- Membership Fees

(i) The 2012 financial report for the QCWDB did not recognise the "non-Queensland" fees (the fees for members residing in the Northern Territory) This issue was corrected in the financial statements for the year ended 31 December 2013.

(ii) The financial implication of receiving Northern Territory fees appears in the membership subscription line item of the 2013 income statement. The comparative amount from 2012 was appropriately adjusted to include Northern Territory fees.

(iii) The notes to the 2013 financial reports did not explain that the $200,833 of membership subscriptions provided from the CFMEUQ to the QCWDB in 2012 was the amount collected in respect of members in the Northern Territory (and the Forestry, Furnishing, Building Products and Manufacturing Division) that were not eligible for membership of the CFMEUQ.

(emphasis added)

39. Consistent with the matters we have considered above, we made the following submissions on behalf of the QNTDB in relation to the organisational change that had occurred:

…

Comparatives for the 2013 Report - Organisational Change

73. Due to legislation of the Newman Government in Queensland, the state registered CFMEUQ and the reporting unit determined that the then existing administrative arrangements in place between the CFMEUQ and the QCWDB did not allow for adequate industrial and political representation of the Joint Members.

74. The management committees of both the CFMEUQ and the QCWDB considered that the legislation was politically motivated and not directed to the good and transparent governance of industrial organisations, but rather was designed with bias to create unnecessary expense in operating and administering state registered unions[4].

75. It was also considered that the arrangements were not lawful and a High Court challenge on the basis of a breach to the implied freedom of political communication was made to the laws.

76. Relevant aspects of the legislation were, following the challenge, subsequently withdrawn (by the Newman Government).

77. Prior to that withdrawal, and as a consequence of the concerns legitimately held in relation to the Newman Government's legislation, the CFMEUQ and the QCWDB put in place revised administrative arrangements which provided for the:

a) transfer of resources and assets commencing in May 2013; and

b) adoption of a greater federal IR/organisational focus.

78. The following considerations were also taken into account by the management committees of the CFMEUQ and the QCWDB in determining to alter the administrative arrangements:

a) the benefit of consistent federal branding - utilising recognition across Australia amongst members and potential members;

b) as members are often mobile in the search for work, there was value in national identity for members moving from interstate;

c) that as the majority of members were federal system employees, it was in the best interests of both organisations for the federal reporting unit to receive additional resourcing to represent members before the Fair Work Commission and Federal Courts;

d) the potential for increased costs due to duplication;

e) uncertainty as to entity for joint members, officials and third parties; and

f) the potential for error arising from the implementation of the then administrative arrangements.

Comparatives for the 2013 Report - Administrative Change

[4] See *Industrial Relations (Transparency and Accountability Act) 5s. 5300, 553F and 553FA* .

79. Due to the structural and organisational changes detailed above, it was determined that it would be in the best interest of the joint members if the federal reporting unit and the state registered union (joint members) made administrative changes to prevent the duplication of services and reduce complexity.

80. This resulted in a number of items being transferred from the state registered union to the reporting unit including:

a) accrued employee entitlements;
b) ongoing employee expenses;
c) financial administration costs;
d) agents fees;
e) the defence fund;
f) legal fees; and
g) the administration of grant funding.

81. Providing for the administrative services to be performed by the one entity reduces the likelihood of reporting error.

Determinations

40. We are, relevantly, unable to locate any consideration or determination in, or around, July 2013 in respect of the 'restructure' or the transfer of the Fund.

41. The earliest consideration of the 'restructure' was at the respective meetings of the:

(a) State Divisional Executive held on 15 September 2014 ('**2014 Meeting of State Executive**'); and

(b) QNTDB Executive held on 15 September 2014 ('**2014 Meeting of QNTDB Executive**').

Administrative Arrangements and the Levy

42. Resolution 1 of the 2014 Meeting of State Executive provides:

The State Executive notes that:

- *there has for a very long time been arrangements in place between the CFMEU and its predecessors and the CFMEUQ and its predecessors for the sensible administration of the 2 entities so as to maximise membership benefit and avoid unnecessary cost by duplication;*

- *a number of amalgamations and mergers have occurred in Queensland that have had an effect on the way in which the CFMEUQ operates;*

- *the amalgamations that have occurred in the last 2 years have unified the state components of the CFMEU and have been with the:*

  (a) CFMBUQ;
  (b) FEDFA;
  (c) QCEUE; and
  (d) BLF;

- *the amalgamations were structured to reflect the arrangements that exist in the CFMEU and utilise a divisional structure (Construction and General/Miners);*

- *a merger occurred in the federal jurisdiction which resulted in the C & G Division representing all members in Queensland not otherwise attached to the Mining Division, with the exception of the FFPD members who are represented on an agency basis by the C & G Division;*

- *different structural arrangements have also been necessary to provide for the representation 0f the Northern Territory members who are also attached to the C & G Division and the Divisional Branch was renamed the Queensland Northern Territory Divisional Branch ("the C&G Divisional Branch");*

- *the State Construction and General Division ("the State Division") of the CFMEUQ has substantially the same membership as the C&G Divisional Branch;*

- *the general position of the C&G Divisional Branch in the last few years, and which takes into account the unification of the state counterparts of the CFMEU, was to create uniformity by emphasising the Federal identity of the CFMEU, not just between the members of the former BLF and Building Workers Division Branches in Queensland, but particularly with the Northern Territory members;*

- *the State Division recognises that the C&G Divisional Branch and the CFMEU consider it both appropriate and desirable that the contributions of Joint Members be administered by Divisional Branches and not state counterparts, as the CFMEU is streamlining its operations around Australia to move to a greater federal focus, more defined identity and to respond to Government and Employer attacks in a more cohesive way;*

- *due to the State Division having significantly the same membership as the C&G Divisional Branch ("Joint Members") with the exceptions of the FFTS/Northern Territory members, administrative practices have been implemented to avoid overlap, inefficiencies and unnecessary cost;*

- *structural/administrative arrangements have also been implemented by the State Division in conjunction with the C&G Divisional Branch due to:*

  (a) the significant growth in the number 0f members of the C&G Divisional Branch in the Northern Territory;
  (b) the significant majority of Joint Members being national system employees;
  (c) the significant majority of members of the former BLF are national system employees;
  (d) the continued decline in the state industrial systems around Australia as the Howard amendments to the industrial relations system has taken hold;
  (e) the attack on workers in Queensland by the Newman Government;
  (f) the unmeritorious attack on Queensland union structures by Bleije/Newman; and
  (g) the stripping of employees from Queensland government services;

- *recognition of these factors and the appropriateness of utilising the CFMEU as the more relevant overarching structure, that can accommodate the needs of the Joint Members into the future, has required the administrative process, inclusive of the:*

  (a) payment of subscriptions and levies;
  (b) employment of staff;
  (c) training of officials;
  (d) engagement of agents/suppliers; and
  (e) purchase of plant and equipment,

  to occur in the C & G Divisional Branch as opposed to using the state union as previously occurred;

- *the State Division has, through its officers, confirmed to the C & G Divisional Branch that the preferred approach of the State Division is to operate in a cohesive way through the C & G Divisional Branch by streamlining to the extent possible the administrative arrangements between the 2 entities, provided that compliance must be effected in relation to the state registered union so that the ability of the state registered union to continue to represent members in the state commission is ensured;*

- *the joint members are only to pay one set of contributions which the C & G Divisional Branch will collect and the rules of the state union will provide that members of the State Division who are financial in the CFMEU and are attached to the C & G Divisional Branch are not required to pay a further fee,*
- *the State Division will also ensure its rules provide for similar structures to the C & G Divisional Branch and that an exemption from election can be obtained by the State Division so that the of ficers who hold corresponding offices will be the same;*

- *the officers of the C & G Divisional Branch have confirmed that a priority of the administrative arrangements will be to ensure the continued existence and ongoing compliance of the state registered entity; and*

- *it is appropriate to formalise the arrangements between the State Division and the C & G Divisional Branch in writing.*

Decision: "The State Executive authorises the State Secretary to prepare a written agreement to provide for the administrative arrangements in place between the State Division and the C&G Divisional Branch, for:

(a) subscription fees to be paid to, and collected by, the C & G Divisional Branch;
(b) levies to be collected by the C & G Divisional Branch;
(c) employees to be engaged by the C & G Divisional Branch;
(d) employees/joint employees to be administered by the C & G Divisional Branch;
(e) agents/suppliers to be engaged by the C & G Divisional Branch;
(f) finances/administration to be conducted by the C & G Divisional Branch; and
(g) membership services to be delivered through the C & G Divisional Branch,

and to liaise with the Divisional Branch Secretary of the C & G Divisional Branch on the terms of the arrangements.

The State Executive authorises the State Secretary, on behalf of the State Division, to enter into written agreements with the C & G Divisional Branch, once the State Secretary is satisfied that the agreement provides for the administrative arrangements currently in place between the Slate Division and the C & G Divisional Branch."

(emphasis added)

43. This resolution recognises that the administrative processes have altered from the historical practice and provides for the administrative arrangements into the future. The State Executive, relevantly, determined that:

    (a) subscription fees to be paid to, and collected by, the C & G Divisional Branch; and

    (b) levies to be collected by the C & G Divisional Branch.

44. Resolution 2, under the heading administrative arrangements, of the 2014 Meeting of the QNTDB Executive ('**Resolution 2**') is in a similar form to Resolution 1 by the State Divisional Executive and provides:

Preamble

The C&G Divisional Branch Executive notes:

1. A number of amalgamations unifying the CFMEU state counterpart have occurred in Queensland with the effect that different structural arrangements have been adopted for the operations of the:

(a) CFMEUQ;
(b) FEDFA;
(c) QCEUE; and
(d) BLF.

2. The general position that the C&G Divisional Branch has adopted in the last few years, and which takes into account the unification of the state counterparts, is to create uniformity by maximizing the Federal identity of the CFMEU, not just between the members of the former BLF and Building Workers Division Branches in Queensland, but also with the Northern Territory members.
3. The merger of the Qld Divisional Construction Branches has also occurred in the federal jurisdiction which has meant that different structural arrangements were necessary for the continued operation of the C&G Divisional Branch.

4. The State Construction and General Division ("the State Division") of the CFMEUQ has substantially the same membership as the C&G Divisional Branch ("Joint Members") With some exceptions in relation to the FFTS and Northern Territory members, which has resulted in administrative practices being adopted to avoid overlap and unnecessary cost.

5. Structural and administrative arrangements have also been implemented in recognition of the fact that:
(a) there has been significant growth in the number of members of the C&G Divisional Branch in the Northern Territory;
(b) the significant majority of Joint Members are now national system employees; and
(c) the significant majority of members of the former BLF are national system employees.

6. The C&G Divisional Branch also recognises that the National Division and National Union consider it appropriate that the membership subscriptions of Joint Members be administered by C&G Divisional Branches and not counterpart State Unions, as the CFMEU streamlines its operations around Australia to move to a greater federal focus, and it is appropriate for the C&G Divisional Branch to support the Division and the National Union.

7. Recognition of these factors and the appropriateness of utilising the Federal Union as the more relevant overarching structure, that can accommodate the needs of the Joint Members into the future, requires the administrative process, inclusive of the payment of subscriptions, to be effected in the C&G Divisional Branch as opposed to utilising the State Union as previously occurred.

8. The State Division has, through its officers, confirmed that the preferred approach of the C&G Divisional Branch is also the preferred approach of the State Division.

9. The C&G Divisional Branch Secretary considers it is appropriate to formalise these arrangements in writing with the State Division and the C&G Divisional Branch wishes that he do so.

Decision: "The C&G Divisional Branch Executive authorises the C&G Divisional Branch Secretary to establish agreements that reflect the administrative arrangements in place between the C&G Divisional Branch and the State Division with the:

(a) subscription fees t0 be paid t0 the C&G Divisional Branch;
(b) finances/administration to be conducted by the C&G Divisional Branch;
(c) membership services t0 be delivered through the C&G Divisional Branch,

and to liaise with the State Secretary of the State Division as to the terms of the arrangements.

The C &G Divisional Branch Executive authorises the C&G Divisional Branch Secretary, on behalf of the C&G Divisional Branch, to enter into written agreements with the State Division, once the C&G Divisional Branch Secretary is satisfied that the agreements provide for appropriate administrative arrangements in accordance with the preamble to this resolution between the C&G Divisional Branch and the State Division."

45. Whilst no formalised written arrangements were entered into, the State Division and the QNTDB applied these administrative arrangements.

46. We note that there are differences in the terminology of these resolutions which, given that the administrative arrangements apply in the same manner to both Entities, have an intended meaning.

47. The most significant difference is the absence of a determination in the resolution of the QNTDB, and the use of the words 'collected by' in the resolution of the State Divisional Executive, in respect of levies. This is, in our view, important, as it deals specifically with the Levy for the reasons below.

48. That the QNTDB Executive did not determine that the administrative arrangements apply to the collection of levies, is in our view recognition that:

(a) the QNTDB had not determined any levies of members at the time; and

(b) the QNTDB are at any time entitled to determine levies and that those levies are to be paid by members to the QNTDB under the Divisional Rules.

49. However, the State Divisional Executive had determined that levies are payable by its members and that, during the restructure, the levies were continuously paid by members to the QNTDB under those determinations, including the Levy.

50. It was, consequently, necessary to determine that *inter alia* the Levy was to be paid and that it was to be collected by the QNTDB – see the resolution of the State Divisional Executive.

51. Notably, the State Divisional Executive did not use the same terminology as it did with subscriptions, being 'paid to, and collected by,' and that *prima facie* this would have been intentional. The intent, in our view, may have been that, whilst collected by the QNTDB, the QNTDB were not to be paid the Levy, but that the Levy was to be placed in the Fund created by the State Division and transferred to the QNTDB to be managed on its behalf (matters that are dealt with below).

52. This is, in our view, consistent with the approach adopted on, and from, 2013, whereby the QNTDB did not determine a levy of its members to make contributions to the Fund, and that members continued to pay, as part of subscriptions, the Levy which was in turn collected by the QNTDB. This is, however, made more complex by the payment of the Levy by the NT Members, a matter which we go into detail below.

53. The consequence of our view being correct is that all monies paid since 2013 to the QNTDB in relation to the Fund have been paid in accordance with the Levy. This is significant as this is a determination of the State Division and, in our view of the administrative arrangements, the QNTDB were merely collecting the Levy on its behalf.

54. We have considered the balance of the resolutions made at the 2014 Meeting of the State Executive and the 2014 Meeting of the QNTDB Executive and note:

(a) other than the determinations of the respective Executives in relation to the Fund (dealt with below), there are no other matters considered by the governing bodies that affect the Levy and the Fund;

(b) that whilst the Preamble to Resolution 1 of the State Divisional Executive uses the word 'collect' in the following context:

the joint members are only to pay one set of contributions which the C & G Divisional Branch will collect…

, it is consistent with the resolution and does not detract from the view expressed above; and

(c) that whilst the Preamble to Resolution 3 of the State Divisional Executive uses the word 'collect' in the following context:

The previous administrative arrangements in place between the C&G Divisional Branch and the CFMEUQ (as it was) and the State Division, as the case may be, provided that the CFMEUQ/State Division collected the membership subscriptions of Joint Members who were required to only pay a single subscription;

, it is consistent with the proposition of collection in relation to membership subscriptions under Resolution 1 and does not detract from the view expressed above.

Defence Fund Levy

55. As identified above, the transfer of the Fund had occurred in July 2013 and we have been unable to locate a determination of the State Divisional Executive nor the QNTDB Executive in relation to this decision.

56. However, at the 2014 Meeting of the State Executive and the QNTDB Executive, the:

(a) the State Divisional Executive resolved:

The State Executive notes that:

- *the State Division's defence fund has been transferred to the Branch Fund of the C & G Divisional Branch where it has been used for, and is to be used for, the purpose of defending joint members;*
- *the reason for this transfer are that the concerted attacks against members are occurring in relation to joint members who are engaged as national system employees and it is more administratively sensible for the funds to be managed by the C & G Divisional Branch;*
- *the transfer is also consistent with the matters noted in relation to resolution 1; and*
- *the actions of the State Secretary in transferring the funds are endorsed.*

Decision: "The State Executive endorses, and confirms, the decision of the State Secretary to transfer the fighting fund to the C & G Divisional Branch to be used in accordance with the purpose for which it was established."

(b) the QNTDB Executive resolved:

The C&G Divisional Branch Executive notes that:

- *the State Division's defence fund has been transferred to the Branch Fund of the C&G Divisional Branch where it has been used for, and is to be used for the purpose of defending joint members;*
- *the reason for this transfer are that the concerted attacks against members are occurring in relation to joint members who are engaged as national system employees and it is more administratively sensible for the funds to be managed by the C&G Divisional Branch;*
- *the transfer is also consistent with the matters noted in relation to resolution 2;*
- *the C&G Divisional Branch Executive acknowledges the purpose for which the funds were transferred and the purpose for which the fund was established; and*
- *the C&G Divisional Branch Executive acknowledges that the fund will only be used for that purpose.*

Decision: "The C&G Divisional Branch Executive accepts the decision of the State Secretary to transfer the fighting fund to the C&G Divisional Branch and agrees to use the fund in accordance with the purpose for which it was established."

57. Firstly, we recognise that these determinations are endorsing, and confirming, the actions of respectively the State Secretary of the State Division and the Divisional Branch Secretary of the QNTDB in transferring the Fund in 2013. This, relevantly, explains the absence of a determination by the respective Executives at the point of transfer.

58. Secondly, both resolutions confirm that the transfer of the Fund is consistent with the matters noted in the administrative arrangement resolutions addressed above. This is of significance given our view in relation to the mere collection of the Levy by the QNTDB and that this was merely the creation of arrangement for the management of the Fund.

59. Thirdly, and consistently, both the respective governance bodies have confirmed that:

(a) it is more administratively sensible for the Fund to be managed by the QNTDB; and

(b) the Fund is to be used for the purpose for which it was established by the State Division.

60. These matters, in our view, indicate an intention for administrative management of the Fund by the QNTDB on behalf of the State Division and that the 'ownership' of the Fund never altered.

61. It was necessary to 'transfer' the Fund to allow for the effective management by the QNTDB, given that it was to collect the Levy and ensure the appropriate investment of the Fund.

62. In our view, transfer, in this context, is a reference to the monies held by the State Division that comprise the Fund and not the transfer of any rights in respect of the Fund. For example, if the QNTDB sought to use the Fund for a purpose outside the '*purpose for which it was established*', the State Division may have had a cause of action to prevent that use.

QNTDB and the Levy

63. In support of the view expressed above, in respect of the collection of the Levy and the management of the Fund, is our instructions that to the best of the State Secretary/QNTDB Divisional Branch Secretary's knowledge the QNTDB has at no time passed a resolution for the raising of the levy, the adoption of the levy and/or creating the Fund.

64. That the QNTDB Executive did not determine such a levy is indicative of the proposition of 'collection' of the State Division's Levy as identified above.

65. Whilst the QNTDB Executive periodically determined the contributions payable by the members, the Levy component remained as the amount determined by the State Divisional Executive on 12 October 2012. This is, in our view, the application of the administrative arrangements by the QNTDB to collect the Levy rather than a determination of a levy of members.

66. On, and from, 1 July 2013, the NT Members commenced making payment of an amount equalling the Levy as part of the contributions paid the QNTDB. This was, however, not in accordance with the determination of the State Division given that the NT Members are not eligible for membership of the State Division.

67. Whilst accounted for by the QNTDB as part of the Fund, in our view and despite the matters raised above, this amount should be treated separately to the Fund and the Levy paid by Dual Members. The QNTDB could not, relevantly, collect the Levy from NT Members on behalf of the State Division and, consequently, the amounts paid are monies of the QTNDB.

68. However, given these monies were purportedly paid in accordance with the Levy into the Fund, the monies may be impressed with a condition that they be used for the same purpose as the Fund on behalf of NT Members.

69. On our instructions, the QNTDB Executive and the State Divisional Executive have been informed of this issue and consider that it is, in these circumstances, appropriate for the QNTDB to retain the monies paid, and those yet to be paid, by the NT Members in accordance with the Levy.

70. As a belts and braces approach, it is appropriate for the QNTDB Executive to endorse:

    (a) the levy payable by NT Members;

    (b) the reason for the payment of the Levy, being the same reason for the creation of the Levy; and

(c) the creation of the 'defence fund' for NT Members and the purpose of that 'defence fund', being the same purpose as the Fund, however, exclusively for NT Members.

71. We will advice the QNTDB of these matters further under separate correspondence.

Return of the Defence Fund

72. We have at length addressed the history of the Fund and the Levy, and that each matter was determined separately at a meeting of the (then) CFMEUQ Executive and the QCWDB Executive.

73. Although the meetings were held simultaneously, we confirm that:

(a) the context provides that these decisions were decisions of the (then) CFMEUQ; and

(b) as the QNTDB did not (and did not have the ability to) incur debts or transact in their own capacity, nor did the QNTDB maintain bank accounts, at any stage until May 2013, it could not have held the Fund nor received payment of the Levy.

74. Consequently, in our view, the starting position for determining the 'ownership' of the Fund, is that the original resolution for the raising of the Defence Fund, and the Levy to be paid to the Fund, were resolutions of the CFMEUQ.

75. We have, subsequently, traced the Fund through to its transfer to the QNTDB. In our view, the following matter are relevant to suggest that this was merely the creation of administrative arrangements in respect of the management of the Fund:

(a) that the State Divisional Executive determined that the QNTDB will 'collect' levies, being levies determined by the State Divisional Executive (including the Levy);

(b) that the QNTDB did not determine a separate levy in respect of the Fund and its members, noting:

(i) that it did determine the yearly contributions payable by Dual Members and NT Members;

(ii) however, the component of the Levy remained the same amount as determined by the State Divisional Executive on 12 October 2012; and

(iii) that this appears to be the application of the agreed administrative arrangement for the collection of the Levy; and

76. That on the face of the resolutions there was an intent of both governing bodies for administrative management of the Fund to be conducted by the QNTDB on behalf of the State Division and that the 'ownership' of the Fund never altered.

2019/2020 Review of Administrative Arrangements

77. This arrangement has continuously operated since 2014, and has seen the QNTDB manage the Fund and see it grow substantially as a result of the payment of the Levy by Dual Members.

78. However, as a result of a review of the administrative arrangements between the QNTDB and the State Division, the State Division has subsequently become the operating entity. This has resulted in a significant change in the administrative arrangements, including that contributions are now paid by Dual Members (and NT Members, which are subsequently returned to the QNTDB) to the State Division.

79. We will not detail the full extent of the reason for the substantial change to the administrative arrangements, however, the State Division and the QNTDB have acknowledged:

(a) that:

(i) the anti-worker Newman LNP Government was quickly and soundly defeated, its legislation was reversed and the significant risks of operating in the state jurisdiction were removed;

(ii) the growth of the membership in Northern Territory did not reach the expectation of the (then) QCWDB at the time of its determination in May 2013 and that that growth was dependent to a greater extent than was expected on project work,

with the consequence that part of the basis for the decisions made by the State Division and the QNTDB did not in fact transpire; and

(b) that the Morrison Coalition Government is now seeking to severely restrict the legitimate rights and freedoms of the QNTDB, just as the Newman LNP Government sought to do to the State Division in Qld, to act in the best interests of the Dual Members.

Return of the Fund

80. On 17 March 2020, the QNTDB Executive determined to return the Fund to the State Executive ('**March Determination**'):

> *Decision: The Executive of the QNTDB, in relation to the Defence Fund, notes:*
>
> *(a) it has considered the resolution of the State Division of 15 September 2014, which was in the following terms:*
>
> *The State Executive endorses, and confirms, the decision of the State Secretary to transfer the fighting fund to the C & G Divisional Branch to be used in accordance with the purpose for which it was established.*
>
> ***Resolution 5 – Defence Fund***
>
> *('**Resolution**');*
>
> *(b) its understanding that the fighting fund was a reference to the Defence Fund which was at that time an amount of $1,863,122 ('**Monies**');*
>
> *(c) that in accordance with the Resolution the Monies were received into the Divisional Branch fund of the QCWDB;*
>
> *(d) that the Defence Fund has, since the transfer of the Monies, continued to grow due to:*
> - *investment of the Monies;*
> - *interest payments on the Monies; and*
> - *further receipt of levy payments into the Defence Fund;*
>
> *(e) neither the QCWDB nor the QNTDB have resolved to levy the members of the QNTDB for the purposes of the Defence Fund;*
>
> *(f) that the levies received by the QCWDB/QNTDB in relation to the Defence Fund since 2014 are in accordance with the resolution of the State Division (formally the CFMEUQ) of 2004, and have been received in accordance with the State Divisions resolutions of 15 September 2014:*

The State Executive authorises the State Secretary to prepare a written agreement to provide for the administrative agreements in place between the State Division and the C&G Divisional Branch, for:

subscription fees to be paid to, and collected by, the C & G Divisional Branch;
levies to be collected by the C & G Divisional Branch;
employees to be engaged by the C & G Divisional Branch;
employees/joint employees to be administered by the C & G Divisional Branch;
agents/suppliers to be engaged by the C & G Divisional Branch;
finances/administration to be conducted by the C & G Divisional Branch; and
membership services to be delivered through the C & G Divisional Branch,

and to liaise with the Divisional Branch Secretary of the C & G Divisional Branch on the terms of the arrangements.

The State Executive authorizes the State Secretary, on behalf of the State Division, to enter into written agreements with the C & G Divisional Branch, once the State Secretary is satisfied that the agreement provides for the administrative arrangements currently in place between the State Division and the C & G Divisional Branch.

, and that consequently those monies have been collected by the QCWDB/QNTDB and paid into the Defence Fund on behalf of the State Division;

(g) that the Defence Fund has continued to be held for the purpose for which it was raised in 2004;

(h) that no monies have to date been expended from the Defence Fund;

(i) the resolutions of the QNTDB Executive of 12 November 2019 and the reasons, to ensure the protection of the joint members of the QNTDB/State Division, for the reallocation/change in administrative arrangements and other arrangements as between the QNTDB and the State Division; and

(j) that levy has been collected also on behalf of the Northern Territory members of the QNTDB.

The Executive of the QNTDB determines:

1. That the Defence Fund, as transferred to the QNTDB by the State Division together with any accretions by way of interest or investment to the Defence Fund, be transferred back to the CFMEUQ for, and on behalf of the State Division, to be used in accordance with the purpose for which the Defence Fund was established.

2. That, subject to resolutions 3 and 4, as the QNTDB has collected the Defence Fund levy on behalf of the State Division those monies collected, together with any accretions, by way of interest, investment or otherwise, be returned to the CFMEUQ on behalf of the State Division.

3. That, subject to resolution 4, in the event that the right to collect the Defence Fund levy was a right of the QNTDB on its own behalf, and not as an agent for the State Division, then those monies collected, together with any accretions, by way of interest, investment or otherwise, be transferred to the CFMEUQ, for and on behalf of the State Division, to be consolidated with the Defence Fund and used in accordance with the purpose for which the Defence Fund was established.

4. That the QNTDB will retain for the purposes of establishing a defence fund for its members in the NT, any monies that have been received from members of the NT and which have been paid into the Defence Fund.

81. The March Determination was not time sensitive, and the Fund was not transferred at that time.

82. For the reasons we have set out above, the QNTDB has collected the Levy and managed the Fund on behalf of the State Division during its possession of the Fund. In our view, the March Determination amounts to the mere return of the Fund to the State Division, being the creator of the Fund and the Levy.

83. If we are mistaken in this view, and the transfer amounted to the disposition of the Fund and the relinquishment of ownership rights of the monies that make up the Fund, we do not consider this to be fatal. That is, it is possible that the transfer of the Fund to form part of the new administrative arrangements, for the same reasons that the Fund was able to transferred by the State Division to the QNTDB as a part of the administrative arrangements between the Entities.

84. However, our view is the preferred view and that this amounts to a 'return' of the Fund to the State Division. The QNTDB will cease to manage the Fund and will cease to collect the Levy on behalf of the State Division.

85. We confirm, consistent with the view expressed above, that those monies paid by NT Members in respect of the Levy should remain with the QNTDB 'defence fund' to be used for the purpose in which the Fund was created for NT Members only.

86. On 6 August 2020, the State Division determined *inter alia* to accept the return of the Fund and retake the burden of administration of the Fund. This includes the collection of the Levy.

87. The State Division also determined to seek an amendment to the Service Agreement with the QNTDB to provide for the use of the Fund into the future, and we commend that decision. The State Division and the QNTDB, which both have managed the Fund for significant periods, will be able to agree to an amendment to the Service Agreement to:

    (a) ensure the growth of the Fund is appropriately provided for; and

    (b) facilitate administrative arrangements between the QNTDB and the State Division in respect of the Fund,

    for the protection of the interests of the Dual Members.

88. We would also commend an amendment to the Service Agreement to provide for the 'defence fund' of the QNTDB for NT Members.

Investment of the Fund

89. As an aside, we confirm that the State Division has determined to invest the Fund in property to provide for the growth of the Fund and ensure the protection of the interests of the Dual Members into the future. The QNTDB has endorsed the strategy of the State Division, and recognises that the State Division are investing in a way that provides prudential assurance.

90. We do not need to consider the decision of the State Divisional Executive, other than to confirm that the decision is a valid decision, in either the circumstance that the March Determination:

    (a) amounts to the return of the Fund to the State Division, being the entity which always maintained 'ownership' of the Fund; or

    (b) was, consistent with the determinations made at the 2014 State Executive Meeting and the 2014 QNTDB Executive Meeting, the creation of administrative arrangements for the management of the Fund and the collection of the Levy.

Duties of Officers

91. The officers are aware of the duties owed by them at law and under statute, as officers of both the QNTDB and the State Division, and that the duties are owed to the members of respectively the QNTDB and the State Division who are substantially the same cohort of members.[5]

92. For ease of reference, we set out the following obligations on the officers of the QNTDB and the State Division:

    (a) section 285 of the *Fair Work (Registered Organisations) Act 2009* (Cth) ('**FW(RO)A**') provides:

> ***285 Care and diligence—civil obligation only***
> *(1) An officer of an organisation or a branch must exercise his or her powers and discharge his or her duties with the degree of care and diligence that a reasonable person would exercise if he or she:*
> *(a) were an officer of an organisation or a branch in the organisation's circumstances; and*
> *(b) occupied the office held by, and had the same responsibilities within the organisation or a branch as, the officer.*
> *Civil penalty: 100 penalty units, or 1,200 penalty units for a serious contravention.*
> *(2) An officer of an organisation or a branch who makes a judgment to take or not take action in respect of a matter relevant to the operations of the organisation or branch is taken to meet the requirements of subsection (1), and their equivalent duties at common law and in equity, in respect of the judgment if he or she:*
> *(a) makes the judgment in good faith for a proper purpose; and*
> *(b) does not have a material personal interest in the subject matter of the judgment; and*
> *(c) informs himself or herself about the subject matter of the judgment to the extent he or she reasonably believes to be appropriate; and*
> *(d) rationally believes that the judgment is in the best interests of the organisation.*
> *The officer's belief that the judgment is in the best interests of the organisation is a rational one unless the belief is one that no reasonable person in his or her position would hold.*
> *Note: This subsection only operates in relation to duties under this section and their equivalents at common law or in equity (including the duty of care that arises under the common law principles governing liability for negligence)—it does not operate in relation to duties under any other provision of this Act or under any other laws.*

    (b) section 715 of the *Industrial Relations Act 2016* (Qld) provides:

> ***715 Duty of reasonable care and diligence***
> *The officer must exercise the degree of care and diligence that a reasonable person in the officer's position would be reasonably expected to exercise.*
> *Maximum penalty—3,091 penalty units or 5 years imprisonment.*

93. The officers of both Entities are required to exercise their powers, discharge their duties, with the degree of care and diligence that a reasonable person would exercise in their position.

94. The following are relevant considerations in determining whether an officer has complied with this duty:

    (a) makes the judgment in good faith for a proper purpose; and

    (b) does not have a material personal interest in the subject matter of the judgment; and

    (c) informs themself about the subject matter of the judgment to the extent they reasonably believe to be appropriate; and

    (d) rationally believes that the judgment is in the best interests of the organisation.

[5] Noting the FFTS members of the CFMEUQ and the Northern Territory members of the QNTDB.

95. We have set out the history of the Fund and the Levy, and all other decisions and matters that were before both the QNTDB Executive and the State Divisional Executive in making the respective decisions to return the Fund to the State Division.

96. These are matters which have been canvassed at numerous meetings between our office and the State Secretary/Divisional Branch Secretary and Governance Officer of the State Division and the QNTDB. We have provided verbal advice at each meeting consistent with the matters we have detailed in this advice.

97. The officers of both Entities have been kept appraised at numerous meetings of the respective governing bodies and have had the opportunity to inform themselves about the subject matter of the decisions made to return the Fund. No officer has identified that they have a material personal interest in the decisions to return the Fund to the State Division.

98. The decisions to return the Fund have been made in good faith for a proper purpose, including *inter alia*:

    (a) to act in the best interests of the Dual Members given that the Morrison Coalition Government is seeking to severely restrict the legitimate rights and freedoms of the QNTDB, just as the Newman LNP Government sought to do to the State Division in Qld;

    (b) to protect the interests of Dual Members into the future and ensure the growth of the Fund; and

    (c) to avoid duplication of services provided to Dual Members including the collection of the Levy and the management of the Fund.

99. There is no reason to suggest that the officers of both Entities do not rationally believe that the decisions to return the Fund are in the best interests of both Entities.

Yours faithfully

Dear Michael

Re: Defence Fund

We refer to our ongoing discussions, and your instructions in respect of the ownership of assets, particularly the asset described as the 'Defence Fund'.

We advise:

1. The Construction, Forestry, Maritime, Mining and Energy Union ('**CFMMEU**') is an organisation registered under the *Fair Work (Registered Organisations) Act 2009* (Cth) ('**FW(RO)A**'). The CFMMEU has four divisions which includes the Construction and General Division. The Queensland Northern Territory Divisional Branch ('**QNTDB**') is a divisional branch of the CFMMEU, Construction and General Division.

2. The Construction, Forestry, Mining & Energy, Industrial Union of Employees, Queensland ('**CFMEUQ**') is an organisation registered under the *Industrial Relations Act 2016* (Qld) ('**Qld Act**'). The CFMEUQ has two divisions, one of which, relevant for present purposes, is the State Construction and General Division ('**State Division**').

3. Members of the:

   (a) CFMMEU, attached to the QNTDB, are eligible to be members of the CFMEUQ, attached to the State Division, except those members of the QNTDB who are resident or who work in the Northern Territory; and

   (b) CFMEUQ, attached to the State Division, are eligible to be members of the CFMMEU, attached to the QNTDB, except those members of the State Division who are eligible for membership under rule A7(Section A)(e) of the Part A Rules ('**FFTS Members**'),

   (together, '**Dual Members**').

4. The officers of the State Division and the QNTDB are the same and the members of the Executive of the State Division and the QNTDB are the same. The officers owe mirrored obligations to the Dual Members under both the FW(RO)A and the Qld Act.[1]

[1] Noting slight differences in obligation.

5. There is presently a fund controlled, and operated, by the QNTDB entitled the Defence Fund ('**Fund**'). The Fund, as at 31 March 2020, equated to **$7,946,203** and each year generates significant income by compulsory levy.

Historical Arrangements

6. The QNTDB and the State Division (together, the '**Entities**') have, historically, operated through the organisation registered under the Qld Act (and its predecessors).

7. The relevant history of the CFMEUQ is as follows:

   (a) in 1998, the Amalgamated Society of Carpenters, Joiners, Bricklayers, Plasterers, Painters and Decorators of Australasia, Union of Employees, Queensland amalgamated with the The Federated Furnishing Trade Society of Australiasia (Q'land) Branch Union of Employees to become the CFMEUQ;

   (b) on 1 May 2013, the CFMEUQ amalgamated with the:

      (i) Queensland Colliery Employees Union of Employees ('**QCEUE**'); and

      (ii) Federated Engine Drivers' and Firemens' Association of Queensland, Union of Employees ('**FEDFAQ**'); and

   (c) the CFMEUQ implemented a divisional structure whereby:

      (i) members of the former CFMEUQ and FEDFAQ (not mining and ports members) were attached to the State Division; and

      (ii) QCEUE and FEDFAQ (mining and ports members) were attached to the Mining, Energy and Ports District of the CFMEUQ; and

   (d) on 1 May 2014, the CFMEUQ amalgamated with the Australian Building Construction Employees Builders' Labourers' Federation (Queensland) Union of Employees ('**BLF**') and those members of the former BLF were attached to the State Division.

8. As a part of the 1998 amalgamation to form the CFMEUQ, the CFMEUQ and the (then) CFMEU, in respect of its FFTS Division, agreed that the CFMEUQ would provide services to the FFTS Members in return for the contributions of the FFTS Members to be paid to the CFMEUQ (rather than the (then) CFMEU, FFTS Division[2]).

9. The relevant history of the QNTDB is as follows:

   (a) prior to 2014, there were two divisional branches of the CFMEU (as it then was), Construction and General Division in Queensland:

      (i) the Queensland Builders Labourers Divisional Branch ('**QBLDB**'); and

      (ii) the Queensland Construction Workers Divisional Branch ('**QCWDB**');

   (b) in 2012, members of the Construction and General Division resident in the Northern Territory were attached to the QCWDB;

   (c) in 2013, the QCWDB changed its name to the QNTDB; and

   (d) in 2014, the two divisional branches merged, with the host divisional branch being the QNTDB.

10. Prior to 2014, the State Division (and its predecessors) collected contributions from members and facilitated the operation of both the State Division and the QNTDB through

[2] Being the federal counterpart.

agreed, but unwritten, administrative arrangements.[3] These arrangements were of longstanding and were designed to recognise the pre-eminence of the state arrangements.

Creation of the Defence Fund

11. We are instructed that the Fund was part of the state registered entity.

12. Historically, meetings of the management committees of then CFMEUQ and the (then) QCWDB were held simultaneously. However, it is well known that the former State Secretary, Mr Wallace Trohear, operated through the CFMEUQ (or its predecessors), including the conduct of meetings and management of assets.

13. At a meeting of the management committee held on 25 and 26 November 2004,

    (a) the management committees received a report from the State Secretary and made the following decisions:

    > *The State Secretary discussed in detail the need for the Membership to have a defence fund to protect themselves not just from the upcoming draconian Industrial Relations Law changes and a hostile federal government, but also the ability to be able to campaign and protect members workers entitlements and conditions. It was agreed that the money left over from the Eagles dispute and any board fees would be allocated to the Defence Fund. It was also agreed that whilst it would apply to certain aspects of the membership in some of the other offsite fixed establishments, that is (Furniture) that it would apply to the rest of the membership in the October dues. Also it was endorsed that this membership defence fund would have no affiliation fees to the Federal office.*
    >
    > (emphasis added)

    (b) the management committees determined to approve the membership subscriptions for 2005, which included a $1.00 contribution towards the Fund commencing in the March to September subscriptions.

14. Together, these decisions of the management committees created the Fund and imposed a levy on members to contribute to the Fund ('**Levy**').

15. For the reasons we set out below, the original resolutions for the raising of the Fund and the imposition of the Levy were decisions of the (then) CFMEUQ:

    (a) the CFMEUQ was the operating entity, with the responsibility for the collection, and expenditure, of monies, and the management and ownership of the assets;

    (b) the QCWDB did not operate a bank account and, consequently, did not have the capacity to collect, or expend monies, nor did it have the capacity to hold the Fund nor receive payment of the Levy;

    (c) there was very lengthy historical practice of reporting the financial position of the CFMEUQ and the QCWDB in the same financial reports for an excess of 20 years, and that the position recorded in the financial reports was that of the CFMEUQ for the reasons we have identified at sub-paragraphs (a) and (b);

    (d) given subscriptions payable by members were paid to the CFMEUQ, and that the Levy was relevantly attached to membership subscriptions, confirms that this was a levy of the CFMEUQ; and

    (e) we consider the following additional matters to be informative:

        (i) that the purpose of the Fund is '*…to protect themselves not just from the upcoming draconian Industrial Relations Law changes and a hostile federal*

[3] Contributions is used as a broad term intended to capture subscriptions, levies, fines etc in which a member is required to pay.

government, but also the ability to be able to campaign and protect members workers entitlements and conditions';

(ii) the 'draconian industrial laws' and 'hostile federal government' was a reference to the Howard Coalition Government and their intention to establish the Australian Building and Construction Commission;

(iii) the Fund was initially funded by:

A left over monies arising from the 'Eagles Dispute'; and

B board fees payable to the union;

(iv) the 'Eagles Dispute' can be summarised as follows:

A in July 2004, Eagles Cranes and Rigging locked out its employees after a breakdown in negotiations for an enterprise bargaining agreement;

B the lockout lasted some 67 days, with significant time and resources of the union being expended;

C the dispute was broken as a result of the AWU and non-union members entering an Enterprise Agreement with the company; and

D the Enterprise Agreement was later challenged in the Australian Industrial Relations Commission;

(v) the board fees were fees due to the officers of CFMEUQ in respect of directorships held by those officers as a result of their officer and were paid to the CFMEUQ;

(vi) it was agreed that the FFTS members would contribute to the Fund and that FFTS members were only members of the CFMEUQ;

(vii) that affiliation fees to the Federal Office would not take account of the Levy, in which we consider the following to be relevant:

A in 2004, Divisional Rule 14(i) provided:

(i) Each Divisional Branch shall forward to the Divisional Office such percentage of the Divisional Branch income as may be apportioned from time to time by the Divisional Executive.

A Divisional Branch that does not remit to the Divisional Office the moneys or part thereof owed by it by the time after such moneys are due and payable so that it becomes an Unfinancial Divisional Branch within the meaning of rule 3, shall in addition to those moneys, also be liable to pay to the Divisional Office interest on the unpaid amount at the percentage rate for 90-day bank bills as at the date that Divisional Branch becomes an Unfinancial Divisional Branch, on and from the said date. Such a Branch will remain an Unfinancial Divisional Branch for all purposes under these Rules until the principal sum and interest thereon specified in this sub-rule are paid to the Divisional Office.

If the Divisional Executive is of a view that the reasons for the non-payment are genuine reasons of incapacity to pay, then such interest shall not be levied.

(emphasis added)

B Divisional Branch income is not defined, however, given the use of the term 'income' it is likely to include all receivable money such as contributions, levies, fines etc.;

C if levies were included as part of 'Divisional Branch income', the management committee of the (then) QCWDB could not set aside rule 14(i) of the Division by resolution; and

D a determination that the Fund would have no affiliation fee to the Federal Office is only consistent with the management committee determining that the Fund was held by the CFMEUQ and, consequently, was not required to pay affiliation fees to the Federal Office from income generated.

(viii) that the respective management committees were not made up of the same officers, as the CFMEUQ had officers employed in the FFTS eligibility who were not attached to the QCWDB;[4] and

(ix) that the participation of Mr S Williams and Mr G Williams in meetings, and also particular resolutions at this meeting, given that FFTS Members were only entitled to vote in meetings of the CFMEUQ is consistent with the Fund being a fund of, and the Levy being a levy of, the CFMEUQ.

16. Consistently, these circumstances accord with the recollection of the events of Mr Michael Ravbar, the then State Assistant Secretary.

Events in 2005

17. In 2005, the procedure for conducting meetings of the management committees had not altered and at a meeting of the respective management committees held on 3 and 4 March 2005, the management committee considered the 2005 budget and determined as follows:

> *The State Secretary, Wallace Trohear reported that the criteria was adopted last year but the final budget income and expenditure was to be presented with the one amendment being the words"Fighting Fund Levy" be replaced with "Membership Defence Fund".*

18. The management committees also considered a report of the State Secretary in respect of the Fund as follows:

> *The State Secretary gave an overview of how the new fund was working and on some of the responses from the members. It was supplemented by the Assistant State Secretary Michael Ravbar, who said that the fund itself is being promoted through various forums, we need to get the message even more out there to the members. While the officials and delegates know about the fund, we need to promote it a lot more and explain that this fund is in for the long term to the entire membership.*

19. We note that neither the determination nor the report takes the history of the Fund any further nor do they alter the arrangements in respect of the Fund.

20. In our view, the Fund remained a fund of the CFMEUQ and the Financial Reports for the (then) CFMEUQ for FYE 31 December 2005 record that:

(a) $274,097 was paid by compulsory levy into the Fund;

(b) $62,958 was paid by voluntary contributions into the Fund; and

(c) a total of $483,686 was paid into the Fund, and we consider it likely that the difference of $146,631 .

Events in 2005 to 2012

21. During the period 2005 to 2012 the Fund grew from $483,686 to $2,383,362 and there was no alteration to the control, or operation, of the Fund.

[4] These members were attached to the FFTS Division of the federal union.

22. In 2012, the procedure for conducting meetings of the management committees had not altered and at a meeting of the respective management committees held on 12 October 2012, the management committees considered the recommended dues for 2013 and determined as follows:

> *…An extra 50 cents per week be paid by T1 members as per proposed union dues 2013 document and allocated to the defence fund…*

23. Consequently, the levy for the Fund increased from $1.00 per Tier 1 member per 6 months to $1.50 per Tier 1 member.

24. As membership subscriptions in 2012 were still paid to the CFMEUQ, the $1.50 for Tier 1 members being part of the subscriptions supports the view that the Levy was a decision of the CFMEUQ and that the Fund remained a fund of the CFMEUQ.

25. In our view, from its creation until 2012 the Fund was a fund of, and the levy was a levy of, the CFMEUQ.

Organisational Change

26. We confirm our view that historically the Fund was a fund of the CFMEUQ. In support of this view, is the fact that the QNTDB (nor its predecessor, the QCWDB) maintained a bank account until 2013.

27. Between 2013 and 2014, the Entities undertook a process of organisational change commencing on 17 May 2013, whereby the QCWDB Executive held a separate meeting to the CFMEUQ and determined to open a bank account in the name of the Divisional Branch.

28. On the same day, the State Divisional Executive:

    (a) noted:

        (i) the potential for significant growth in membership from the Northern Territory;

        (ii) that persons residing in the Northern Territory cannot be members of the State Division;

        (iii) the significant organising opportunities presented by the merger of the QCWDB and the QBLDB; and

        (iv) the then Newman Liberal Government was seeking to restrict legitimate rights and freedoms of the CFMEUQ to campaign for the industrial rights of its members, and that those restrictions did not apply to the QCWDB; and

    (b) determined to make payment of $1,500,000.00 to the QCWDB to ensure its effective functioning and its ongoing representation of dual members.

29. This was, relevantly, the commencement of a 'restructure' in respect of the operation of the State Division and the QNTDB, whereby determinations, structural and administrative arrangements between the State Division and the QNTDB were planned and, in effect, the operational entity became the QNTDB.

Restructure

30. The date of this 'restructure' was 1 July 2013, as recorded in the Financial Reports of the QNTDB for FYE 31 December 2013:

The CFMEU has restructured during the year incorporating a reorganisation of branches and rule changes including membership rule changes.

As a consequence of the restructure, from 1 July 2013 membership and other income and operating expenditure is recorded in the accounts of the CFMEU C&G QNTDB.

, and the Financial Reports confirmed that there was an arrangement between the QNTDB and the CFMEUQ for the administration of the QNTBD's financial affairs which ceased on 1 July 2013:

The Union's financial affairs were administered by the Construction, Forestry, Mining and Energy, Industrial Union of Employees, Queensland.

Under this informal arrangement membership subscriptions were collected and all affiliation fees paid on the Union's behalf with any surplus funds paid to the CFMEUQ as an administrative fee.

This arrangement ceased effective 1 July 2013.

Defence Fund

31. The Financial Reports for FYE 31 December 2013 confirmed:

(a) a transfer of the Defence Fund was made from the then CFMEUQ to the QNTDB and was recorded in the Financial Reports of the:

(i) CFMEUQ:

Transfer Defence Fund retained earnings to CFMEU C&G QNTD	*(1,863,122)*

(ii) QNTDB:

Transfer Defence Fund from CFMEUQ	*1,863,122*

(b) the transfer was recorded in the Financial Reports of the QNTDB as an acquisition of assets/liabilities from an amalgamation/restructure:

Errors – Financial Reporting

32. Following the lodgement of the separate 2013 Financial Reports of the QNTDB and the CFMEUQ, an issue was identified with the Regulator, then the Fair Work Commission, in respect of historical financial reporting.

33. This error related to a very lengthy historical practice of reporting the financial position of the CFMEUQ and the QCWDB in the same financial reports for an excess of 20 years.

34. After significant consultation and exchanges of lengthy correspondence between the QNTDB and the Fair Work Commission, the QNTDB in the Financial Reports for FYE 31 December 2014, recorded the following notes in respect of the errors that occurred:

Note 3: Prior Period Error- Basis of Accounting

Prior to 2013, due to a very lengthy historical practice, the financial results and position of the state union (in respect of income, liabilities and assets) was incorrectly also reported as the financial position of the Queensland Construction Workers Divisional Branch ("QCWDB") (this Divisional Branch later changed its name and became the Queensland and Northern Territory Divisional Branch (''QNTDB")). There were no differences between the financial results and positions included in the two reports.
On a practical level, and as a matter of entrenched historical practice, what occurred was that for the consideration of not recovering a membership fee and treating financial members (otherwise eligible) of the CFMEUQ, who applied for membership and were attached to the QCWDB, as financial members of the QCWDB, the CFMEUQ provided full administrative, servicing, auditing and resourcing capability to the QCWDB.
The QCWDB, until May 2013, did not have income or expenses and did not maintain a bank account separate to that of the CFMEUQ. It is considered that until the establishment of its bank account the QCWDB did not have financial affairs.
This matter is not adequately dealt with in the notes to the 2013 Report of the QNTDB.
In making the assumption that the CFMEUQ and the QCWDB would be treated as the same (entity) for the purposes of financial reporting, the practical outcome was that each financial report was the same and in effect a report reflecting the totality of the affairs of the CFMEUQ and the QCWDB. That is there was only one set of income and expenditure.
…
Importantly, given the practical effect of the financial reporting and that the members of the CFMEUQ and the QCWDB were significantly the same for the period up to and including the financial year ended 31 December 2012, the reports that were historically provided to members appropriately advised the overall financial situation that had impacted on them as a member of the two entities. Consequently the members of the QCWDB have not been placed in a position to their detriment because of the error.

Note 4: Prior Period Error- Membership Fees

(i) The 2012 financial report for the QCWDB did not recognise the "non-Queensland" fees (the fees for members residing in the Northern Territory) This issue was corrected in the financial statements for the year ended 31 December 2013.

(ii) The financial implication of receiving Northern Territory fees appears in the membership subscription line item of the 2013 income statement. The comparative amount from 2012 was appropriately adjusted to include Northern Territory fees.

(iii) The notes to the 2013 financial reports did not explain that the $200,833 of membership subscriptions provided from the CFMEUQ to the QCWDB in 2012 was the amount collected in respect of members in the Northern Territory (and the Forestry, Furnishing, Building Products and Manufacturing Division) that were not eligible for membership of the CFMEUQ.

(emphasis added)

35. Consistent with the matters we have considered above, we made the following submissions on behalf of the QNTDB in relation to the organisational change that had occurred:

…
Comparatives for the 2013 Report - Organisational Change

73. Due to legislation of the Newman Government in Queensland, the state registered CFMEUQ and the reporting unit determined that the then existing administrative arrangements in place between the CFMEUQ and the QCWDB did not allow for adequate industrial and political representation of the Joint Members.

74. The management committees of both the CFMEUQ and the QCWDB considered that the legislation was politically motivated and not directed to the good and transparent governance of industrial organisations, but rather was designed with bias to create unnecessary expense in operating and administering state registered unions[5].

75. It was also considered that the arrangements were not lawful and a High Court challenge on the basis of a breach to the implied freedom of political communication was made to the laws.

76. Relevant aspects of the legislation were, following the challenge, subsequently withdrawn (by the Newman Government).

77. Prior to that withdrawal, and as a consequence of the concerns legitimately held in relation to the Newman Government's legislation, the CFMEUQ and the QCWDB put in place revised administrative arrangements which provided for the:

a) transfer of resources and assets commencing in May 2013; and

[5] See *Industrial Relations (Transparency and Accountability Act) 5s. 5300, 553F and 553FA* .

b) adoption of a greater federal IR/organisational focus.

78. The following considerations were also taken into account by the management committees of the CFMEUQ and the QCWDB in determining to alter the administrative arrangements:

a) the benefit of consistent federal branding - utilising recognition across Australia amongst members and potential members;

b) as members are often mobile in the search for work, there was value in national identity for members moving from interstate;

c) that as the majority of members were federal system employees, it was in the best interests of both organisations for the federal reporting unit to receive additional resourcing to represent members before the Fair Work Commission and Federal Courts;

d) the potential for increased costs due to duplication;

e) uncertainty as to entity for joint members, officials and third parties; and

f) the potential for error arising from the implementation of the then administrative arrangements.

Comparatives for the 2013 Report - Administrative Change

79. Due to the structural and organisational changes detailed above, it was determined that it would be in the best interest of the joint members if the federal reporting unit and the state registered union (joint members) made administrative changes to prevent the duplication of services and reduce complexity.

80. This resulted in a number of items being transferred from the state registered union to the reporting unit including:

a) accrued employee entitlements;

b) ongoing employee expenses;

c) financial administration costs;

d) agents fees;

e) the defence fund;

f) legal fees; and

g) the administration of grant funding.

81. Providing for the administrative services to be performed by the one entity reduces the likelihood of reporting error.

Determinations

36. We are, relevantly, unable to locate any consideration or determination in, or around, July 2013 in respect of the 'restructure' or the transfer of the Fund.

37. The earliest consideration of the 'restructure' was at the respective meetings of the:

(a) State Divisional Executive held on 15 September 2014 ('**2014 Meeting of State Executive**'); and

(b) QNTDB Executive held on 15 September 2014 ('**2014 Meeting of QNTDB Executive**').

Administrative Arrangements and the Levy

38. Resolution 1 of the 2014 Meeting of State Executive provides:

The State Executive notes that:

- *there has for a very long time been arrangements in place between the CFMEU and its predecessors and the CFMEUQ and its predecessors for the sensible administration of the 2 entities so as to maximise membership benefit and avoid unnecessary cost by duplication;*
- *a number of amalgamations and mergers have occurred in Queensland that have had an effect on the way in which the CFMEUQ operates;*
- *the amalgamations that have occurred in the last 2 years have unified the state components of the CFMEU and have been with the:*

(a) CFMBUQ;

(b) FEDFA;
(c) QCEUE; and
(d) BLF;

- *the amalgamations were structured to reflect the arrangements that exist in the CFMEU and utilise a divisional structure (Construction and General/Miners);*

- *a merger occurred in the federal jurisdiction which resulted in the C & G Division representing all members in Queensland not otherwise attached to the Mining Division, with the exception of the FFPD members who are represented on an agency basis by the C & G Division;*

- *different structural arrangements have also been necessary to provide for the representation 0f the Northern Territory members who are also attached to the C & G Division and the Divisional Branch was renamed the Queensland Northern Territory Divisional Branch ("the C&G Divisional Branch");*

- *the State Construction and General Division ("the State Division") of the CFMEUQ has substantially the same membership as the C&G Divisional Branch;*

- *the general position of the C&G Divisional Branch in the last few years, and which takes into account the unification of the state counterparts of the CFMEU, was to create uniformity by emphasising the Federal identity of the CFMEU, not just between the members of the former BLF and Building Workers Division Branches in Queensland, but particularly with the Northern Territory members;*

- *the State Division recognises that the C&G Divisional Branch and the CFMEU consider it both appropriate and desirable that the contributions of Joint Members be administered by Divisional Branches and not state counterparts, as the CFMEU is streamlining its operations around Australia to move to a greater federal focus, more defined identity and to respond to Government and Employer attacks in a more cohesive way;*

- *due to the State Division having significantly the same membership as the C&G Divisional Branch ("Joint Members") with the exceptions of the FFTS/Northern Territory members, administrative practices have been implemented to avoid overlap, inefficiencies and unnecessary cost;*

- *structural/administrative arrangements have also been implemented by the State Division in conjunction with the C&G Divisional Branch due to:*

  (a) the significant growth in the number 0f members of the C&G Divisional Branch in the Northern Territory;
  (b) the significant majority of Joint Members being national system employees;
  (c) the significant majority of members of the former BLF are national system employees;
  (d) the continued decline in the state industrial systems around Australia as the Howard amendments to the industrial relations system has taken hold;
  (e) the attack on workers in Queensland by the Newman Government;
  (f) the unmeritorious attack on Queensland union structures by Bleije/Newman; and
  (g) the stripping of employees from Queensland government services;

- *recognition of these factors and the appropriateness of utilising the CFMEU as the more relevant overarching structure, that can accommodate the needs of the Joint Members into the future, has required the administrative process, inclusive of the:*

  (a) payment of subscriptions and levies;
  (b) employment of staff;
  (c) training of officials;
  (d) engagement of agents/suppliers; and
  (e) purchase of plant and equipment,

  to occur in the C & G Divisional Branch as opposed to using the state union as previously occurred;

- *the State Division has, through its officers, confirmed to the C & G Divisional Branch that the preferred approach of the State Division is to operate in a cohesive way through the C & G Divisional Branch by streamlining to the extent possible the administrative arrangements between the 2 entities, provided that compliance must be effected in relation to the state registered union so that the ability of the state registered union to continue to represent members in the state commission is ensured;*

- *the joint members are only to pay one set of contributions which the C & G Divisional Branch will collect and the rules of the state union will provide that members of the State Division who are financial in the CFMEU and are attached to the C & G Divisional Branch are not required to pay a further fee,*
- *the State Division will also ensure its rules provide for similar structures to the C & G Divisional Branch and that an exemption from election can be obtained by the State Division so that the of ficers who hold corresponding offices will be the same;*

- *the officers of the C & G Divisional Branch have confirmed that a priority of the administrative arrangements will be to ensure the continued existence and ongoing compliance of the state registered entity; and*

- *it is appropriate to formalise the arrangements between the State Division and the C & G Divisional Branch in writing.*

Decision: "The State Executive authorises the State Secretary to prepare a written agreement to provide for the administrative arrangements in place between the State Division and the C&G Divisional Branch, for:

(a) subscription fees to be paid to, and collected by, the C & G Divisional Branch;
(b) levies to be collected by the C & G Divisional Branch;
(c) employees to be engaged by the C & G Divisional Branch;
(d) employees/joint employees to be administered by the C & G Divisional Branch;
(e) agents/suppliers to be engaged by the C & G Divisional Branch;
(f) finances/administration to be conducted by the C & G Divisional Branch; and
(g) membership services to be delivered through the C & G Divisional Branch,

and to liaise with the Divisional Branch Secretary of the C & G Divisional Branch on the terms of the arrangements.

The State Executive authorises the State Secretary, on behalf of the State Division, to enter into written agreements with the C & G Divisional Branch, once the State Secretary is satisfied that the agreement provides for the administrative arrangements currently in place between the Slate Division and the C & G Divisional Branch."

(emphasis added)

39. This resolution recognises that the administrative processes have altered from the historical practice and provides for the administrative arrangements into the future. The State Executive, relevantly, determined that:

    (a) subscription fees to be paid to, and collected by, the C & G Divisional Branch; and

    (b) levies to be collected by the C & G Divisional Branch.

40. Resolution 2, under the heading administrative arrangements, of the 2014 Meeting of the QNTDB Executive ('**Resolution 2**') is in a similar form to Resolution 1 by the State Divisional Executive and provides:

    Preamble

    The C&G Divisional Branch Executive notes:

1. A number of amalgamations unifying the CFMEU state counterpart have occurred in Queensland with the effect that different structural arrangements have been adopted for the operations of the:

(a) CFMEUQ;
(b) FEDFA;
(c) QCEUE; and
(d) BLF.

2. The general position that the C&G Divisional Branch has adopted in the last few years, and which takes into account the unification of the state counterparts, is to create uniformity by maximizing the Federal identity of the CFMEU, not just between the members of the former BLF and Building Workers Division Branches in Queensland, but also with the Northern Territory members.
3. The merger of the Qld Divisional Construction Branches has also occurred in the federal jurisdiction which has meant that different structural arrangements were necessary for the continued operation of the C&G Divisional Branch.

4. The State Construction and General Division ("the State Division") of the CFMEUQ has substantially the same membership as the C&G Divisional Branch ("Joint Members") With some exceptions in relation to the FFTS and Northern Territory members, which has resulted in administrative practices being adopted to avoid overlap and unnecessary cost.

5. Structural and administrative arrangements have also been implemented in recognition of the fact that:
(a) there has been significant growth in the number of members of the C&G Divisional Branch in the Northern Territory;
(b) the significant majority of Joint Members are now national system employees; and
(c) the significant majority of members of the former BLF are national system employees.

6. The C&G Divisional Branch also recognises that the National Division and National Union consider it appropriate that the membership subscriptions of Joint Members be administered by C&G Divisional Branches and not counterpart State Unions, as the CFMEU streamlines its operations around Australia to move to a greater federal focus, and it is appropriate for the C&G Divisional Branch to support the Division and the National Union.

7. Recognition of these factors and the appropriateness of utilising the Federal Union as the more relevant overarching structure, that can accommodate the needs of the Joint Members into the future, requires the administrative process, inclusive of the payment of subscriptions, to be effected in the C&G Divisional Branch as opposed to utilising the State Union as previously occurred.

8. The State Division has, through its officers, confirmed that the preferred approach of the C&G Divisional Branch is also the preferred approach of the State Division.

9. The C&G Divisional Branch Secretary considers it is appropriate to formalise these arrangements in writing with the State Division and the C&G Divisional Branch wishes that he do so.

Decision: "The C&G Divisional Branch Executive authorises the C&G Divisional Branch Secretary to establish agreements that reflect the administrative arrangements in place between the C&G Divisional Branch and the State Division with the:

(a) subscription fees t0 be paid t0 the C&G Divisional Branch;
(b) finances/administration to be conducted by the C&G Divisional Branch;
(c) membership services t0 be delivered through the C&G Divisional Branch,

and to liaise with the State Secretary of the State Division as to the terms of the arrangements.

The C &G Divisional Branch Executive authorises the C&G Divisional Branch Secretary, on behalf of the C&G Divisional Branch, to enter into written agreements with the State Division, once the C&G Divisional Branch Secretary is satisfied that the agreements provide for appropriate administrative arrangements in accordance with the preamble to this resolution between the C&G Divisional Branch and the State Division."

41. Whilst no formalised written arrangements were entered into, the State Division and the QNTDB applied these administrative arrangements.

42. We note that there are differences in the terminology of these resolutions which, given that the administrative arrangements apply in the same manner to both Entities, have an intended meaning.

43. The most significant difference is the absence of a determination in the resolution of the QNTDB, and the use of the words 'collected by' in the resolution of the State Divisional Executive, in respect of levies. This is, in our view, important, as it deals specifically with the Levy for the reasons below.

44. That the QNTDB Executive did not determine that the administrative arrangements apply to the collection of levies, is in our view recognition that:

    (a) the QNTDB had not determined any levies of members at the time; and

    (b) the QNTDB are at any time entitled to determine levies and that those levies are to be paid by members to the QNTDB under the Divisional Rules.

45. However, the State Divisional Executive had determined that levies are payable by its members and that, during the restructure, the levies were continuously paid by members to the QNTDB under those determinations, including the Levy.

46. It was, consequently, necessary to determine that *inter alia* the Levy was to be paid and that it was to be collected by the QNTDB – see the resolution of the State Divisional Executive.

47. Notably, the State Divisional Executive did not use the same terminology as it did with subscriptions, being 'paid to, and collected by,' and that *prima facie* this would have been intentional. The intent, in our view, may have been that, whilst collected by the QNTDB, the QNTDB were not to be paid the Levy, but that the Levy was to be placed in the Fund created by the State Division and transferred to the QNTDB to be managed on its behalf (matters that are dealt with below).

48. This is, in our view, consistent with the approach adopted on, and from, 2013, whereby the QNTDB did not determine a levy of its members to make contributions to the Fund, and that members continued to pay, as part of subscriptions, the Levy which was in turn collected by the QNTDB. This is, however, made more complex by the payment of the Levy by the NT Members, a matter which we go into detail below.

49. The consequence of our view being correct is that all monies paid since 2013 to the QNTDB in relation to the Fund have been paid in accordance with the Levy. This is significant as this is a determination of the State Division and, in our view of the administrative arrangements, the QNTDB were merely collecting the Levy on its behalf.

50. We have considered the balance of the resolutions made at the 2014 Meeting of the State Executive and the 2014 Meeting of the QNTDB Executive and note:

    (a) other than the determinations of the respective Executives in relation to the Fund (dealt with below), there are no other matters considered by the governing bodies that affect the Levy and the Fund;

    (b) that whilst the Preamble to Resolution 1 of the State Divisional Executive uses the word 'collect' in the following context:

        the joint members are only to pay one set of contributions which the C & G Divisional Branch will collect…

, it is consistent with the resolution and does not detract from the view expressed above; and

(c) that whilst the Preamble to Resolution 3 of the State Divisional Executive uses the word 'collect' in the following context:

The previous administrative arrangements in place between the C&G Divisional Branch and the CFMEUQ (as it was) and the State Division, as the case may be, provided that the CFMEUQ/State Division collected the membership subscriptions of Joint Members who were required to only pay a single subscription;

, it is consistent with the proposition of collection in relation to membership subscriptions under Resolution 1 and does not detract from the view expressed above.

Defence Fund Levy

51. As identified above, the transfer of the Fund had occurred in July 2013 and we have been unable to locate a determination of the State Divisional Executive nor the QNTDB Executive in relation to this decision.

52. However, at the 2014 Meeting of the State Executive and the QNTDB Executive, the:

(a) the State Divisional Executive resolved:

The State Executive notes that:

- *the State Division's defence fund has been transferred to the Branch Fund of the C & G Divisional Branch where it has been used for, and is to be used for, the purpose of defending joint members;*
- *the reason for this transfer are that the concerted attacks against members are occurring in relation to joint members who are engaged as national system employees and it is more administratively sensible for the funds to be managed by the C & G Divisional Branch;*
- *the transfer is also consistent with the matters noted in relation to resolution 1; and*
- *the actions of the State Secretary in transferring the funds are endorsed.*

Decision: "The State Executive endorses, and confirms, the decision of the State Secretary to transfer the fighting fund to the C & G Divisional Branch to be used in accordance with the purpose for which it was established."

(b) the QNTDB Executive resolved:

The C&G Divisional Branch Executive notes that:

- *the State Division's defence fund has been transferred to the Branch Fund of the C&G Divisional Branch where it has been used for, and is to be used for the purpose of defending joint members;*
- *the reason for this transfer are that the concerted attacks against members are occurring in relation to joint members who are engaged as national system employees and it is more administratively sensible for the funds to be managed by the C&G Divisional Branch;*
- *the transfer is also consistent with the matters noted in relation to resolution 2;*
- *the C&G Divisional Branch Executive acknowledges the purpose for which the funds were transferred and the purpose for which the fund was established; and*
- *the C&G Divisional Branch Executive acknowledges that the fund will only be used for that purpose.*

Decision: "The C&G Divisional Branch Executive accepts the decision of the State Secretary to transfer the fighting fund to the C&G Divisional Branch and agrees to use the fund in accordance with the purpose for which it was established."

53. Firstly, we recognise that these determinations are endorsing, and confirming, the actions of respectively the State Secretary of the State Division and the Divisional Branch Secretary of the QNTDB in transferring the Fund in 2013. This, relevantly, explains the absence of a determination by the respective Executives at the point of transfer.

54. Secondly, both resolutions confirm that the transfer of the Fund is consistent with the matters noted in the administrative arrangement resolutions addressed above. This is of significance given our view in relation to the mere collection of the Levy by the QNTDB and that this was merely the creation of arrangement for the management of the Fund.

55. Thirdly, and consistently, both the respective governance bodies have confirmed that:

    (a) it is more administratively sensible for the Fund to be managed by the QNTDB; and

    (b) the Fund is to be used for the purpose for which it was established by the State Division.

56. These matters, in our view, indicate an intention for administrative management of the Fund by the QNTDB on behalf of the State Division and that the 'ownership' of the Fund never altered.

57. It was necessary to 'transfer' the Fund to allow for the effective management by the QNTDB, given that it was to collect the Levy and ensure the appropriate investment of the Fund.

58. In our view, transfer, in this context, is a reference to the monies held by the State Division that comprise the Fund and not the transfer of any rights in respect of the Fund. For example, if the QNTDB sought to use the Fund for a purpose outside the '*purpose for which it was established*', the State Division may have had a cause of action to prevent that use.

QNTDB and the Levy

59. In support of the view expressed above, in respect of the collection of the Levy and the management of the Fund, is our instructions that to the best of the State Secretary/QNTDB Divisional Branch Secretary's knowledge the QNTDB has at no time passed a resolution for the raising of the levy, the adoption of the levy and/or creating the Fund.

60. That the QNTDB Executive did not determine such a levy is indicative of the proposition of 'collection' of the State Division's Levy as identified above.

61. Whilst the QNTDB Executive periodically determined the contributions payable by the members, the Levy component remained as the amount determined by the State Divisional Executive on 12 October 2012. This is, in our view, the application of the administrative arrangements by the QNTDB to collect the Levy rather than a determination of a levy of members.

62. On, and from, 1 July 2013, the NT Members commenced making payment of an amount equalling the Levy as part of the contributions paid the QNTDB. This was, however, not in accordance with the determination of the State Division given that the NT Members are not eligible for membership of the State Division.

63. Whilst accounted for by the QNTDB as part of the Fund, in our view and despite the matters raised above, this amount should be treated separately to the Fund and the Levy paid by Dual Members. The QNTDB could not, relevantly, collect the Levy from NT Members on behalf of the State Division and, consequently, the amounts paid are monies of the QTNDB.

64. However, given these monies were purportedly paid in accordance with the Levy into the Fund, the monies may be impressed with a condition that they be used for the same purpose as the Fund on behalf of NT Members.

65. On our instructions, the QNTDB Executive and the State Divisional Executive have been informed of this issue and consider that it is, in these circumstances, appropriate for the QNTDB to retain the monies paid, and those yet to be paid, by the NT Members in accordance with the Levy.

66. As a belts and braces approach, it is appropriate for the QNTDB Executive to endorse:

    (a) the levy payable by NT Members;

    (b) the reason for the payment of the Levy, being the same reason for the creation of the Levy; and

    (c) the creation of the 'defence fund' for NT Members and the purpose of that 'defence fund', being the same purpose as the Fund, however, exclusively for NT Members.

67. We will advice the QNTDB of these matters further under separate correspondence.

Return of the Defence Fund

68. We have at length addressed the history of the Fund and the Levy, and that each matter was determined separately at a meeting of the (then) CFMEUQ Executive and the QCWDB Executive.

69. Although the meetings were held simultaneously, we confirm that:

    (a) the context provides that these decisions were decisions of the (then) CFMEUQ; and

    (b) as the QNTDB did not (and did not have the ability to) incur debts or transact in their own capacity, nor did the QNTDB maintain bank accounts, at any stage until May 2013, it could not have held the Fund nor received payment of the Levy.

70. Consequently, in our view, the starting position for determining the 'ownership' of the Fund, is that the original resolution for the raising of the Defence Fund, and the Levy to be paid to the Fund, were resolutions of the CFMEUQ.

71. We have, subsequently, traced the Fund through to its transfer to the QNTDB. In our view, the following matter are relevant to suggest that this was merely the creation of administrative arrangements in respect of the management of the Fund:

    (a) that the State Divisional Executive determined that the QNTDB will 'collect' levies, being levies determined by the State Divisional Executive (including the Levy);

    (b) that the QNTDB did not determine a separate levy in respect of the Fund and its members, noting:

        (i) that it did determine the yearly contributions payable by Dual Members and NT Members;

        (ii) however, the component of the Levy remained the same amount as determined by the State Divisional Executive on 12 October 2012; and

        (iii) that this appears to be the application of the agreed administrative arrangement for the collection of the Levy; and

72. That on the face of the resolutions there was an intent of both governing bodies for administrative management of the Fund to be conducted by the QNTDB on behalf of the State Division and that the 'ownership' of the Fund never altered.

2019/2020 Review of Administrative Arrangements

73. This arrangement has continuously operated since 2014, and has seen the QNTDB manage the Fund and see it grow substantially as a result of the payment of the Levy by Dual Members.

74. However, as a result of a review of the administrative arrangements between the QNTDB and the State Division, the State Division has subsequently become the operating entity. This has resulted in a significant change in the administrative arrangements, including that contributions are now paid by Dual Members (and NT Members, which are subsequently returned to the QNTDB) to the State Division.

75. We will not detail the full extent of the reason for the substantial change to the administrative arrangements, however, the State Division and the QNTDB have acknowledged:

    (a) that:

        (i) the anti-worker Newman LNP Government was quickly and soundly defeated, its legislation was reversed and the significant risks of operating in the state jurisdiction were removed;

        (ii) the growth of the membership in Northern Territory did not reach the expectation of the (then) QCWDB at the time of its determination in May 2013 and that that growth was dependent to a greater extent than was expected on project work,

    with the consequence that part of the basis for the decisions made by the State Division and the QNTDB did not in fact transpire; and

    (b) that the Morrison Coalition Government is now seeking to severely restrict the legitimate rights and freedoms of the QNTDB, just as the Newman LNP Government sought to do to the State Division in Qld, to act in the best interests of the Dual Members.

Return of the Fund

76. On 17 March 2020, the QNTDB Executive determined to return the Fund to the State Executive ('**March Determination**'):

> *Decision: The Executive of the QNTDB, in relation to the Defence Fund, notes:*
>
> *(a) it has considered the resolution of the State Division of 15 September 2014, which was in the following terms:*
>
> *The State Executive endorses, and confirms, the decision of the State Secretary to transfer the fighting fund to the C & G Divisional Branch to be used in accordance with the purpose for which it was established.*
>
> ***Resolution 5 – Defence Fund***
>
> *('**Resolution**');*
>
> *(b) its understanding that the fighting fund was a reference to the Defence Fund which was at that time an amount of $1,863,122 ('**Monies**');*

(c) that in accordance with the Resolution the Monies were received into the Divisional Branch fund of the QCWDB;

(d) that the Defence Fund has, since the transfer of the Monies, continued to grow due to:
- *investment of the Monies;*
- *interest payments on the Monies; and*
- *further receipt of levy payments into the Defence Fund;*

(e) neither the QCWDB nor the QNTDB have resolved to levy the members of the QNTDB for the purposes of the Defence Fund;

(f) that the levies received by the QCWDB/QNTDB in relation to the Defence Fund since 2014 are in accordance with the resolution of the State Division (formally the CFMEUQ) of 2004, and have been received in accordance with the State Divisions resolutions of 15 September 2014:

> *The State Executive authorises the State Secretary to prepare a written agreement to provide for the administrative agreements in place between the State Division and the C&G Divisional Branch, for:*
>
> *subscription fees to be paid to, and collected by, the C & G Divisional Branch;*
> *levies to be collected by the C & G Divisional Branch;*
> *employees to be engaged by the C & G Divisional Branch;*
> *employees/joint employees to be administered by the C & G Divisional Branch;*
> *agents/suppliers to be engaged by the C & G Divisional Branch;*
> *finances/administration to be conducted by the C & G Divisional Branch; and*
> *membership services to be delivered through the C & G Divisional Branch,*
>
> *and to liaise with the Divisional Branch Secretary of the C & G Divisional Branch on the terms of the arrangements.*
>
> *The State Executive authorizes the State Secretary, on behalf of the State Division, to enter into written agreements with the C & G Divisional Branch, once the State Secretary is satisfied that the agreement provides for the administrative arrangements currently in place between the State Division and the C & G Divisional Branch.*

, and that consequently those monies have been collected by the QCWDB/QNTDB and paid into the Defence Fund on behalf of the State Division;

(g) that the Defence Fund has continued to be held for the purpose for which it was raised in 2004;

(h) that no monies have to date been expended from the Defence Fund;

(i) the resolutions of the QNTDB Executive of 12 November 2019 and the reasons, to ensure the protection of the joint members of the QNTDB/State Division, for the reallocation/change in administrative arrangements and other arrangements as between the QNTDB and the State Division; and

(j) that levy has been collected also on behalf of the Northern Territory members of the QNTDB.

The Executive of the QNTDB determines:

1. *That the Defence Fund, as transferred to the QNTDB by the State Division together with any accretions by way of interest or investment to the Defence Fund, be transferred back to the CFMEUQ for, and on behalf of the State Division, to be used in accordance with the purpose for which the Defence Fund was established.*

2. *That, subject to resolutions 3 and 4, as the QNTDB has collected the Defence Fund levy on behalf of the State Division those monies collected, together with any accretions, by way of interest, investment or otherwise, be returned to the CFMEUQ on behalf of the State Division.*

> 3. *That, subject to resolution 4, in the event that the right to collect the Defence Fund levy was a right of the QNTDB on its own behalf, and not as an agent for the State Division, then those monies collected, together with any accretions, by way of interest, investment or otherwise, be transferred to the CFMEUQ, for and on behalf of the State Division, to be consolidated with the Defence Fund and used in accordance with the purpose for which the Defence Fund was established.*
>
> 4. *That the QNTDB will retain for the purposes of establishing a defence fund for its members in the NT, any monies that have been received from members of the NT and which have been paid into the Defence Fund.*

77. The March Determination was not time sensitive, and the Fund was not transferred at that time.

78. For the reasons we have set out above, the QNTDB has collected the Levy and managed the Fund on behalf of the State Division during its possession of the Fund. In our view, the March Determination amounts to the mere return of the Fund to the State Division, being the creator of the Fund and the Levy.

79. If we are mistaken in this view, and the transfer amounted to the disposition of the Fund and the relinquishment of ownership rights of the monies that make up the Fund, we do not consider this to be fatal. That is, it is possible that the transfer of the Fund to form part of the new administrative arrangements, for the same reasons that the Fund was able to transferred by the State Division to the QNTDB as a part of the administrative arrangements between the Entities.

80. However, our view is the preferred view and that this amounts to a 'return' of the Fund to the State Division. The QNTDB will cease to manage the Fund and will cease to collect the Levy on behalf of the State Division.

81. We confirm, consistent with the view expressed above, that those monies paid by NT Members in respect of the Levy should remain with the QNTDB 'defence fund' to be used for the purpose in which the Fund was created for NT Members only.

82. On 6 August 2020, the State Division determined *inter alia* to accept the return of the Fund and retake the burden of administration of the Fund. This includes the collection of the Levy.

83. The State Division also determined to seek an amendment to the Service Agreement with the QNTDB to provide for the use of the Fund into the future, and we commend that decision. The State Division and the QNTDB, which both have managed the Fund for significant periods, will be able to agree to an amendment to the Service Agreement to:

    (a) ensure the growth of the Fund is appropriately provided for; and

    (b) facilitate administrative arrangements between the QNTDB and the State Division in respect of the Fund,

    for the protection of the interests of the Dual Members.

84. We would also commend an amendment to the Service Agreement to provide for the 'defence fund' of the QNTDB for NT Members.

Investment of the Fund

85. As an aside, we confirm that the State Division has determined to invest the Fund in property to provide for the growth of the Fund and ensure the protection of the interests of the Dual Members into the future. The QNTDB has endorsed the strategy of the State

Division, and recognises that the State Division are investing in a way that provides prudential assurance.

86. We do not need to consider the decision of the State Divisional Executive, other than to confirm that the decision is a valid decision, in either the circumstance that the March Determination:

(a) amounts to the return of the Fund to the State Division, being the entity which always maintained 'ownership' of the Fund; or

(b) was, consistent with the determinations made at the 2014 State Executive Meeting and the 2014 QNTDB Executive Meeting, the creation of administrative arrangements for the management of the Fund and the collection of the Levy.

Duties of Officers

87. The officers are aware of the duties owed by them at law and under statute, as officers of both the QNTDB and the State Division, and that the duties are owed to the members of respectively the QNTDB and the State Division who are substantially the same cohort of members.[6]

88. For ease of reference, we set out the following obligations on the officers of the QNTDB and the State Division:

(a) section 285 of the *Fair Work (Registered Organisations) Act 2009* (Cth) ('**FW(RO)A**') provides:

> ***285 Care and diligence—civil obligation only***
> *(1) An officer of an organisation or a branch must exercise his or her powers and discharge his or her duties with the degree of care and diligence that a reasonable person would exercise if he or she:*
> *(a) were an officer of an organisation or a branch in the organisation's circumstances; and*
> *(b) occupied the office held by, and had the same responsibilities within the organisation or a branch as, the officer.*
> *Civil penalty: 100 penalty units, or 1,200 penalty units for a serious contravention.*
> *(2) An officer of an organisation or a branch who makes a judgment to take or not take action in respect of a matter relevant to the operations of the organisation or branch is taken to meet the requirements of subsection (1), and their equivalent duties at common law and in equity, in respect of the judgment if he or she:*
> *(a) makes the judgment in good faith for a proper purpose; and*
> *(b) does not have a material personal interest in the subject matter of the judgment; and*
> *(c) informs himself or herself about the subject matter of the judgment to the extent he or she reasonably believes to be appropriate; and*
> *(d) rationally believes that the judgment is in the best interests of the organisation.*
> *The officer's belief that the judgment is in the best interests of the organisation is a rational one unless the belief is one that no reasonable person in his or her position would hold.*
> *Note: This subsection only operates in relation to duties under this section and their equivalents at common law or in equity (including the duty of care that arises under the common law principles governing liability for negligence)—it does not operate in relation to duties under any other provision of this Act or under any other laws.*

(b) section 715 of the *Industrial Relations Act 2016* (Qld) provides:

> ***715 Duty of reasonable care and diligence***
> *The officer must exercise the degree of care and diligence that a reasonable person in the officer's position would be reasonably expected to exercise.*
> *Maximum penalty—3,091 penalty units or 5 years imprisonment.*

[6] Noting the FFTS members of the CFMEUQ and the Northern Territory members of the QNTDB.

89. The officers of both Entities are required to exercise their powers, discharge their duties, with the degree of care and diligence that a reasonable person would exercise in their position.

90. The following are relevant considerations in determining whether an officer has complied with this duty:

    (a) makes the judgment in good faith for a proper purpose; and

    (b) does not have a material personal interest in the subject matter of the judgment; and

    (c) informs themself about the subject matter of the judgment to the extent they reasonably believe to be appropriate; and

    (d) rationally believes that the judgment is in the best interests of the organisation.

91. We have set out the history of the Fund and the Levy, and all other decisions and matters that were before both the QNTDB Executive and the State Divisional Executive in making the respective decisions to return the Fund to the State Division.

92. These are matters which have been canvassed at numerous meetings between our office and the State Secretary/Divisional Branch Secretary and Governance Officer of the State Division and the QNTDB. We have provided verbal advice at each meeting consistent with the matters we have detailed in this advice.

93. The officers of both Entities have been kept appraised at numerous meetings of the respective governing bodies and have had the opportunity to inform themselves about the subject matter of the decisions made to return the Fund. No officer has identified that they have a material personal interest in the decisions to return the Fund to the State Division.

94. The decisions to return the Fund have been made in good faith for a proper purpose, including *inter alia*:

    (a) to act in the best interests of the Dual Members given that the Morrison Coalition Government is seeking to severely restrict the legitimate rights and freedoms of the QNTDB, just as the Newman LNP Government sought to do to the State Division in Qld;

    (b) to protect the interests of Dual Members into the future and ensure the growth of the Fund; and

    (c) to avoid duplication of services provided to Dual Members including the collection of the Levy and the management of the Fund.

95. There is no reason to suggest that the officers of both Entities do not rationally believe that the decisions to return the Fund are in the best interests of both Entities.

Yours faithfully

Dear Michael

Re: Defence Fund

We refer to our ongoing discussions, and your instructions in respect of the ownership of assets, particularly the asset described as the 'Defence Fund' ('**Fund**') and **enclose**:

- minutes of the QNTDB Executive of 12 November 2019 ('**Schedule A**'); and
- minutes of the QNTDB Executive of 17 March 2020 ('**Schedule B**').

We confirm that we have prepared a draft advice in relation to the:

- creation of the Fund and the Defence Fund Levy ('**Levy**'); and
- decisions of respectively the Queensland Northern Territory Divisional Branch ('**QNTDB**') and the State Construction and General Division ('**State Division**') to return the Fund, and the monies collected in accordance with the Levy, to the State Division.

That advice is still being settled in relation to its text and, in the interim, we provide the following executive summary:

1. In 2004, the (then) Construction, Forestry, Mining & Energy, Industrial Union of Employees, Queensland ('**CFMEUQ**')[1] determined to create the Fund and resolved that members were required to make payment of the Levy.
2. This was a decision of the CFMEUQ as opposed to the Queensland Construction Workers Divisional Branch ('**QCWDB**'), for, inter alia, the following reasons:
   (a) the historical operation of the 'union' in Queensland as a state union;
   (b) fees were set, and collected, by the CFMEUQ;
   (c) that the QCWDB did not maintain a bank account nor have any financial affairs and, consequently, could not hold the Fund nor collect the Levy from members; and
   (d) the FFTS Members[2] have always made payment of the Levy.

[1] As it then was.
[2] Being those members of the State Division who are eligible for membership under rule A7(Section A)(e) of the Part A Rules.

Individual liability limited by a scheme approved under professional standards legislation (personal injury work exempted). | JWP:4191739:4939014

3. All payments by members of the Levy were paid to the CFMEUQ until July 2013.[3]

4. On, and from, 1 July 2013, a 'restructure' occurred whereby the QNTDB opened a bank account, became the operating entity and began collecting the Levy from Dual Members[4], FFTS Members and the NT Members[5].

5. On 1 July 2013, the State Division transferred those monies held in the Fund to the QNTDB.

6. On 15 September 2014, the management committees of both the State Division and the QNTDB determined to implement administrative arrangements between the two entities to avoid overlap, inefficiencies and unnecessary cost.

7. The first relevant administrative arrangement implemented was a decision of the State Divisional Executive that the Levy was to be collected by the QNTDB, not that it was to be paid to the QNTDB, but rather remained part of the fund of the State Division.

8. Consistently, the QNTDB did not determine a levy of its own for contributions to the Defence Fund by Dual Members, albeit that the QNTDB has (and again consistently) implemented a levy of NT Members, and that the monies, collected in accordance with that levy, remain part of the Divisional Branch fund of the QNTDB.

9. The second relevant administrative arrangement implemented was a determination of the respective management committees in relation to the 'transfer' of the Fund. It is respectably arguable that this determination was the creation of an arrangement for management of the Fund by the QNTDB, rather than a transfer of ownership of the monies that comprised the Fund. This argument cannot, however, be unequivocally put.

10. In any event, if the 'transfer' was intended as a disposition of the rights over the monies that comprised the Fund by the State Division, the transfer was appropriate in the circumstances that applied, which circumstances the respective management committees considered in making that decision.

11. In these circumstances, the Fund comprises:

    (a) the monies paid by the NT Members, which are to remain with the QNTDB;

    (b) the monies transferred by the State Division in 2013 (which may or may not be monies of the State Division); and

    (c) the monies paid by Dual Members and FFTS Members in accordance with the Levy and collected by the QNTDB since 1 July 2013.

12. It is not possible to trace the current amount of those monies identified in paragraph 11(b) and (c) due to the intermixing of those monies with the balance of the Fund and accretions, by way of interest, investment or otherwise, to those monies.

13. The QNTDB and the State Division have now agreed that those monies identified in paragraph 11(b) and (c) are to be returned to the State Division. The reasons for that occurring appear prudentially sound – see relevantly Schedule A and Schedule B.

14. Whilst it is arguable that the first 'transfer' was merely the creation of an arrangement for the management of the Fund, that could be cancelled and the Fund returned, it is not necessary to reach a final conclusion on that proposition, given that if the Fund was able to be transferred for appropriate reasons as part of the administrative arrangements in

[3] Including payments made by T1 members in accordance with the increased Levy determined by the CFMEUQ on 12 October 2012.
[4] Being those members eligible for membership of the CFMMEU and the CFMEUQ.
[5] Being those members of the QNTDB resident or working in the Northern Territory.

2013/14, it is now able to be transferred back if there are sound prudential reasons for doing so, which there appear to be.

15. The QNTDB will now transfer the Fund to the State Division for the reasons set out at Schedule A and Schedule B.

16. The officers of both entities have been kept appraised of the issues and have had the opportunity to inform themselves about the subject matter of the determinations made to return the Fund, prior to making the determinations.

17. No officer has identified that they have a material personal interest in the determinations to return the Fund to the State Division and there is no reason to suggest that the officers do not rationally believe that the determinations to return the Fund are in the best interests of both entities.

18. Consequently, for all these reasons we consider that the officers of respectively the State Division and the QNTDB have complied with the obligation to exercise their powers, and discharge their office, with the degree of care and diligence required by the *Industrial Relations Act 2016* (Qld) and the *Fair Work (Registered Organisations) Act 2009* (Cth).

19. We commend to you that arrangements be made for the return of the Fund in accordance with the determinations of the QNTDB and the State Division.

We will provide the more extensive advice when it is at hand.

Yours faithfully

File note: **Meeting – CFMEU & Hall Payne Lawyers**

Attendees: **Michael Ravbar, Jacqui Collie (CFMEU), John Payne and Dale (Hall Payne)**

Preparer: **SL 20/1/20**

Main points from discussion:

- In light of the governments' recent attempt to pass a new bill (Fair Work (RO) Amendments (Ensuring Integrity) Bill 2019) – which would be applicable to QNTDB (the Federal entity), the governing Committee of the CFMEU have elected to explore the possibilities of transferring assets and other functions currently reflected in QNTDB (federal entity) back to the CFMEUQ (state based entity).
- This would encompass moving the membership fees from QNTDB to CFMEUQ, payroll and leave balances, grant apprentice schemes, etc.
- The 'effective date' of the above is not yet confirmed, but it is likely that some of these items will be moved prior to balance date (31 March 2020).
- Hall Payne have been engaged to confirm the legal ability for the above changes to be made, noting that there is a service agreement in place between QNTDB and CFMEUQ.
- Separately, the Defence Fund was discussed, which is a sizeable reserve (approx. $6m+) currently recorded in QNTDB. John Payne indicated that Hall Payne are currently preparing advice to the Committee that the Defence Fund should have been recorded in CFMEUQ (not QNTDB).
- The advice is in progress, with some final enquiries to be made, but may not be finalized prior to 31 March 2020.
- SL discussed that it will need to be determined whether, if the advice concludes that the Defence Fund should be reflected in CFMEUQ, this constitutes a prior period error – and any adjustment / transfer necessary would impact both entities and would need sufficient disclosure in the reports due to the material nature of the balance. PKF will maintain a dialogue with Hall Payne in relation to this advice – if the advice is rendered after 31/3 (but before signing), it is likely that the adjustment will be an 'adjusting subsequent event' and therefore, still require amendment in the 31/3/20 financial statements.
- PKF will maintain dialogue with Hemal re: accounting treatment for any changes made in relation to the above.

MULTIPLEX AUSTRALASIA PTY LTD AND CFMEU QUEENSLAND ENTERPRISE AGREEMENT 2018-2019

Building, metal and civil construction industries

COMMISSIONER HUNT BRISBANE, 24 JANUARY 2019

Application for approval of the Multiplex Australasia Pty Ltd and CFMEU Queensland Enterprise Agreement 2018-2019

[1] Multiplex Australasia Pty Ltd has applied for approval of an enterprise agreement known as the *Multiplex Australasia Pty Ltd and CFMEU Queensland Enterprise Agreement 2018-2019* (the Agreement). The application was made pursuant to s.185 of the *Fair Work Act 2009* (the Act). The Agreement is a single-enterprise agreement.

[2] The Construction, Forestry, Maritime, Mining and Energy Union (CFMMEU), being a bargaining representative for the Agreement, has given notice under s.183 of the Act that it wants the Agreement to cover it. In accordance with s.201(2) and based on the statutory declaration provided by the organisation, I note that the Agreement covers the CFMMEU.

[3] Clause 2.1 of the Agreement states, "*This Agreement has a nominal expiry date of 1 January 2019. The Agreement will continue to apply beyond its nominal expiry date unless it is terminated or is replaced by another enterprise agreement.*" Consequently, an issue arises that if I approve the Agreement, then the Agreement will have already passed its nominal expiry date at the time that the Agreement comes into operation.

[4] Section 186 of the Act sets out matters that, if met, require that the Fair Work Commission (the Commission) must approve an agreement. Section 186(5) of the Act states:

> *Requirement for a nominal expiry date etc.*
>
> (5) The FWC must be satisfied that:
>
> (a) the agreement specifies a date as its nominal expiry date; and
> (b) the date will not be more than 4 years after the day on which the FWC approves the agreement.

COM.0002.0009.8336

[5] The same issue was considered by Deputy President Gostencnik in *Veolia Environmental Services (Australia) Pty Ltd*.[1] In that matter, an agreement had been made on 8 April 2015, with a nominal expiry date of 23 May 2015. Due to an application to vary a predecessor agreement that was brought and then discontinued, the application to approve the agreement could not be considered until after the nominal expiry date had already passed. It was determined on 9 July 2015, with the Deputy President identifying that there could be two constructions of s.186(5)(b) of the Act.

[6] The Deputy President said the following about s.186(5)(b) of the Act:[2]

> "[12] It seems to me there are two possible constructions of this provision. The first is that an agreement must have a date as its nominal expiry date, being any date, provided that date is no more than four years after the day on which the Commission approves the agreement. This will allow a nominal expiry date to be a date before the Commission approves the agreement or before the agreement commences to operate.
>
> [13] The second construction is that there are two elements to the nominal expiry date requirement. First, the date must be after the date on which the Commission approves the agreement. Secondly, that date cannot be more than four years after the date of approval. On this construction an agreement may have a nominal expiry date that is before the date on which the agreement commences to operate so long as it is after the agreement is approved. This is because an agreement does not commence to operate any earlier than 7 days after it is approved.
>
> [14] The first construction appears to be consistent with ordinary grammatical meaning of the language in section 186 (5) of the Act, although it is odd that it would be permissible for an agreement to nominally expire, in effect, before the Commission has approved it and before it has commenced to operate. The second construction requires reading the word "after" in paragraph 186 (5)(b) as affecting both the outer limit of the nominal expiry date and the period within which that date may be set, namely between the date of approval and four years later. Moreover, the second construction raises the prospect that where parties agree that an agreement will have a short nominal life (as is the case here) that a delay in approval will result in that date having passed before approval is given.
>
> [15] Ultimately, I have concluded that it is appropriate to apply the ordinary grammatical meaning with the result that the Agreement may specify a nominal expiry date, which is a date before the Agreement is approved and before it commences to operate. There does not seem to be anything in the provisions of Part 2-4 of the Act, in the objects of that Part or in the object of the Act, which would suggest a departure from the ordinary grammatical meaning. The Agreement once approved will continue to operate until it is replaced by another agreement or terminated in accordance with the provisions of Part 2-4."

[7] I concur with the Deputy President's above reasoning, allowing an agreement to be approved, even if the nominal expiry date of the agreement pre-dates the date of the approval. In my view, so long as the nominal expiry date is a date later than the day the agreement is made between an employer and employees, it matters not if the Commission approves an agreement on a date later than the nominal expiry date.

0985

COM.0002.0009.8336_0002

[8] Quite simply, the nominal expiry date of the Agreement the subject of this application, that being 1 January 2019, is not more than 4 years after the day the Commission approves the Agreement, that being 24 January 2019. It is a very odd scenario that the Agreement will operate, but will never have been an in-term agreement, and will only ever operate as a nominally expired agreement. I am satisfied, however, that s.186(5)(b) of the Act has been met.

[9] In light of the above and taking into consideration the material filed in the Commission, I am satisfied that each of the requirements of ss.186, 187, 188 and 190 as are relevant to this application for approval have been met.

[10] The Agreement is approved and, in accordance with s.54 of the Act, will operate from 31 January 2019. The nominal expiry date of the Agreement is 1 January 2019.

26 rostered days are scheduled to be taken off by an Employee for every 12 months' continuous service in accordance with the dates set out in the calendar indicative of scheduled RDO contained in APPENDIX THREE. The purpose of this calendar is to ensure workers and site management manage their fatigue levels, thereby encouraging safer and more productive projects.

For clarity, nothing in this clause or the calendar is intended to impose a limit on the ability of the Employer to determine with the majority of its affected Employees when and where work can be performed to meet operational requirements or otherwise limit the Employer's right to manage its business.

31.1 Payment for RDOs will include an entitlement to the daily fares and travel allowance.

The Employer is committed to providing as much notice as is reasonably practicable for a requirement to work. Wherever possible, the process outlined above will occur at least 7 calendar days prior to the RDO in question.

31.6 An Employee may refuse to work a RDO in circumstances where the working of such a RDO would result in the Employee working hours which are unreasonable having regard to matters including:

(a) any risk to Employee health and safety including the risk of fatigue i.e. excessive hours, exposure to noise, fumes, or any matter that can impair an Employee's ability to work safely and/or create a danger to Employees;

(b) the Employee's personal circumstances including any family responsibilities;

Impairment Policy

COM.0002.0009.8336_0054

APPENDIX FOUR – IMPAIRMENT POLICY

1.0 PRINCIPLES

The health, wellbeing and safety of employees are of paramount importance to the employer, employees and their Unions. This policy is part of a broad work, health and safety (WHS) program to secure the highest level of health and safety in the workplace.

The policy adopts a WHS approach that involves identifying, assessing and controlling all workplace hazards, using the hierarchy of control, and then reviewing these controls to ensure ongoing improvements.

The focus of this policy is on the WHS risks associated with impairment and should be read in conjunction with other company policies concerning health and safety, particularly in relation to fatigue management, risk management and safe systems of work.

This policy has been compiled in a manner that is non-punitive and supportive of employees. This policy shall not be used in a discriminatory manner. Anti-Discrimination Law protects against discrimination on the basis of addiction and may also protect against discrimination on the basis of impairments caused by drug and alcohol addiction or use.

The policy and procedures adopt a peer based intervention approach based on fairness and equity for all employees.

2.0 SCOPE

This policy will apply to all employees (including managers and supervisors), contractors and labour hire staff. The policy applies to these groups at all times when they are engaged in company business, whether on or off site and when driving company vehicles.

3.0 STRUCTURE

The Impairment Policy is categorised in order with the intended implementation:

3.1 Training & Awareness

Extensive research has shown training and awareness of impairment related issues provides the most effective means of behavioural change and encourages better decision making. The two types of training in accordance with this policy to do this are:

- Workplace Impairment Training (WIT) - all workers onsite will do this training.
- Preliminary Impairment Assessment (PIA) - HSR's, delegates and the PC's safety staff will undertake this training.

3.2 Testing

Testing for drugs and alcohol is used to support and measure the results of the education and awareness program.

3.3 Support Services

- rehabilitation, counselling and EAP's. Support is strictly non- punitive, and can be accessed at anytime (self-identification of the need for help is strongly encouraged).

4.0 OBJECTIVES

The objectives of this policy are as follows:

- To provide a safe and healthy working environment for all workers.
- To work collaboratively in the implementation and co-ordination of this policy with employees, employers and their elected representatives to achieve the objectives of this policy.
- To eliminate and control risks which may lead to impairment affecting health and safety in the workplace.
- To ensure that there is a mechanism for managing impairment at work that is transparent, objective and in accordance with the purpose of this policy.

- To ensure that all persons are provided with adequate information and education on the health and safety issues surrounding impairment, and on the operation of this policy.
- To ensure that employees have access to rehabilitation, support and counselling of their choice on a voluntary basis that is independent, professional and confidential, without jeopardising their employment.
- To ensure confidentiality of information concerning the application of this policy to a worker is maintained.

5.0 RESPONSIBILITIES

The employer shall:

- Provide a work environment that is safe and without risks to healthand safety.
- Provide information about the testing requirements to all existing employees, contractors and labour hire staff and to all new staff at the point of induction.
- Ensure that this policy is implemented fairly and equitably across all sections of the workforce.
- Comply with the four policy implementation steps outlined below.
- Have adequate resources (e.g., a room that allows for confidential impairment assessments to be discussed, if necessary, suitable transport to safely remove impaired employees from the workplace to be able to meet the objectives of this policy.

Employees shall:

- Co-operate reasonably with the employer in the implementation of thispolicy.
- If any employee reasonably believes that any person on the site may be a health and safety risk to themselves or others they should inform their employer and a Preliminary Impairment Assessor (PIA) of this belief.
- Not possess, consume, or be under the influence of, alcohol or other drugs while working.
- Ensure that they do not work, if they believe that they may beimpaired.
- Consult their doctor or pharmacist about possible side effects of using prescribed or over-the-counter medication.
- Inform their employer a Preliminary Impairment Assessor (PIA); and if they have been made aware by their treating doctor or pharmacist of possible impairment as a side effect of medication, or if they feel impaired by medication.

6.0 POLICY IMPLEMENTATION WILL INVOLVE THE FOLLOWINGSTEPS.

1. PC/Employer and Union shall agree on a policy start date.
2. Engagement of an agreed training and rehabilitation/treatment service providers.
3. Provision of on-going Workplace Impairment Training (WIT) and Preliminary Impairment Assessors training (PIA).
4. Ongoing promotion of this policy.

A purpose of the policy and procedure is to provide protocols and procedures for workplace alcohol and other drug testing that are evidence-based, consistent with best practice, comply with relevant Australian Standards, and contribute to workplace safety and worker wellbeing.

The following drug and alcohol testing programs will be adopted:

- Self-testing
- Random Shift testing
- For-cause testing
- Post-incident testing
- Reasonable concern testing
- Testing of Minors

Any employee who is assessed as being impaired shall be advised to contact the rehabilitation/treatment provider.

The employee will be permitted to access personal leave in the first instance and then take accrued personal leave entitlements for the period of time they are accessing the treatment provider.

With the endorsement/acceptance of the Impairment Policy the Principle Contractor (PC) will undertake to not pass the implementation and cost of drug and alcohol testing to its subcontractors.

It will also ensure compliance with this policy as follows:

- Subcontractors will be contractually required to comply with this procedure as a condition of subcontract..
- All direct employees of the PC as a condition of their employment must agree to adhere to the terms and conditions of the impairment policy.

- Overview of what a PIA is
- What are possible impairment factors
- Causes and symptoms of impairment
- Investigative skills

Training is not to be conducted in a lunchroom, unless there are multiple lunchrooms on site and:

1. the training session will not interfere with workers wanting to use the room for smoko or lunch; or
2. the training session will not be interfered with by workers wanting to use the room in general

9.0 TESTING METHODS

9.1 Alcohol Testing Method-

- Alcohol testing must only be done by use of an Accredited Breath Test device. The device must be calibrated and meet the minimum requirements of AS3547.

9.2 Drug Testing Method-

- Drug testing may only be performed by oral fluid testing
- The equipment used to perform the test shall be used, tested and calibrated to the manufacturer's instructions and certified to AS 4760 (Process for specimen collection and the detection and quantitation of drug in oral fluid)
- The drug testing shall be conducted by an accredited person, following all of the chain of custody provisions.
- The test must be performed in accordance with AS 4760 (Procedures for specimen collection and the detection and quantitation of drugs in oral fluid).

9.3 Substances Tested

As part of this policy with regards to Drug and Alcohol testing the following substances must be tested for:

3. Alcohol;
4. Opiates;
5. THC;
6. Cocaine;
7. Benzodiazepines;
8. Amphetamine; and
9. Methamphetamine

Where applicable the above testing methods must be used for the purpose of section 12.1 of this policy.

10.0 TESTING PROVIDER

- Must be NATA Accredited
- Must have accreditation AS4760:2006 Procedures for specimen collection and the detection and quantitation of drug abuse in oral fluid
- Must be agreed upon by the PC/Employer and the Union

Minimum standards that the testing company must meet are as follows:

- competent and trained staff
- appropriate equipment and instruments
- proper management and storage of test kits and reagents
- secure and controlled storage and management of samples
- comprehensive record keeping; and
- clear and precise reporting

Before the Authorised Testing Agent is engaged to be the sample collector for the principle contractor all relevant stakeholders must be engaged to make sure there is no conflict of interest and that they are totally independent. If a conflict of interest exists, or should arise, the Authorised Testing Agent must report it immediately.

11.0 ROOM REQUIREMENTS

Each workplace shall have a room nominated for use to undertake drug and alcohol testing consistent with this procedure. This room will not normally be the first aid room at a workplace unless a workplace has multiple first aid rooms and the use of a first aid room for the purpose of drug and alcohol testing will not affect the ability of the workplace to respond to a first aid incident.

The room selected for use must so far as reasonably practicable:

- Provide privacy for the Worker being tested including but not limited to:
  - Have a closing door
  - Not allow for casual visual observation of the testing process by other Workers external to the room e.g. through glass windows.
  - Not allow conversations to be casually overheard by other workers.
- Be clean and hygienic
- Be free from interruption whilst testing is beingundertaken
- Include discrete entry and exit

12.0 TESTING REQUIREMENTS -

12.1 Code compliant workplaces -

On workplaces where the value of the Commonwealth's contribution to the project that includes the building work is at least $5,000,000, and represents at least 50% of the total construction project value or the Commonwealth's contribution to the project that includes the building work is at least $10,000,000 (irrespective of its proportion of the total construction project value) the following minimum testing requirements must be adhered to.

12.2 Alcohol -

On the day of testing all workers onsite shall be required to submit a breath sample i.e. blanket testing.

12.3 Drugs -

Frequent and periodic testing (at least once per month) of the workforce (both construction workers and site office workers) as follows:

1. where there are less than 30 Workers at a workplace – at least 10% of the workforce;
2. where there are 30 to 100 Workers at a workplace – a minimum of 5 Workers; and

3. where there are greater than 100 Workers at a workplace – a minimum of 10 Workers.

The number of workers selected shall be increased in line with the escalation below where test results meet the criteria indicated:

Number of Workers	Criteria	Action
Less than 30 Workers at a workplace	Confirmed Positive results in 2 consecutive tests at the same workplace	Testing of 20% of workforce
30 to 100 Workers at a workplace	Confirmed Positive results for 3 or more workers in 2 consecutive testing rounds at the same	Testing of 10 workers
Greater than 100 Workers at a workplace	Confirmed Positive results for 6 or more workers in 2 consecutive testing rounds at the same workplace	Testing of 20 workers

The increased testing requirements shall continue until no Confirmed Positive test results are recorded for 2 consecutive testing periods.

12.4 Other jobs-

On jobsites/workplaces where there is no Commonwealth contribution testing frequency will be agreed upon by mutual consent by the PC/Employer and the Union. Testing requirements will remain the same for all jobsites i.e. blanket alcohol and code requirements for drug testing.

13.0 PRESCRIBED MEDICATIONS

Workers that are taking Prescribed Drugs or Pharmacy Only Drugs that they believe could register a positive test result should inform the Authorised Testing Agent prior to undergoing any requested test

If a Worker fails to declare that they are taking Prescribed Drugs or Pharmacy Only Drugs before being tested and they record a Non Negative Result Initial Test result, a post test declaration will not be considered relevant to the result and the Worker will be excluded from duty for the remainder of the shift, subject to a Confirmatory Test.

Workers who record a Non Negative Result Initial Test result will be excluded from their work duties and the workplace until a Confirmatory Test result has been received.

If that confirmatory result is a Positive Result Confirmatory Test, then:

The terms and conditions of the applicable industrial agreement shall be observed in relation to consultation and consequence management action.

When a confirmatory test result is negative or the result recorded is less than the target level or is consistent with a level expected from therapeutic use of a Prescribed Drug or Pharmacy Only Drug, which was advised by the Worker, then the test result shall be considered a Negative Result Initial Test for the purpose of any consequence management action

Where a Worker is excluded from the workplace as a result of a Non Negative Result Initial Test for Drugs and the confirmatory test is positive for a Pharmacy Only or Prescription Drug, the following factors would normally be considered in deciding when it is appropriate to allow a worker to return to the workplace and/or return to normal duties:

- Whether the worker declared the medication during the pre-test interview with the Designated Collector or Authorised Testing Agent;
- The level of the medication detected is consistent with therapeutic use;
- Written advice from the worker's doctor advising that the medication is required to treat a medical condition; and

- The medication will not affect the worker's ability to perform the inherent requirements of their job - i.e. they are fit forwork

14.0 SPECIAL CIRCUMSTANCES FOR PRESCRIPTION MEDICATION

A Worker participating in a treatment plan for a medical condition, managed by a Registered Medical Practitioner and involving a Prescribed Drug/Only Drug could result in a Non Negative Result Initial Test if they are selected for Drug and Alcohol testing.

If in the above circumstance a Non Negative Result Initial Test occurs, and provided that the Worker has:

- Declared their use of the Prescribed Drug/Pharmacy Only Drug in a letter less than 12 months old from a registered medical practitioner before the commencement of testing; and
- Declared their use of the Prescribed Drug/Pharmacy Only Drug to the Authorised Testing Agent or Designated Collector before the commencement of testing;
- Then the Non Negative Result Initial Test result shall be recorded at the workplace and a second sample of oral fluid shall be taken and sent for confirmatory testing. The worker will be prevented from performing work until they can provide they are fit to return to work

Where the results of the confirmatory test identify the Prescribed Drug/Pharmacy Only Drug declared and the levels are consistent with that prescribed by the prescribed medical practitioner, then a Negative Result shall be recorded and no results retained.

Where the results of the confirmatory test identify the Prescribed Drug/Pharmacy Only Drug declared and the levels are not consistent with that prescribed by the Registered Medical Practitioner or another drug(s) type is recorded then a positive result confirmatory test shall be recorded.

Where the Worker has not provided both declarations contained within this part then the Worker shall be excluded from the workplace until the results of the confirmatory test are known.

15.0 TESTING RESULTS

15.1 Alcohol -

A worker who returns a negative alcohol test will be allowed to return to work with no record of the test kept. A worker who returns a positive result for alcohol (above 0.00mg/ml) will be deemed not fit work and will not be permitted to return to work.

When a worker tests positive to alcohol in their system the workers blood alcohol concentration (BAC) may be decreasing or it may be increasing. In the interests of safety the Workers will be directed to remain within the testing vicinity and they will be re-tested no sooner than 60 minutes after the original test.

If the second test result is 0.000% the test will be regarded as negative and the Worker may return to normal duties. A Positive Result Confirmatory Test will not be recorded in these circumstances.

If the later confirmatory test indicates a BAC of greater than 0.000% a Positive Result Confirmatory Test will be recorded.

Alcohol testing shall be carried out by an Authorised Testing Agent agreed upon by the PC/Employer and the Union. The following steps shall be undertaken:

10. Details of the identity of the Worker to be tested shall be recorded including the workplace name, work area and their employer will be listed on a drug and alcohol testing record form by the independent Authorised Testing Agent.
11. Workers with a BAC of greater than zero (greater than 0.000%) shall discontinue any work activities and shall be directed to undertake a second test sixty (60) minutes after the first test and the results recorded on a Drug and Alcohol Testing record Form by the independent Authorised Testing Agent.
12. Where the second test indicates a level greater than 0.00% BAC the Worker will be further excluded from work duties for the remainder of the shift;
13. Where a Worker is to be sent home using their own transport this shall only be permitted if the blood alcohol concentration test result is below that prescribed by applicable road transport legislation and has been determined as not rising for that Worker.

Note: If the Worker's blood alcohol concentration result is greater than or equal to 0.05% BAC, all reasonable assistance is to be afforded to ensure an affected Worker can make their way from the Workplace to a safe location without harm (e.g. taxi, lift from a friend or Supervisor).

Contractors will be responsible for the management/arrangements for their employees in accordance with their own employment arrangements.

14. Any Worker that is excluded from work duties for the remainder of a shift or sent home, must, before commencing work for their next shift undertake an alcohol breath test prior to commencing that shift. If the results are negative (0.00mg/ml) the Worker shall be allowed to commence work. If the Worker returns a positive test they will not be allowed to commence work, hence page 12 of this document, 15.1 Alcohol- d) will apply.

15.2 Drugs-

A worker who returns a negative test will be allowed to return to work. A worker who returns a non-negative test result from their initial test (equal to or above the relevant cut-off levels of the substances referred to in AS 4760) will be deemed not fit for work and will not be allowed to return to work. (Benzodiazepine level to be provided by the prescribed testing laboratory.)

Drug testing will be administered by the collection and analysis of an oral fluids specimen (saliva). Before conducting a drug test, the process used by the independent Authorised Testing Agent must be explained to the Worker providing the saliva sample.

Collecting and testing of saliva specimens shall be carried out by an Authorised Testing Agent, agreed upon by the PC/Employer and the Union, and confirmatory testing is to be carried out by a NATA accredited laboratory.

A Confirmatory Test will be required where a Non Negative Result Initial Test is recorded at the initial test. The handling of specimens taken for confirmatory testing is detailed in the process used by the Authorised Testing Agent and must be completed to Australian Standards.

Any worker attending the workplace under the influence of drugs or alcohol will be prohibited from entry. A worker returning to the workplace following their exclusion for a Positive Result Confirmatory test will be required to submit to a drug and alcohol test prior to commencing work and receive a Negative Result Initial Test for Drugs or Alcohol prior to commencing work.

16.0 FORMS OF TESTING

16.1 Self-Testing

The PC/Employer shall be required to provide sufficient self-testing facilities for alcohol and/or drugs for up to 10% of the workforce.

Where self-test facilities are made available voluntary or self-testing for alcohol will be available for Workers prior to presenting for work. A wall mounted breathalyser (optional) will be located in an area that provides for discrete privacy for the worker, whilst completing the test so the test results cannot be inadvertently observed and disclosed to other parties.

A Worker undertakes self-testing at his/her own accord; therefore, no test details are recorded. However, if the worker tests non-negative for any substance in section 9.3 of this policy they will be deemed not to be fit for work and will be prevented from performing work until they are fit for work. All Workers have obligations under the Work Health and Safety Act or equivalent occupational health and safety or occupational safety and health legislation in other States or Territories and must not wilfully place at risk their health and safety or the health and safety of other Workers or people at the workplace by commencing work if they believe they're impaired.

16.2 Random Shift Testing

In terms of Random Shift Testing it is in imperative that the PC/Employer and the Union do not know on what day, or at what time the Authorised Testing Agent will conduct the tests.

It is a condition of entry for all Workers at any workplace to comply with any request to participate in random Drug and Alcohol testing as a condition of employment or contract. This means that all Workers attending or seeking to attend a workplace will be eligible for testing.

Testing for Alcohol or other Drugs for Workers shall be mandatory and will be undertaken at any time throughout the Worker's hours of work (including overtime) or at any time whilst at the workplace.

Individual Workers will be selected for drug testing using a simple random selection process. A random draw will be conducted using an Authorised Testing Agent independent software to randomise the selection of Workers for testing.

The random selection process includes the selection of Workers from across the entire workplace subject to the testing.

A Worker selected for testing will be required to present themselves for testing within a reasonable time. Random shift testing shall be conducted in a room which provides for privacy for the selected worker during testing; the requirements for this room are outlined in the Room Requirements section of this policy.

16.3 For Cause Testing

An employer/supervisor may only request an employee to undertake for cause testing if:

15. The employee has been involved in an accident or incident, or had the potential to, cause:
    ii. serious and major damage to mobile plant or property; or
    iii. an injury to themselves or other individual(s);or
    iv. Participation in a relevant and specific industry focus area when the worker is undertaking High Risk Work as identified by the employer and consistent with OHS legislation. Workers will be selected for testing using a random selection process nominated by the employer following a consultation process in line with OHS legislation.

16.4 Post Incident Testing

After the occurrence of a significant incident/event at a workplace, all Workers involved in the incident may be required to undergo an initial Drug and Alcohol test.

Where a Worker(s) is to be tested following a significant incident/event they may request to be accompanied by their employee representative until they have completed all testing required.

Post Incident Testing will be conducted as soon as practical after the incident/event and when it is safe to do so.

An injured Worker who requires immediate medical attention may only be tested when it is appropriate and safe to do so. This will be determined by the Construction Manager, the HSR, Delegate and the relevant PIA in consultation with the attending medical practitioner. In such cases, where testing can be conducted while under medical care, a saliva testing process will be used.

16.5 Reasonable Concern Testing

An employer may only request an employee to undertake reasonable concern testing if the following criteria are met:

16. An observable phenomena occurs, which is:
    v. the direct observation of the employee of use of, and/or the physical behavioural symptoms of being impaired by, alcohol and/or
    vi. Unusual and/or inexplicable actions by the employee
17. There is evidence that the employee is involved in the use or possession of alcohol and/or other drugs while working; or
18. The employee has breached safety precautions orprocedures.

16.6 Testing of Minors

A letter of consent contained within the work experience and student placement procedure shall be signed by the parent or guardian of any worker who is a minor seeking to access a workplace where the Impairment Policy is in place, as a condition of entry to that workplace. Alternatively, an equivalent letter signed by the parent or guardian can be provided through the minor's employer/host employer.

Where a minor is selected for testing and:

- A letter of consent is held, then the provisions of this procedure shall apply; or
- Where a letter of consent is not held, every effort will be made to contact the minor's parents/guardians to get verbal consent to participate in the testing procedure. If consent is given then the normal testing procedures will apply, if contact cannot be made and/or consent is not given then the minor will be unable to continue working until consent is given.

17.0 REFUSAL TO TEST

If a Worker refuses to participate in workplace Drug and Alcohol testing the following will apply;

19. The Employer, will inform the Worker and the workers chosen representative, that the refusal will have the same consequences as a non-negative result, i.e. that the employee will be deemed to be unfit for work due to the presence of alcohol or drugs.
20. If the worker still refuses, the Employer and the PIA, shall consult with the worker and the workers chosen representative, regarding the requirements, process and consequences of refusing to test and encourage them to partake in the test. This would be the second request to be tested.
21. If the worker still refuses, the refusal will be treated as a confirmed positive result, and will be subjected to the relevant consequences of such. All reasonable assistance is to be offered to ensure the employee can make their way from the workplace to a safe location without harm (i.e. taxi, lift from a friend or fellow worker). An agreed leave of absence arrangement is to apply for the duration of theirabsence.

18.0 DISCIPLINARY ACTION

The following sets out the action which may be taken when a worker returns a confirmed positive result to an alcohol or drug test.

22. First Occasion - A worker who has received a first confirmed positive test for alcohol or drugs (other than by self-testing) will be:
    vii. Required to attend the Support as referred to in this Policy;
    viii. Informed of the consequences of testing positive and their obligations to present, or remain in a fit state
    ix. ; Informed of further disciplinary action and testing requirements should they have a confirmed positive result (alcohol or drug) within the next 12 months.
23. Second occasion - A worker who has received a second confirmed positive test for alcohol or drugs (other than by self-testing) within any 12 month period will be:
    i. Required to re-attend the Support as referred to in this Policy
    ii. Required to participate in a rehabilitation program referred to in "Support" in this policy
    iii. Informed of the consequences of testing positive and their obligations to present, or remain in a fit state;
    iv. Given a verbal warning with a diary entry placed on file; and
    v. Informed of further disciplinary action and testing requirements should they have a confirmed positive result (alcohol or drug) within the next 12 months.
24. A worker who has received three confirmed positive test results for alcohol or drugs which has been detected in a 12 month period may be disciplined under the Employer's disciplinary processes.
25. A worker who fails to attend EAP sessions may be disciplined under this policy in accordance with principles of natural justice.
26. No disciplinary action will be taken in respect of positive test results from a self-test.

19.0 SUPPORT

The Principle Contractor (PC)/Employer will make available support to workers in respect of drug and alcohol issues. This will include:

27. allowing access to any Union support programs; and
28. provide an employer funded Employee Assistance Provider (EAP) to be available to workers.

The worker will be allowed to access a Union support program and/or EAP counselling during normal working hours and without loss of pay, or any form of employer retribution.

20.0 SELF- DECLARATION

29. Workers will not be disadvantaged for self-disclosure and therefore will be supported through counselling and rehabilitation processes and provided with the Support contained in this policy. In such cases the worker will be permitted to access personal leave in the first instance, then accrued leave, and may return to work when fit for duty.

30. The worker may be suspended from any work, with pay, with immediate effect in order for an assessment to be made of the duties they are able to perform safely and a drug and alcohol test is to be taken as soon as reasonably practicable.

21.0 PRIVACY

Drug and Alcohol testing results shall remain confidential and will only be used for the purpose of compliance with this Procedure in the manner required by the *Privacy Act 1988* (Cth). Any information provided or declared by a Worker regarding:

- Prescribed Drug and Pharmacy Only Drug consumed

- Their proposed return to the workplace following exclusion by this procedure;

Will also remain confidential and managed in accordance with the *Privacy Act 1988* (Cth). Similarly, where a Worker supplies information regarding the use, sale or supply of Drugs or Alcohol at a workplace, unless the Worker otherwise agrees or as otherwise required by law, the Worker's identity will be kept confidential.

All Positive Results Confirmatory Test will be maintained on the relevant Worker's personnel records located at the workplace.

Protections from Worker Deoxyribonucleic Acid (DNA) misuse

Workers selected for testing shall have their personal DNA protected by:

- In the case of unintended collection of a Worker's DNA during the collection of an oral saliva sample for an initial test, by the worker being offered the used collection cartridge upon completion of the initial test.
- In the case of unintended collection of a Workers DNA during the collection of an oral saliva sample for testing at a NATA approved laboratory for an initial Non Negative Result Initial Test, by ensuring that the documentation that accompanies the collection cartridge to the NATA approved laboratory does not include the workers name or address but contains only that information sufficient to comply with AS4760 e.g. test report number and date of birth.

These protections will be notified to Workers during training.

22.0 CONSULTATION

If a party believes that an amendment to the impairment policy is required, they shall request and organise a consultation meeting involving the Employer, the Union and any other relevant stakeholders.

The attendees shall seek to reach agreement on any proposed amendments.

No amendments shall be implemented unless agreement is reached by the Employer, the Union and the relevant stakeholders.

Employment Assistance Program (EAP)

The Employment Assistance Program (EAP) is an agreed independent, professional and confidential service that aims to provide employees with assistance when affected by personal or job related problems.

34.3 If CIPQ decides that a higher weekly rate per Employee must be paid or provided, the Employer must pay that higher rate as and from the date CIPQ determines. Payment at the rate specified under this **clause 34.1** above from the date determined by CIPQ will satisfy the Employer's obligations under **clause 34.1** above.

34.4 If the Employer does not contribute to CIPQ the amount required under **clause 34.1** above in respect of each and every Employee, the Employer will pay an additional $1,500 per week on top of what benefit the policy provides and also reimburse the Employee for costs (ie medical expenses, claims management and rehabilitation expenses) incurred by the Employee, for a period of three years in the event that an Employee is unable to make a claim because of the non-payment by the Employer.

(b) To this end the general standard of weekly hours will usually not be more than 50 per week, which shall be taken to mean not more than 10 hours per day Monday to Friday, for an individual Employee. The aforesaid 'usual weekly hours' of the affected Employees may by agreement be exceeded from time to time to perform works which the Employer considers necessary and to meet operational requirements including but not limited to the need to perform works which are critical to the ongoing productivity or safety of other employees on the project or where a critical work task is delayed due to unforeseen circumstances.

35.4 Reflecting this intention, it is recognised that:

(a) The Employer is not restricted as to the setting of daily hours within the 50 hour general standard;

(b) Subject to consultation a majority of employees may agree to work on a Saturday following a Monday RDO, provided there is strict adherence with the rest of this **clause 35**.

35.5 An Employee may refuse to work overtime in circumstances where the working of such overtime would result in the Employee working hours which are unreasonable having regard to matters including:

(a) any risk to Employee health and safety including the risk of fatigue i.e. excessive hours, exposure to noise, fumes, or any matter that can impair an Employee's ability to work safely and/or create a danger to Employees;

36.2 26 rostered days are scheduled to be taken off by an Employee for every 12 months' continuous service in accordance with the dates set out in the calendar indicative of scheduled RDO contained in

APPENDIX 3. The purpose of this calendar is to ensure workers and site management manage their fatigue levels, thereby encouraging safer and more productive projects.

36.3 For clarity, nothing in this clause or the calendar is intended to impose a limit on the ability of the Employer to determine with the majority of its affected Employees when and where work can be performed to meet operational requirements or otherwise limit the Employer's right to manage its business.

36.4 Payment for RDOs will include an entitlement to the daily fares and travel allowance.

36.5 Each day of leave taken and any public holiday occurring during any cycle will be regarded as a day worked for accrual purposes.

36.6 An Employee who has not worked a complete cycle will receive pro rata accrued entitlements payable for the rostered day off.

(b) the Employee's personal circumstances including any family responsibilities;

(c) any other relevant matter.

36.11 Where the procedure in **clause 36.8** above has been followed and at least seven days' notice has been provided to Employees to work on the RDO, Employees must be paid for at 200% of the rate applicable for the Employee's classification in the Agreement, with a minimum payment for 8 hours, for that RDO. Where the procedure in **clause 36.8** above has not been followed or less than 7 days' notice has been provided to Employees to work on the RDO, Employee's must be paid at 250% of the rate applicable for the Employee's classification in the Agreement, with a minimum payment of 8 hours, for that RDO.

NCBPs are building products about which false claims have been made as to their quality and purpose or do not meet required standards for their intended use. A building product is non-conforming if, in association with a building, the product:

(a) is not, or will not be, safe;

(b) does not, or will not, comply with relevant regulatory provisions; or

(c) does not perform, or is not capable of performing, for the use to the standard represented.

The Parties recognise that domestically sourced and manufactured conforming building products are less likely to create the above conditions and accordingly wish to maximise the use of domestically sourced and manufactured building materials by the Employer.

Appendix Four
Impairment Policy

APPENDIX FOUR – IMPAIRMENT POLICY

1 PRINCIPLES

1.1 The health, wellbeing and safety of employees are of paramount importance to the employer, employees and their Unions. This policy is part of a broad work, health and safety (WHS) program to secure the highest level of health and safety in the workplace.

1.2 The policy adopts a WHS approach that involves identifying, assessing and controlling all workplace hazards, using the hierarchy of control, and then reviewing these controls to ensure ongoing improvements.

1.3 The focus of this policy is on the WHS risks associated with impairment and should be read in conjunction with other Employer policies concerning health and safety, particularly in relation to fatigue management, risk management and safe systems of work.

1.4 This policy has been compiled in a manner that is non-punitive and supportive of employees. This policy shall not be used in a discriminatory manner. Anti-Discrimination Law protects against discrimination on the basis of addiction and may also protect against discrimination on the basis of impairments caused by drug and alcohol addiction or use.

1.5 The policy and procedures adopt a peer based intervention approach based on fairness and equity for all employees.

2 SCOPE

2.1 This policy will apply to all employees (including managers and supervisors), contractors and labour hire staff. The policy applies to these groups at all times when they are engaged in Employer business, whether on or off site and when driving Employer vehicles.

3 STRUCTURE

The Impairment Policy is categorised in order with the intended implementation:

3.1 Training & Awareness

(a) Extensive research has shown training and awareness of impairment related issues provides the most effective means of behavioural change and encourages better decision making. The two types of training in accordance with this policy to do this are:

(i) Workplace Impairment Training (WIT) - all workers onsite will do this training;

(ii) (ii) Preliminary Impairment Assessment (PIA) - HSRs, delegates and the PC's safety staff will undertake this training.

3.2 Testing

Testing for drugs and alcohol is used to support and measure the results of the education and awareness program.

3.3 Support Services

Rehabilitation, counselling and EAP's. Support is strictly non-punitive, and can be accessed at any time (self-identification of the need for help is strongly encouraged).

4 OBJECTIVES

The objectives of this policy are as follows:

(a) To provide a safe and healthy working environment for all workers;

(b) To work collaboratively in the implementation and co-ordination of this policy with employees, employers and their elected representatives to achieve the objectives of this policy;

(c) To eliminate and control risks which may lead to impairment affecting health and safety in the workplace;

(d) To ensure that there is a mechanism for managing impairment at work that is transparent, objective and in accordance with the purpose of this policy;

(e) To ensure that all persons are provided with adequate information and education on the health and safety issues surrounding impairment, and on the operation of this policy;

(f) To ensure that employees have access to rehabilitation, support and counselling of their choice on a voluntary basis that is independent, professional and confidential, without jeopardising their employment;

(g) To ensure confidentiality of information concerning the application of this policy to a worker is maintained.

5 RESPONSIBILITIES

5.1 The employer shall:

(a) Provide a work environment that is safe and without risks to health and safety;

(b) Provide information about the testing requirements to all existing employees, contractors and labour hire staff and to all new staff at the point of induction;

(c) Ensure that this policy is implemented fairly and equitably across all sections of the workforce;

(d) Comply with the four policy implementation steps outlined below;

(e) Have adequate resources (e.g., a room that allows for confidential impairment assessments to be discussed, if necessary, suitable transport to safely remove impaired employees from the workplace to be able to meet the objectives of this policy.

5.2 Employees shall:

(a) Co-operate reasonably with the employer in the implementation of this policy;

(b) If any employee reasonably believes that any person on the site may be a health and safety risk to themselves or others they should inform their employer and their relevant Preliminary Impairment Assessor (PIA) of this belief;

(c) Not possess, consume, or be under the influence of, alcohol or other drugs while working;

(d) Ensure that they do not work, if they believe that they may be impaired;

(e) Consult their doctor or pharmacist about possible side effects of using prescribed or over-the-counter medication;

(f) Inform their employer and their Preliminary Impairment Assessor (PIA) if they have been made aware by their treating doctor or pharmacist of possible impairment as a side effect of medication, or if they feel impaired by medication.

6 POLICY IMPLEMENTATION WILL INVOLVE THE FOLLOWING STEPS.

6.1 PC/Employer and Union shall agree on a policy start date.

6.2 Engagement of an agreed training and rehabilitation/treatment service providers.

6.3 Provision of on-going Workplace Impairment Training (WIT) and Preliminary Impairment Assessors training (PIA).

6.4 Ongoing promotion of this policy

A purpose of the policy and procedure is to provide protocols and procedures for workplace alcohol and other drug testing that are evidence-based, consistent with best practice, comply with relevant Australian Standards, and contribute to workplace safety and worker wellbeing.

6.6 Any employee who is assessed as being impaired shall be advised to contact the rehabilitation/treatment provider.

6.7 The employee will be permitted to access personal leave in the first instance and then take accrued personal leave entitlements for the period of time they are accessing the treatment provider.

6.8 With the endorsement/acceptance of the Impairment Policy the Principle Contractor (PC) will undertake to not pass the implementation and cost of drug and alcohol testing to its subcontractors.

6.9 It will also ensure compliance with this policy as follows:

(a) Subcontractors will be contractually required to comply with this procedure as a condition of contract/EBA;

(b) All direct employees of the PC as a condition of their employment must agree to adhere to the terms and conditions of the impairment policy.

6.10 Notwithstanding anything else contained in the policy, the costs of all testing contained within this policy shall be borne by the PC unless otherwise specified in this document.

(ii) the training session will not be interfered with by workers wanting to use the room in general.

8.8 No worker can be tested for drugs and/or alcohol unless they have been trained in this policy.

9 TESTING METHODS

9.1 Alcohol Testing Method

Alcohol testing must only be done by use of an Accredited Breath Test device. The device must be calibrated and meet the minimum requirements of AS3547.

9.2 Drug Testing Method

(a) Drug testing may only be performed by oral fluid testing;

(b) The equipment used to perform the test shall be used, tested and calibrated to the manufacturer's instructions and certified to AS 4760 (Process for specimen collection and the detection and quantitation of drug in oral fluid);

(c) The drug testing shall be conducted by an accredited person, following all of the chain of custody provisions;

(d) The test must be performed in accordance with AS 4760 (Procedures for specimen collection and the detection and quantitation of drugs in oral fluid).

9.3 As part of this policy with regards to Drug and Alcohol testing the following substances must be tested for:

(a) Alcohol;

(b) Opiates;

(c) THC;

(d) Cocaine;

(e) Benzodiazepines;

(f) Amphetamine; and

(g) Methamphetamine

10 TESTING PROVIDER

10.1 Must be NATA Accredited.

10.2 Must have accreditation AS4760:2006 Procedures for specimen collection and the detection and quantitation of drug abuse in oral fluid.

10.3 Must be agreed upon by the PC/Employer and the Union.

10.5 Before the Authorised Testing Agent is engaged to be the sample collector for the principle contractor all relevant stakeholders must be engaged to make sure there is no conflict of interest and that they are totally independent. If a conflict of interest exists, or should arise, the Authorised Testing Agent must report it immediately.

11 ROOM REQUIREMENTS

11.1 Each workplace shall have a room nominated for use to undertake drug and alcohol testing consistent with this procedure. This room will not normally be the first aid room at a workplace unless a workplace has multiple first aid rooms and the use of a first aid room for the purpose of drug and alcohol testing will not affect the ability of the workplace to respond to a first aid incident.

11.2 The room selected for use must so far as reasonably practicable:

(a) Provide privacy for the Worker being tested including but not limited to:

(i) Have a closing door;

(ii) Not allow for casual visual observation of the testing process by other Workers external to the room e.g. through glass windows;

(iii) Not allow conversations to be casually overheard by other workers;

(b) Be clean and hygienic;

(c) Be free from interruption whilst testing is being undertaken;

(d) Include discrete entry and exit.

12 TESTING REQUIREMENTS

12.1 Code compliant workplaces -

On workplaces where the value of the Commonwealth's contribution to the project that includes the building work is at least $5,000,000, and represents at least 50% of the total construction project value

or the Commonwealth's contribution to the project that includes the building work is at least $10,000,000 (irrespective of its proportion of the total construction project value) the following minimum testing requirements must be adhered to.

12.2 Alcohol - on the day of testing all workers onsite shall be required to submit a breath sample i.e. blanket testing.

12.3 Drugs -As a minimum, frequent periodic testing (at least once per month where required by law, at intervals required by the client or by mutual agreement by the PC/employer and the Union) of the workforce (both construction Workers and site office Workers) will be as follows:

(a) where there are less than 30 Workers at a workplace - at least 10% of the workforce;

(b) where there 30 to 100 Workers at a workplace - a minimum of 5 Workers; and

(c) where there are greater than 100 Workers at a workplace - a minimum of 10 Workers;

(d) The frequency of testing and the number of workers selected shall be increased in line with the escalation below where test results meet the criteria indicated:

Number of Workers	Criteria	Action
Less than 30 Workers at a workplace	Confirmed Positive results in 2 consecutive tests at the same workplace	Testing of 20% of workforce
30 to 100 Workers at a workplace	Confirmed Positive results for 3 or more workers in 2 consecutive testing rounds at the same workplace	Testing of 10 workers
Greater than 100 Workers at a workplace	Confirmed Positive results for 6 or more workers in 2 consecutive testing rounds at the same workplace	Testing of 20 workers

12.4 The increased testing requirements shall continue until no Confirmed Positive test results are recorded for 2 consecutive testing periods.

12.5 Other jobs

On jobsites/workplaces where there is no Commonwealth contribution testing frequency will be agreed upon by mutual consent by the PC/Employer and the Union. Testing requirements will remain the same for all jobsites i.e. blanket alcohol and code requirements for drug testing.

13 PRESCRIBED MEDICATIONS

13.1 Workers that are taking Prescribed Drugs or Pharmacy Only Drugs that they believe could register a positive test result should inform the Authorised Testing Agent prior to undergoing any requested test

13.2 If a Worker fails to declare that they are taking Prescribed Drugs or Pharmacy Only Drugs before being tested and they record a Non Negative Result Initial Test result, a post test declaration will not be considered relevant to the result and the Worker will be excluded from duty for the remainder of the shift, subject to a Confirmatory Test.

13.3 Workers who record a Non Negative Result Initial Test result will be excluded from their work duties and the workplace until a Confirmatory Test result has been received.

13.4 If that confirmatory result is a Positive Result Confirmatory Test, then:

(a) The terms and conditions of the applicable industrial agreement shall be observed in relation to consultation and consequence management action.

13.5 When a confirmatory test result is negative or the result recorded is less than the target level or is consistent with a level expected from therapeutic use of a Prescribed Drug or Pharmacy Only Drug, which was advised by the Worker, then the test result shall be considered a Negative Result Initial Test for the purpose of any consequence management action

13.6 Where a Worker is excluded from the workplace as a result of a Non Negative Result Initial Test for Drugs and the confirmatory test is positive for a Pharmacy Only or Prescription Drug, the following factors would normally be considered in deciding when it is appropriate to allow a worker to return to the workplace and/or return to normal duties:

(a) Whether the worker declared the medication during the pre-test interview with the Designated Collector or Authorised Testing Agent;

(b) The level of the medication detected is consistent with therapeutic use;

(c) Written advice from the worker's doctor advising that the medication is required to treat a medical condition; and

(d) The medication will not affect the worker's ability to perform the inherent requirements of their job - i.e. they are fit for work.

14 SPECIAL CIRCUMSTANCES FOR PRESCRIPTION MEDICATION

14.1 A Worker participating in a treatment plan for a medical condition, managed by a Registered Medical Practitioner and involving a Prescribed Drug/Only Drug could result in a Non Negative Result Initial Test if they are selected for Drug and Alcohol testing.

14.2 If in the above circumstance a Non Negative Result Initial Test occurs, and provided that the Worker has:

(a) Declared their use of the Prescribed Drug/Pharmacy Only Drug in a letter less than 12 months old from a registered medical practitioner before the commencement of testing; and

(b) Declared their use of the Prescribed Drug/Pharmacy Only Drug to the Authorised Testing Agent or Designated Collector before the commencement of testing;

(c) Then the Non Negative Result Initial Test result shall be recorded at the workplace and a second sample of oral fluid shall be taken and sent for confirmatory testing. The worker shall be allowed to remain at work but must be precluded from high risk construction work activity until the result of the confirmatory test is known.

14.3 Where the results of the confirmatory test identify the Prescribed Drug/Pharmacy Only Drug declared and the levels are consistent with that prescribed by the prescribed medical practitioner, then a Negative Result shall be recorded and no results retained.

14.4 Where the results of the confirmatory test identify the Prescribed Drug/Pharmacy Only Drug declared and the levels are not consistent with that prescribed by the Registered Medical Practitioner or another drug(s) type is recorded then a positive result confirmatory test shall be recorded.

14.5 Where the Worker has not provided both declarations contained within this part then the Worker shall be excluded from the workplace until the results of the confirmatory test are known.

15 TESTING RESULTS

15.1 Alcohol

(a) A worker who returns a negative alcohol test will be allowed to return to work with no record of the test kept. A worker who returns a positive result for alcohol (above 0.00mg/ml) will be deemed not fit for work and will not be permitted to return to work;

(b) When a worker tests positive to alcohol in their system the workers blood alcohol concentration (BAC) may be decreasing or it may be increasing. In the interests of safety the Workers will be directed to remain within the testing vicinity and they will be re-tested no sooner than 60 minutes after the original test;

(c) If the second test result is 0.000% the test will be regarded as negative and the Worker may return to normal duties. A Positive Result Confirmatory Test will not be recorded in these circumstances;

(d) If the later confirmatory test indicates a BAC of greater than 0.000% a Positive Result Confirmatory Test will be recorded;

(e) Alcohol testing shall be carried out by an Authorised Testing Agent agreed upon by the PC/Employer and the Union. The following steps shall be undertaken:

(i) Details of the identity of the Worker to be tested shall be recorded including the workplace name, work area and their employer will be listed on a drug and alcohol testing record form by the independent Authorised Testing Agent:

(ii) Workers with a BAC of greater than zero (greater than 0.000%) shall discontinue any work activities and shall be directed to undertake a second test sixty (60) minutes after the first test and the results recorded on a Drug and Alcohol Testing record Form by the independent Authorised Testing Agent:

(iii) Where the second test indicates a level greater than 0.00% BAC the Worker will be further excluded from work duties for the remainder of the shift;

(iv) Where a Worker is to be sent home using their own transport this shall only be permitted if the blood alcohol concentration test result is below that prescribed by applicable road transport legislation and has been determined as not rising for that Worker.
Note: If the Worker's blood alcohol concentration result is greater than or equal to 0.05% BAC, all reasonable assistance is to be afforded to ensure an affected Worker can make their way from the Workplace to a safe location without harm (e.g. taxi, lift from a friend or Supervisor).
Contractors will be responsible for the management/arrangements for their employees in accordance with their own employment arrangements.

(v) Any Worker that is excluded from work duties for the remainder of a shift or sent home, must, before commencing work for their next shift undertake an alcohol breath test prior to commencing that shift. If the results are negative (0.00mg/ml) the Worker shall be allowed to commence work. If the Worker returns a positive test they will not be allowed to commence work, hence page 9 of this document, **15.1** Alcohol- d) will apply.

15.2 Drugs

(a) A worker who returns a negative test will be allowed to return to work. A worker who returns a non-negative test result from their initial test (equal to or above the relevant cut-off levels of the

substances referred to in AS 4760) will be deemed not fit for work and will not be allowed to return to work. (Benzodiazepine level to be provided by the prescribed testing laboratory);

(b) Drug testing will be administered by the collection and analysis of an oral fluids specimen (saliva). Before conducting a drug test, the process used by the independent Authorised Testing Agent must be explained to the Worker providing the saliva sample;

(c) Collecting and testing of saliva specimens shall be carried out by an Authorised Testing Agent, agreed upon by the PC/Employer and the Union, and confirmatory testing is to be carried out by a NATA accredited laboratory;

(d) A Confirmatory Test will be required where a Non Negative Result Initial Test is recorded at the initial test. The handling of specimens taken for confirmatory testing is detailed in the process used by the Authorised Testing Agent and must be completed to Australian Standards;

(e) Any worker attending the workplace under the influence of drugs or alcohol will be prohibited from entry. A worker returning to the workplace following their exclusion for a Positive Result Confirmatory test will be required to submit to a drug and alcohol test prior to commencing work and receive a Negative Result Initial Test for Drugs or Alcohol prior to commencing work.

16 FORMS OF TESTING

16.1 Self-Testing

(a) The PC/Employer shall be required to provide sufficient self-testing facilities for alcohol and/or drugs for up to 10% of the workforce;

(b) Where self-test facilities are made available voluntary or self-testing for alcohol will be available for Workers prior to presenting for work. A wall mounted breathalyser (optional) will be located in an area that provides for discrete privacy for the worker, whilst completing the test so the test results cannot be inadvertently observed and disclosed to other parties;

(c) A Worker undertakes self-testing at his/her own accord; therefore, no test details are recorded. However, all Workers have obligations under the Work Health and Safety Act or equivalent occupational health and safety or occupational safety and health legislation in other States or Territories and must not wilfully place at risk their health and safety or the health and safety of other Workers or people at the workplace by commencing work if they believe they're impaired.

16.2 Random Shift Testing

(a) In terms of Random Shift Testing it is in imperative that the PC/Employer and the Union do not know on what day, or at what time the Authorised Testing Agent will conduct the tests;

(b) It is a condition of entry for all Workers at any workplace to comply with any request to participate in random Drug and Alcohol testing as a condition of employment or contract. This means that all Workers attending or seeking to attend a workplace will be eligible for testing;

(c) Testing for Alcohol or other Drugs for Workers shall be mandatory and will be undertaken at any time throughout the Worker's hours of work (including overtime) or at any time whilst at the workplace;

(d) Individual Workers will be selected for drug testing using a simple random selection process. A random draw will be conducted using an Authorised Testing Agent independent software to randomise the selection of Workers for testing;

(e) The random selection process includes the selection of Workers from across the entire workplace subject to the testing;

(f) A Worker selected for testing will be required to present themselves for testing within a reasonable time. Random shift testing shall be conducted in a room which provides for privacy for the selected worker during testing; the requirements for this room are outlined in the Room Requirements section of this policy.

16.3 For Cause Testing

(a) An employer/supervisor may only request an employee to undertake for cause testing if:

(i) The employee has been involved in an accident or incident, or had the potential to, cause:

(ii) serious and major damage to mobile plant or property; or

(iii) an injury to themselves or other individual(s);or

(iv) Participation in a relevant and specific industry focus area when the worker is undertaking High Risk Work as identified by the employer and consistent with OHS legislation. Workers will be selected for testing using a random selection process nominated by the employer following a consultation process in line with OHS legislation.

16.4 Post Incident Testing

(a) After the occurrence of a significant incident/event at a workplace, all Workers involved in the incident may be required to undergo an initial Drug and Alcohol test.

(b) Where a Worker(s) is to be tested following a significant incident/event they shall be supervised by an Employer Representative and Employee Representative continually from the time of the incident until they have completed all testing required.

(c) Post Incident Testing will be conducted as soon as practical after the incident/event and when it is safe to do so.

(d) An injured Worker who requires immediate medical attention may only be tested when it is appropriate and safe to do so. This will be determined by the Construction Manager, the HSR, Delegate and the relevant PIA in consultation with the attending medical practitioner. In such cases, where testing can be conducted while under medical care, a saliva testing process will be used.

16.5 Reasonable Concern Testing

(a) An employer may only request an employee to undertake reasonable concern testing if the following criteria are met:

(i) An observable phenomena occurs, which is:

- the direct observation of the employee of use of, and/or the physical behavioural symptoms of being impaired by, alcohol; and/or
- Unusual and/or inexplicable actions by the employee; or

(ii) There is evidence that the employee is involved in the use or possession of alcohol and/or other drugs while working; or

(iii) The employee has breached safety precautions or procedures.

16.6 Testing of Minors

(a) A letter of consent contained within the work experience and student placement procedure shall be signed by the parent or guardian of any worker who is a minor seeking to access a

workplace where the Impairment Policy is in place, as a condition of entry to that workplace. Alternatively, an equivalent letter signed by the parent or guardian can be provided through the minor's employer/host employer.

(b) Where a minor is selected for testing and:

(i) A letter of consent is held, then the provisions of this procedure shall apply; or

(ii) Where a letter of consent is not held, every effort will be made to contact the minor's parents/guardians to get verbal consent to participate in the testing procedure. If consent is given then the normal testing procedures will apply, if contact cannot be made and/or consent is not given then the minor will be excluded from any high risk activities or potentially excluded from site until consent is given.

17 REFUSAL TO TEST

17.1 If a Worker refuses to participate in workplace Drug and Alcohol testing the following will apply:

(a) The Employer, will inform the Worker and the workers chosen representative, that the refusal will have the same consequences as a non-negative result, i.e. that the employee will be deemed to be unfit for work due to the presence of alcohol or drugs;

(b) If the worker still refuses, the Employer and the PIA, shall consult with the worker and the workers chosen representative, regarding the requirements, process and consequences of refusing to test and encourage them to partake in the test. This would be the second request to be tested;

(c) If the worker still refuses, the refusal will be treated as a confirmed positive result, and will be subjected to the relevant consequences of such. All reasonable assistance is to be offered to ensure the employee can make their way from the workplace to a safe location without harm (i.e. taxi, lift from a friend or fellow worker). An agreed leave of absence arrangement is to apply for the duration of their absence.

18 DISCIPLINARY ACTION

18.1 The following sets out the action which may be taken when a worker returns a confirmed positive result to an alcohol or drug test.

18.2 First Occasion -A worker who has received a first confirmed positive test for alcohol or drugs (other than by self-testing) will be:

(a) Required to attend the Support as referred to in this Policy;

(b) Informed of the consequences of testing positive and their obligations to present, or remain in a fit state;

(c) Informed of further disciplinary action and testing requirements should they have a confirmed positive result (alcohol or drug) within the next 12 months.

(b) consult with relevant Employees in relation to resolving the issue

(c) consult with the relevant PCBU (as defined in the WHS Act) about resolving the issue

(d) inspect and take copies of any document that is directly relevant to resolving the issue; and

(e) advise any person whom the representative reasonably believes to be exposed to a serious risk to his or her health and safety, emanating from an immediate and imminent exposure to a hazard of that risk.

11.4 The Nominated Parties and/or their representatives may commence the procedure by informing, either by themselves or their representative, the other Parties and/or representatives that:

(a) there is an issue to be resolved; and

(b) the nature and scope of the issue.

11.5 As soon as the Parties and/or their representatives are informed of the issue, the Nominated Parties and/or their representatives must meet or communicate with each other to attempt to resolve the issue.

11.6 The Nominated Parties and/or their representatives must have regard to all relevant matters including:

(a) the degree and imminent risk to the Employees or other persons affected by the issue.

(b) the number and location of Employees and other persons affected by the issue.

(c) the measures both temporary and permanent that must be implemented to resolve the issue.

(d) who will be responsible for implementing the resolution measures.

(e) whether the hazard or risk can be isolated; and

(f) the time that may elapse before the hazard or risk is permanently corrected.

11.7 Once the issue is resolved details of the issue and its resolution must be set out in writing with all Nominated Parties and/or their representatives to be satisfied that the agreement reflects the resolution of the issue with a copy given to all Nominated Parties and/or their representatives to the issue. The issue, once resolved, shall be recorded in the next safety committee meeting minutes with the agreed resolution.

11.8 The Nominated Parties and/or their representatives must make reasonable efforts to achieve a timely and final resolution of the issue. If within a reasonable time there is still no resolution, any of the Nominated Parties attempting to resolve the issue may then ask Work Health and Safety Queensland, and/or the QBCC, where applicable, to arrange for an inspector to attend the workplace to assist in resolving the issue.

11.9 Direction to cease work

(a) If -

(i) an issue concerning health or safety arises at a workplace or from the conduct of the undertaking of the Employer; and
(ii) the issue concerns work which involves an immediate threat to the health or safety of any person; and
(iii) given the nature of the threat and degree of risk, it is not appropriate to adopt the processes set out in clause 11.7 above

(b) the Employer and/or the health and safety representative for the designated work group in relation to which the issue has arisen may, after consultation between them, direct that the work is to cease.

(c) During any period for which work has ceased in accordance with such a direction, the Employer may assign any Employees whose work is affected to suitable and safe alternative work.

11.10 Fundamental to this process is a standing invitation for Union representatives to attend site to assist with all matters relating to health and safety.

11.11 Employees are not required to work in circumstances where the employee or a Union representative reasonably believes a safety law is being, or will be, contravened. Consultation between the relevant parties will occur throughout this procedure including with senior representatives of the Employer and the Union.

12. HEALTH AND SAFETY REPRESENTATIVES

12.1 The Employer and its Employees will comply with Part 5 of the WHS Act – Consultation, representation and participation in relation to the establishment of a health and safety committee. To ensure a timely resolution of issues in relation to WHS, all parties may be represented on the health and safety committee.

12.2 A standing invitation will exist for the Union to assist in the voting up of Health and Safety Representatives and the forming of safety committees. Health and safety representative/s (HSR) shall be elected by the Employees on the job, via a show of hands vote conducted by a representative of the Union and shall be subject to recall by a similar process.

12.3 Parties covered by this Agreement recognise the important role of HSRs. The HSRs have a key role in the early intervention in health and safety issues under this Agreement.

12.4 The HSRs shall be allowed to consult with the PCBUs, Unions, principal contractor or persons acting on his/her behalf, on matters directly concerned with the safety of workers, and promote the safe conduct of work generally.

13. HEALTH AND SAFETY REPRESENTATIVE MEETINGS

13.1 A health and safety representative will be allowed reasonable paid time during working hours to attend occupational health and safety matters, including meetings affecting employees they represent, providing that the Representative informs their manager.

14. HOT WEATHER GUIDELINES

14.1 Under this Agreement when air temperature reaches:

(a) 35°C; or

(b) 29°C and 75% humidity or more after three hours from commencement of each trades shift in southeast Queensland, it shall constitute inclement weather (Extreme Hot Weather).

14.2 This definition will be subject to review in other regions. This clause 14 must be incorporated in the Employer's OHS Procedures for all applicable Projects.

14.3 Before finishing work, Employees must be alerted to possible Extreme Hot Weather forecasted for the following day by the PCBU, Site manager, and HSRs. This will allow preparation for works to be modified to reduce this category of heat exposure in accordance with clause 14.1. For forecasting, planning and guidance the Bureau of Meteorology (BOM) shall be used for weather observations. Monitoring heat on the day will be done with a calibrated wet bulb thermometer.

14.4 When Extreme Hot Weather is forecasted for the following day, the Employer's Site Manager, WHS Committee and WHS Representatives will consult and determine what actions are to be taken to reduce exposure and modify the program and/or workload prior to the Extreme Hot Weather, which may include:

(a) rescheduling work so that certain tasks are performed during the cooler part of the day, or on another day

(b) reducing the time spent doing hot tasks (for example, by job rotation)

(c) arranging for more workers to do the job

(d) providing extra rest breaks in a cool area

(e) providing cool drinking water and ice (machines) near the work site

(f) increasing air movement by fans or coolers

(g) installing shade cloth to reduce radiant heat from the sun

(h) consideration must be given to working an eight-hour day.

14.5 Once the temperature reaches extreme levels, as defined in clause 14.1 the following process will be followed:

(a) Where the temperature reaches 35°C, there will be an orderly cessation of work and preparations for safe completions of critical tasks currently under way and/or applicable modifications to the program and workload as described in clause 14.4.

(b) where the temperature is 29°C and 75% humidity or more after three hours from the commencement of a shift, there will be an orderly cessation of work and preparations for safe completions of critical tasks currently under way and/or applicable modifications to the program and/or workload as described in clause 14.4.

14.6 If there are areas of the workplace that are below any Extreme Hot Weather, work shall continue as normal in those areas. Employees unable to work elsewhere may be transferred to these areas below the extreme levels if work is available. Employees may walk a reasonable distance through areas effected by extreme hot weather to and from amenities, provided it does not pose an imminent risk to their health or safety. The primary objective is to ensure that

there is no reasonable concern for an Employee undertaking work of an imminent risk to their health or safety.

14.7 Extreme Hot Weather shall be measured on site by a temperature gauge compliant to Australian Standards and shall be undertaken in accordance with the manufacturer's operating instructions. The Parties agree that a measurement taken using the Wet Bulb in Globe Temperature index mode will not be used. Wet bulb thermometers will be used in temperature mode and then humidity mode separately and combined will be an acceptable method of measuring extreme hot weather. It is the responsibility of the PCBU to implement these guidelines.

14.8 The PCBU shall supply a Wet Bulb Thermometer for each job and depot.

15. AIR QUALITY PROCEDURE

Definitions

Acceptable Air Quality

15.1 Air Quality Index (AQI) is categorized as good to extremely poor by the Queensland Department of Environment and Science.

15.2 PM2.5 are tiny particles in the air that reduce visibility and cause air to appear hazy when levels are elevated. They can by carcinogenic, as advised by the World Health Organisation. Where possible, PM2.5 readings shall be the preferred test for acceptable air quality.

Measuring of air quality

15.3 Measuring of air quality will be done through either of the following, in agreement between the parties:

(a) The Department of Environment and Science web site (des.qld.gov.au) using the closest station to the work site (see instruction below).

(i) Click on environment.

(ii) Go to Our Environment and click on air.

(iii) Click on live air data.

(iv) Scroll down and view closest Station to the job site.

(v) Refer to Air Quality Procedure (15.9 below).

(b) Where site-based monitoring is undertaken it shall take precedence over measurements from The Department of Environment and Science web site. Devices shall be certified to the Australian Standards AS3580 and operated by a competent person (e.g. occupational hygiene technician).

Bushfire smoke

15.4 Bushfire smoke is a mixture of different-sized particles, water vapor and gases, including carbon monoxide, carbon dioxide and nitrogen oxides. During bushfires and similar events, large amounts of finer particles are released that are small enough to breathe deep into the lungs and can cause adverse health effects. These chemicals are known "Cancer Causing Agents".

15.5 During bushfires and similar events, the Employer must verify that their work area is within a safe range for air quality as defined by the Queensland Department of Environment and Science.

Air Quality Procedure

15.6 The PCBU, Site Manager and WHS Reps must alert workers the day before extreme or excessive poor air quality conditions are expected.

15.7 After three consecutive hours of POOR air quality above 50µG per/m3, there will be an orderly cessation of work and preparation for safe completion of critical tasks. Unaffected work areas will be monitored and continue without disruption.

15.8 Once the air quality index reaches 75µG per/m3 there will be an immediate cessation of work with only safe completion of critical tasks allowable. Unaffected work areas will be monitored and continue without disruption.

15.9 Inclement weather provisions of the Award shall be invoked. To be clear, all the provisions contained in clause 24 of the Award shall apply in instances of poor air quality, including 24.14.

15.10 All air quality related incidents are to be reported to the employer, site safety coordinator, WHS Committee and any relevant employee representative`s immediately.

Fit testing

15.11 The accepted method of fit testing of RPE is Quantitative fit testing.

(a) Quantitative fit testing will only be done with reusable half face RPE. It is an essential step in the RPE selection process and allows a PCBU to determine if the specific make and model of RPE is a suitable size, fit and comfort for the worker who is going to use it..

(b) Quantitative fit-testing is a much more effective way to fit-test RPE, as it doesn't depend on tasting or smelling a test agent. For this reason, the PCBU must make sure quantitative fit-testing is used for all RPE.

16. INCLEMENT WEATHER

16.1 The parties are committed to working together to minimize the impact of inclement weather. The employer will ensure reasonable allowance is included in contracts taking into account historic weather conditions and forecast rainfall.

16.2 Inclement weather means the existence of rain or abnormal climatic conditions (whether hail, extreme cold, high wind, severe dust storm, extreme heat (as defined in clause 14), poor air quality (as defined in clause 15), or the like or any combination of these conditions) where it is not reasonable or it is unsafe for employees to continue working in those conditions.

16.3 The employer or its representative, when requested by the employees or their representative, must confer within a reasonable time (which does not exceed 60 minutes) for the purpose of determining whether or not the conditions referred to in clause 16.2 apply.

16.4 The time work stops due to inclement weather and the resumption of work after a period of inclement weather has ended will be recorded by the employer.

16.5 When inclement weather conditions exist, an affected employee is not required to start or continue to work where it is unreasonable or unsafe to do so. In cases where emergency work is required or it is necessary to complete a concrete pour already commenced to a practical stage, work may occur or continue provided that such work does not give rise to a reasonable concern on the part of an employee undertaking the work of an imminent risk to their health or safety.

16.6 Where emergency work or a concrete pour is completed in accordance with clause 16.5, work will be paid at the rate of 200% of the ordinary hourly rate calculated to the next hour, and in the case of wet weather, the employee will be provided with adequate wet weather gear. If an employee's clothes become wet as a result of working in the rain the employee will be allowed to go home for the remainder of the day without loss of pay.

16.7 Where an employee is not able to perform any work at any location because of inclement weather, the employee will receive payment at the ordinary hourly rate for ordinary hours. Payment for time lost due to inclement weather is subject to a maximum of 32 hours pay in any 4-week period for each employee. Payment is subject to adherence to the terms of clause 16.

16.8 An employee working on a Job Share arrangement pursuant to clause 30—Job Share, that is affected by inclement weather, will be entitled to payment from the 32-hour inclement weather bank on a pro rata basis.

16.9 Employees accumulated inclement weather bank shall not be deducted whilst they remain on site.

16.10 Inclement weather occurring during overtime will not be taken into account for the purposes of clause 16 and employees will not be entitled to any payment for stoppages because of inclement weather that occurs outside of ordinary hours.

16.11 Employees on a portion of a site not affected by inclement weather must continue to work even though employees working on other areas of the site may have stopped work because of inclement weather.

16.12 Subject to the availability of alternative work in an employee's classification, an employer may require employees to transfer:

(a) from a location on a site where it is unreasonable and/or unsafe to work because of inclement weather, to another area on the same site, where it is reasonable and safe to work; and/or

(b) from a site where it is unreasonable and/or unsafe to work because of inclement weather, to another site, where it is reasonable and safe to work, and where the employer, where necessary, provides transport.

Inclement weather procedure

16.13 Remaining on site where, because of inclement weather, the employees are prevented from working:

(a) for more than an accumulated total of 4 hours of ordinary time in any one day; or

(b) after the main meal break, for more than half of the ordinary work time; or

(c) during the final 2 hours of the normal workday for more than an accumulated total of one hour;

the employer will not be entitled to require the employees to remain on site beyond the expiration of any of the above circumstances. However, where genuine training has been agreed in writing between the parties, then the course maybe completed in extraordinary circumstances.

Rain at Starting Time

16.14 Where the employees are in the sheds, because they have been rained off, or because it is at starting time, morning tea, or lunch time, and it is raining, they will not be required to go to work in a dry area or to be transferred to another site unless:

(a) the rain stops; or

(b) a covered walkway has been provided; or

(c) the sheds are under cover and the employees can get to the dry area without going through the rain; or

(d) adequate protection is provided.

16.15 Protection must, where necessary, be provided for the employees' tools.

Dewatering

16.16 All sites will develop a Dewatering Plan through consultation with the Union, HSRs, Safety Committee and the site Contractors.

16.17 This plan will:

(a) Outline appropriate dewatering strategies, hydraulic engineering solutions and Dewatering Crew requirements

(b) Require relevant HSR`s to assess the areas in a staged sequence giving priority to accessways

(c) Commence dewatering activities and open areas progressively once dewatering is complete

(d) Including staggered meal breaks of the Dewatering Crew and Safety Committee

(e) Outline minimum requirements of PPE and dewatering tools/equipment

(f) The Dewatering plan will be reviewed and updated on a reasonable basis depending on job type, size, constitution etc.

(g) Plans for work activities (including agreed training) to take place in dry areas during periods of inclement weather

16.18 All Contractors will supply adequate manpower for the site Dewatering Crew as per the Dewatering Plan.

16.19 Mitigation strategies such as, but not limited to, the following should be considered where reasonably practicable;

(a) falls to slabs which are exposed to elements for extended periods of time

(b) additional drainage outlets to slabs

(c) integrated into jump or standalone retractable roof over stair/lift cores

16.20 Employees on the Dewatering Crew will remain on site in the instances the rest of the site has gone home only for the purpose of dewatering the site to maximise the potential for the site to be reopened the following day. These employees will be paid a disability allowance of double time for all hours worked once the site has gone home.

17. ADDITIONAL OCCUPATIONAL HEALTH AND SAFETY MATTERS

Personal Protective Equipment

17.1 The following clothing will be supplied to all Employees after consultation with Delegate. Where an Employee has not sought replacement of any of the abovementioned items on a fair wear- and-tear basis within twelve months from the date of issue, then that Employee will be entitled to a re-issue of the items at the completion of those twelve months.

17.3 All items will comply with the relevant Australian Standards. The clothing selected will need to be breathable, be light weight, UV stable, have a high visibility quality, and have the maximum UPF rating. The Employer undertakes to source Australian made clothing and equipment, in so far as it is possible.

17.4 No agreement to pay cash in lieu of supply of clothing/footwear is permitted.

17.5 When the Employer requires an Employee to wear spectacles with toughened glass lenses the Employer will pay the cost of the toughening process.

APPENDIX 4 – IMPAIRMENT POLICY

1. PRINCIPLES

1.1. The health, wellbeing and safety of employees are of paramount importance to the employer, employees and their Unions. This policy is part of a broad work, health and safety (WHS) program to secure the highest level of health and safety in the workplace.

1.2. The policy adopts a WHS approach that involves identifying, assessing and controlling all workplace hazards, using the hierarchy of control, and then reviewing these controls to ensure ongoing improvements.

1.3. The focus of this policy is on the WHS risks associated with impairment and should be read in conjunction with other company policies concerning health and safety, particularly in relation to fatigue management, risk management and safe systems of work.

1.4. This policy has been compiled in a manner that is non-punitive and supportive of employees. This policy shall not be used in a discriminatory manner. Anti-Discrimination Law protects against discrimination on the basis of addiction and may also protect against discrimination on the basis of impairments caused by drug and alcohol addiction or use.

1.5. The policy and procedures adopt a peer based intervention approach based on fairness and equity for all employees.

2. SCOPE

2.1. This policy will apply to all employees (including managers and supervisors), contractors and labour hire staff. The policy applies to these groups at all times when they are engaged in company business, whether on or off site and when driving company vehicles.

3. STRUCTURE

The Impairment Policy is categorised in order with the intended implementation:

3.1. Training & Awareness

(a) Extensive research has shown training and awareness of impairment related issues provides the most effective means of behavioral change and encourages better decision making. The two types of training in accordance with this policy to do this are:

(i) Workplace Impairment Training (WIT) - all workers onsite will do this training;

(ii) Preliminary Impairment Assessment (PIA) - HSRs, delegates and the PC's safety staff will undertake this training.

3.2. Testing

Testing for drugs and alcohol is used to support and measure the results of the education and awareness program.

3.3. Support Services

Rehabilitation, counselling and EAP's. Support is strictly non- punitive, and can be accessed at anytime (self-identification of the need for help is strongly encouraged).

4. OBJECTIVES

4.1. The objectives of this policy are as follows:

(a) To provide a safe and healthy working environment for all workers;

(b) To work collaboratively in the implementation and co-ordination of this policy with employees, employers and their elected representatives to achieve the objectives of this policy;

(c) To eliminate and control risks which may lead to impairment affecting health and safety in the workplace;

(d) To ensure that there is a mechanism for managing impairment at work that is transparent, objective and in accordance with the purpose of this policy;

(e) To ensure that all persons are provided with adequate information and education on the health and safety issues surrounding impairment, and on the operation of this policy;

(f) To ensure that employees have access to rehabilitation, support and counselling of their choice on a voluntary basis that is independent, professional and confidential, without jeopardising their employment;

(g) To ensure confidentiality of information concerning the application of this policy to a worker is maintained.

Less than 30 workers at a workplace	Confirmed positive results in 2 consecutive tests at the same workplace	Testing of 20% of workforce
30-100 workers at a workplace	Confirmed positive results for 3 or more workers in 2 consecutive testing rounds at the same workplace	Testing of 10 workers
Greater than 100 workers	Confirmed positive results for 6 or more workers in 2 consecutive testing rounds at the same workplace	Testing of 20 workers

12.5. The increased testing requirements shall continue until no Confirmed Positive test results are recorded for 2 consecutive testing periods.

12.6. Other jobs

On jobsites/workplaces where there is no Commonwealth contribution testing frequency will be agreed upon by mutual consent by the PC/Employer and the Union. Testing requirements will remain the same for all jobsites.

13. PRESCRIBED MEDICATIONS

13.1. Workers that are taking Prescribed Drugs or Pharmacy Only Drugs that they believe could register a positive test result should inform the Authorised Testing Agent prior to undergoing any requested test

13.2. If a Worker fails to declare that they are taking Prescribed Drugs or Pharmacy Only Drugs before being tested and they record a Non Negative Result Initial Test result, a post test declaration will not be considered relevant to the result and the Worker will be excluded from duty for the remainder of the shift, subject to a Confirmatory Test.

13.3. Workers who record a Non Negative Result Initial Test result will be excluded from their work duties and the workplace until a Confirmatory Test result has been received.

13.4. If that confirmatory result is a Positive Result Confirmatory Test, then:

(a) The terms and conditions of the applicable industrial agreement shall be observed in relation to consultation and consequence management action.

13.5. When a confirmatory test result is negative or the result recorded is less than the target level or is consistent with a level expected from therapeutic use of a Prescribed Drug or Pharmacy Only Drug, which was advised by the Worker, then the test result shall be considered a Negative Result Initial Test for the purpose of any consequence management action

13.6. Where a Worker is excluded from the workplace as a result of a Non Negative Result Initial Test for Drugs and the confirmatory test is positive for a Pharmacy Only or Prescription Drug, the following factors would normally be considered in deciding when it is appropriate to allow a worker to return to the workplace and/or return to normal duties:

(a) Whether the worker declared the medication during the pre-test interview with the Designated Collector or Authorised Testing Agent;

(b) The level of the medication detected is consistent with therapeutic use;

(c) Written advice from the worker's doctor advising that the medication is required to treat a medical condition; and

(d) The medication will not affect the worker's ability to perform the inherent requirements of their job - i.e. they are fit for work.

14. SPECIAL CIRCUMSTANCES FOR PRESCRIPTION MEDICATION

14.1. A Worker participating in a treatment plan for a medical condition, managed by a Registered Medical Practitioner and involving a Prescribed Drug/Only Drug could result in a Non Negative Result Initial Test if they are selected for Drug and Alcohol testing.

14.2. If in the above circumstance a Non Negative Result Initial Test occurs, and provided that the Worker has:

(a) Declared their use of the Prescribed Drug/Pharmacy Only Drug in a letter less than 12 months old from a registered medical practitioner before the commencement of testing; and

(b) Declared their use of the Prescribed Drug/Pharmacy Only Drug to the Authorised Testing Agent or Designated Collector before the commencement of testing;

(c) Then the Non Negative Result Initial Test result shall be recorded at the workplace and a second sample of oral fluid shall be taken and sent for confirmatory testing. The worker shall be allowed to remain at work but must be precluded from high risk construction work activity until the result of the confirmatory test is known.

14.3. Where the results of the confirmatory test identify the Prescribed Drug/Pharmacy Only Drug declared and the levels are consistent with that prescribed by the prescribed medical practitioner, then a Negative Result shall be recorded and no results retained.

14.4. Where the results of the confirmatory test identify the Prescribed Drug/Pharmacy Only Drug declared and the levels are not consistent with that prescribed by the Registered Medical Practitioner or another drug(s) type is recorded then a positive result confirmatory test shall be recorded.

14.5. Where the Worker has not provided both declarations contained within this part then the Worker shall be excluded from the workplace until the results of the confirmatory test are known.

15. **TESTING RESULTS**

15.1. Alcohol

(a) A worker who returns a negative alcohol test will be allowed to return to work with no record of the test kept. A worker who returns a positive result for alcohol (above 0.00mg/ml) will be deemed not fit work and will not be permitted to return to work;

(b) When a worker tests positive to alcohol in their system the workers blood alcohol concentration (BAC) may be decreasing or it may be increasing. In the interests of safety the Workers will be directed to remain within the testing vicinity and they will be re-tested no sooner than 60 minutes after the original test;

(c) If the second test result is 0.000% the test will be regarded as negative and the Worker may return to normal duties. A Positive Result Confirmatory Test will not be recorded in these circumstances;

(d) If the later confirmatory test indicates a BAC of greater than 0.000% a Positive Result Confirmatory Test will be recorded;

(e) Alcohol testing shall be carried out by an Authorised Testing Agent agreed upon by the PC/Employer and the Union. The following steps shall be undertaken:

(i) Details of the identity of the Worker to be tested shall be recorded including the workplace name, work area and their employer will be listed on a drug and alcohol testing record form by the independent Authorised Testing Agent:

(ii) Workers with a BAC of greater than zero (greater than 0.000%) shall discontinue any work activities and shall be directed to undertake a second test sixty (60) minutes after the first test and the results recorded on a Drug and Alcohol Testing record Form by the independent Authorised Testing Agent:

(iii) Where the second test indicates a level greater than 0.00% BAC the Worker will be further excluded from work duties for the remainder of the shift;

(iv) Where a Worker is to be sent home using their own transport this shall only be permitted if the blood alcohol concentration test result is below that prescribed

by applicable road transport legislation and has been determined as not rising for that Worker.

(v) Note: If the Worker's blood alcohol concentration result is greater than or equal to 0.05% BAC, all reasonable assistance is to be afforded to ensure an affected Worker can make their way from the Workplace to a safe location without harm (e.g. taxi, lift from a friend or Supervisor).

(vi) Contractors will be responsible for the management/arrangements for their employees in accordance with their own employment arrangements.

(vii) Any Worker that is excluded from work duties for the remainder of a shift or sent home, must, before commencing work for their next shift undertake an alcohol breath test prior to commencing that shift. If the results are negative (0.00mg/ml) the Worker shall be allowed to commence work. If the Worker returns a positive test they will not be allowed to commence work, hence page 12 of this document, 15.1 Alcohol- d) will apply.

15.2. Drugs

(a) A worker who returns a negative test will be allowed to return to work. A worker who returns a non-negative test result from their initial test (equal to or above the relevant cut-off levels of the substances referred to in AS 4760) will be deemed not fit for work and will not be allowed to return to work. (Benzodiazepine level to be provided by the prescribed testing laboratory);

(b) Drug testing will be administered by the collection and analysis of an oral fluids specimen (saliva). Before conducting a drug test, the process used by the independent Authorised Testing Agent must be explained to the Worker providing the saliva sample;

(c) Collecting and testing of saliva specimens shall be carried out by an Authorised Testing Agent, agreed upon by the PC/Employer and the Union, and confirmatory testing is to be carried out by a NATA accredited laboratory;

(d) A Confirmatory Test will be required where a Non Negative Result Initial Test is recorded at the initial test. The handling of specimens taken for confirmatory testing is detailed in the process used by the Authorised Testing Agent and must be completed to Australian Standards;

(e) Any worker attending the workplace under the influence of drugs or alcohol will be prohibited from entry. A worker returning to the workplace following their exclusion for a Positive Result Confirmatory test will be required to submit to a drug and alcohol test prior to commencing work and receive a Negative Result Initial Test for Drugs or Alcohol prior to commencing work.

16. **FORMS OF TESTING**

16.1. Self-Testing

(a) The PC/Employer shall be required to provide sufficient self-testing facilities for alcohol and/or drugs for up to 10% of the workforce;

(b) Where self-test facilities are made available voluntary or self-testing for alcohol will be available for Workers prior to presenting for work. A wall mounted breathalyser (optional) will be located in an area that provides for discrete privacy for the worker, whilst completing the test so the test results cannot be inadvertently observed and disclosed to other parties;

1212
COM.0002.0010.9174_0073

(c) A Worker undertakes self-testing at his/her own accord; therefore, no test details are recorded. However, all Workers have obligations under the Work Health and Safety Act or equivalent occupational health and safety or occupational safety and health legislation in other States or Territories and must not wilfully place at risk their health and safety or the health and safety of other Workers or people at the workplace by commencing work if they believe they're impaired.

16.2. Random Shift Testing

(a) In terms of Random Shift Testing it is in imperative that the PC/Employer and the Union do not know on what day, or at what time the Authorised Testing Agent will conduct the tests;

(b) It is a condition of entry for all Workers at any workplace to comply with any request to participate in random Drug and Alcohol testing as a condition of employment or contract. This means that all Workers attending or seeking to attend a workplace will be eligible for testing;

(c) Testing for Alcohol or other Drugs for Workers shall be mandatory and will be undertaken at any time throughout the Worker's hours of work (including overtime) or at any time whilst at the workplace;

(d) Individual Workers will be selected for drug testing using a simple random selection process. A random draw will be conducted using an Authorised Testing Agent independent software to randomise the selection of Workers for testing;

(e) The random selection process includes the selection of Workers from across the entire workplace subject to the testing;

(f) A Worker selected for testing will be required to present themselves for testing within a reasonable time. Random shift testing shall be conducted in a room which provides for privacy for the selected worker during testing; the requirements for this room are outlined in the Room Requirements section of this policy.

16.3. For Cause Testing

(a) An employer/supervisor may only request an employee to undertake for cause testing if:

(i) The employee has been involved in an accident or incident, or had the potential to, cause:

(ii) serious and major damage to mobile plant or property; or

(iii) an injury to themselves or other individual(s);or

(iv) Participation in a relevant and specific industry focus area when the worker is undertaking High Risk Work as identified by the employer and consistent with OHS legislation. Workers will be selected for testing using a random selection process nominated by the employer following a consultation process in line with OHS legislation.

16.4. Post Incident Testing

(a) After the occurrence of a significant incident/event at a workplace, all Workers involved in the incident may be required to undergo an initial Drug and Alcohol test.

(b) Where a Worker(s) is to be tested following a significant incident/event they shall be supervised by an Employer Representative and Employee Representative continually from the time of the incident until they have completed all testing required.

(c) Post Incident Testing will be conducted as soon as practical after the incident/event and when it is safe to do so.

(d) An injured Worker who requires immediate medical attention may only be tested when it is appropriate and safe to do so. This will be determined by the Construction Manager, the HSR, Delegate and the relevant PIA in consultation with the attending medical practitioner. In such cases, where testing can be conducted while under medical care, a saliva testing process will be used.

16.5. Reasonable Concern Testing

Alternatively, an equivalent letter signed by the parent or guardian can be provided through the minor's employer/host employer.

(b) Where a minor is selected for testing and:

(i) A letter of consent is held, then the provisions of this procedure shall apply; or

(ii) Where a letter of consent is not held, every effort will be made to contact the minor's parents/guardians to get verbal consent to participate in the testing procedure. If consent is given then the normal testing procedures will apply, if contact cannot be made and/or consent is not given then the minor will be excluded from any high risk activities or potentially excluded from site until consent is given.

17. **REFUSAL TO TEST**

17.1. If a Worker refuses to participate in workplace Drug and Alcohol testing the following will apply:

(a) The Employer, will inform the Worker and the workers chosen representative, that the refusal will have the same consequences as a non-negative result, i.e. that the employee will be deemed to be unfit for work due to the presence of alcohol or drugs;

(b) If the worker still refuses, the Employer and the PIA, shall consult with the worker and the workers chosen representative, regarding the requirements, process and

consequences of refusing to test and encourage them to partake in the test. This would be the second request to be tested;

(c) If the worker still refuses, the refusal will be treated as a confirmed positive result, and will be subjected to the relevant consequences of such. All reasonable assistance is to be offered to ensure the employee can make their way from the workplace to a safe location without harm (i.e. taxi, lift from a friend or fellow worker). An agreed leave of absence arrangement is to apply for the duration of their absence.

Appendix Four
Impairment Policy

APPENDIX FOUR – IMPAIRMENT POLICY

1 PRINCIPLES

1.1 The health, wellbeing and safety of employees are of paramount importance to the employer, employees and their Unions. This policy is part of a broad work, health and safety (WHS) program to secure the highest level of health and safety in the workplace.

1.2 The policy adopts a WHS approach that involves identifying, assessing and controlling all workplace hazards, using the hierarchy of control, and then reviewing these controls to ensure ongoing improvements.

1.3 The focus of this policy is on the WHS risks associated with impairment and should be read in conjunction with other Employer policies concerning health and safety, particularly in relation to fatigue management, risk management and safe systems of work.

1.4 This policy has been compiled in a manner that is non-punitive and supportive of employees. This policy shall not be used in a discriminatory manner. Anti-Discrimination Law protects against discrimination on the basis of addiction and may also protect against discrimination on the basis of impairments caused by drug and alcohol addiction or use.

1.5 The policy and procedures adopt a peer based intervention approach based on fairness and equity for all employees.

2 SCOPE

2.1 This policy will apply to all employees (including managers and supervisors), contractors and labour hire staff. The policy applies to these groups at all times when they are engaged in Employer business, whether on or off site and when driving Employer vehicles.

3 STRUCTURE

The Impairment Policy is categorised in order with the intended implementation:

3.1 Training & Awareness

(a) Extensive research has shown training and awareness of impairment related issues provides the most effective means of behavioural change and encourages better decision making. The two types of training in accordance with this policy to do this are:

(i) Workplace Impairment Training (WIT) - all workers onsite will do this training;

(ii) (ii) Preliminary Impairment Assessment (PIA) - HSRs, delegates and the PC's safety staff will undertake this training.

3.2 Testing

Testing for drugs and alcohol is used to support and measure the results of the education and awareness program.

3.3 Support Services

Rehabilitation, counselling and EAP's. Support is strictly non- punitive, and can be accessed at any time (self-identification of the need for help is strongly encouraged).

4 OBJECTIVES

The objectives of this policy are as follows:

(a) To provide a safe and healthy working environment for all workers;

(b) To work collaboratively in the implementation and co-ordination of this policy with employees, employers and their elected representatives to achieve the objectives of this policy;

(c) To eliminate and control risks which may lead to impairment affecting health and safety in the workplace;

(d) To ensure that there is a mechanism for managing impairment at work that is transparent, objective and in accordance with the purpose of this policy;

(e) To ensure that all persons are provided with adequate information and education on the health and safety issues surrounding impairment, and on the operation of this policy;

(f) To ensure that employees have access to rehabilitation, support and counselling of their choice on a voluntary basis that is independent, professional and confidential, without jeopardising their employment;

(g) To ensure confidentiality of information concerning the application of this policy to a worker is maintained.

5 RESPONSIBILITIES

5.1 The employer shall:

(a) Provide a work environment that is safe and without risks to health and safety;

(b) Provide information about the testing requirements to all existing employees, contractors and labour hire staff and to all new staff at the point of induction;

(c) Ensure that this policy is implemented fairly and equitably across all sections of the workforce;

(d) Comply with the four policy implementation steps outlined below;

(e) Have adequate resources (e.g., a room that allows for confidential impairment assessments to be discussed, if necessary, suitable transport to safely remove impaired employees from the workplace to be able to meet the objectives of this policy.

5.2 Employees shall:

(a) Co-operate reasonably with the employer in the implementation of this policy;

(b) If any employee reasonably believes that any person on the site may be a health and safety risk to themselves or others they should inform their employer and their relevant Preliminary Impairment Assessor (PIA) of this belief;

(c) Not possess, consume, or be under the influence of, alcohol or other drugs while working;

(d) Ensure that they do not work, if they believe that they may be impaired;

(e) Consult their doctor or pharmacist about possible side effects of using prescribed or over-the-counter medication;

(f) Inform their employer and their Preliminary Impairment Assessor (PIA) if they have been made aware by their treating doctor or pharmacist of possible impairment as a side effect of medication, or if they feel impaired by medication.

6 POLICY IMPLEMENTATION WILL INVOLVE THE FOLLOWING STEPS.

6.1 PC/Employer and Union shall agree on a policy start date.

6.2 Engagement of an agreed training and rehabilitation/treatment service providers.

6.3 Provision of on-going Workplace Impairment Training (WIT) and Preliminary Impairment Assessors training (PIA).

6.4 Ongoing promotion of this policy

A purpose of the policy and procedure is to provide protocols and procedures for workplace alcohol and other drug testing that are evidence-based, consistent with best practice, comply with relevant Australian Standards, and contribute to workplace safety and worker wellbeing.

6.5 The following drug and alcohol testing programs will be adopted:

(a) Self-testing;

(b) Random Shift testing;

(c) For-cause testing;

(d) Post-incident testing;

(e) Reasonable concern testing;

(f) Testing of Minors.

6.6 Any employee who is assessed as being impaired shall be advised to contact the rehabilitation/treatment provider.

6.7 The employee will be permitted to access personal leave in the first instance and then take accrued personal leave entitlements for the period of time they are accessing the treatment provider.

6.8 With the endorsement/acceptance of the Impairment Policy the Principle Contractor (PC) will undertake to not pass the implementation and cost of drug and alcohol testing to its subcontractors.

6.9 It will also ensure compliance with this policy as follows:

(a) Subcontractors will be contractually required to comply with this procedure as a condition of contract/EBA;

(b) All direct employees of the PC as a condition of their employment must agree to adhere to the terms and conditions of the impairment policy.

(b) Training is not to be conducted in a lunchroom, unless there are multiple lunchrooms on site and:

(i) the training session will not interfere with workers wanting to use the room for smoko or lunch; or

(ii) the training session will not be interfered with by workers wanting to use the room in general.

8.8 No worker can be tested for drugs and/or alcohol unless they have been trained in this policy.

9 TESTING METHODS

9.1 Alcohol Testing Method

Alcohol testing must only be done by use of an Accredited Breath Test device. The device must be calibrated and meet the minimum requirements of AS3547.

9.2 Drug Testing Method

(a) Drug testing may only be performed by oral fluid testing;

(b) The equipment used to perform the test shall be used, tested and calibrated to the manufacturer's instructions and certified to AS 4760 (Process for specimen collection and the detection and quantitation of drug in oral fluid);

(c) The drug testing shall be conducted by an accredited person, following all of the chain of custody provisions;

(d) The test must be performed in accordance with AS 4760 (Procedures for specimen collection and the detection and quantitation of drugs in oral fluid).

9.3 As part of this policy with regards to Drug and Alcohol testing the following substances must be tested for:

(a) Alcohol;

(b) Opiates;

10.5 Before the Authorised Testing Agent is engaged to be the sample collector for the principle contractor all relevant stakeholders must be engaged to make sure there is no conflict of interest and that they are totally independent. If a conflict of interest exists, or should arise, the Authorised Testing Agent must report it immediately.

11 ROOM REQUIREMENTS

11.1 Each workplace shall have a room nominated for use to undertake drug and alcohol testing consistent with this procedure. This room will not normally be the first aid room at a workplace unless a workplace has multiple first aid rooms and the use of a first aid room for the purpose of drug and alcohol testing will not affect the ability of the workplace to respond to a first aid incident.

11.2 The room selected for use must so far as reasonably practicable:

(a) Provide privacy for the Worker being tested including but not limited to:

(i) Have a closing door;

(ii) Not allow for casual visual observation of the testing process by other Workers external to the room e.g. through glass windows;

(iii) Not allow conversations to be casually overheard by other workers;

(b) Be clean and hygienic;

(c) Be free from interruption whilst testing is being undertaken;

(d) Include discrete entry and exit.

12 TESTING REQUIREMENTS

12.1 Code compliant workplaces -

On workplaces where the value of the Commonwealth's contribution to the project that includes the building work is at least $5,000,000, and represents at least 50% of the total construction project value

or the Commonwealth's contribution to the project that includes the building work is at least $10,000,000 (irrespective of its proportion of the total construction project value) the following minimum testing requirements must be adhered to.

12.2 Alcohol - on the day of testing all workers onsite shall be required to submit a breath sample i.e. blanket testing.

12.3 Drugs -As a minimum, frequent periodic testing (at least once per month where required by law, at intervals required by the client or by mutual agreement by the PC/employer and the Union) of the workforce (both construction Workers and site office Workers) will be as follows:

(a) where there are less than 30 Workers at a workplace - at least 10% of the workforce;

(b) where there 30 to 100 Workers at a workplace - a minimum of 5 Workers; and

(c) where there are greater than 100 Workers at a workplace - a minimum of 10 Workers;

(d) The frequency of testing and the number of workers selected shall be increased in line with the escalation below where test results meet the criteria indicated:

Number of Workers	Criteria	Action
Less than 30 Workers at a workplace	Confirmed Positive results in 2 consecutive tests at the same workplace	Testing of 20% of workforce
30 to 100 Workers at a workplace	Confirmed Positive results for 3 or more workers in 2 consecutive testing rounds at the same workplace	Testing of 10 workers
Greater than 100 Workers at a workplace	Confirmed Positive results for 6 or more workers in 2 consecutive testing rounds at the same workplace	Testing of 20 workers

12.4 The increased testing requirements shall continue until no Confirmed Positive test results are recorded for 2 consecutive testing periods.

12.5 Other jobs

On jobsites/workplaces where there is no Commonwealth contribution testing frequency will be agreed upon by mutual consent by the PC/Employer and the Union. Testing requirements will remain the same for all jobsites i.e. blanket alcohol and code requirements for drug testing.

13 PRESCRIBED MEDICATIONS

13.1 Workers that are taking Prescribed Drugs or Pharmacy Only Drugs that they believe could register a positive test result should inform the Authorised Testing Agent prior to undergoing any requested test

13.2 If a Worker fails to declare that they are taking Prescribed Drugs or Pharmacy Only Drugs before being tested and they record a Non Negative Result Initial Test result, a post test declaration will not be considered relevant to the result and the Worker will be excluded from duty for the remainder of the shift, subject to a Confirmatory Test.

13.3 Workers who record a Non Negative Result Initial Test result will be excluded from their work duties and the workplace until a Confirmatory Test result has been received.

13.4 If that confirmatory result is a Positive Result Confirmatory Test, then:

(a) The terms and conditions of the applicable industrial agreement shall be observed in relation to consultation and consequence management action.

13.5 When a confirmatory test result is negative or the result recorded is less than the target level or is consistent with a level expected from therapeutic use of a Prescribed Drug or Pharmacy Only Drug, which was advised by the Worker, then the test result shall be considered a Negative Result Initial Test for the purpose of any consequence management action

13.6 Where a Worker is excluded from the workplace as a result of a Non Negative Result Initial Test for Drugs and the confirmatory test is positive for a Pharmacy Only or Prescription Drug, the following factors would normally be considered in deciding when it is appropriate to allow a worker to return to the workplace and/or return to normal duties:

(a) Whether the worker declared the medication during the pre-test interview with the Designated Collector or Authorised Testing Agent;

(b) The level of the medication detected is consistent with therapeutic use;

(c) Written advice from the worker's doctor advising that the medication is required to treat a medical condition; and

(d) The medication will not affect the worker's ability to perform the inherent requirements of their job - i.e. they are fit for work.

14 SPECIAL CIRCUMSTANCES FOR PRESCRIPTION MEDICATION

14.1 A Worker participating in a treatment plan for a medical condition, managed by a Registered Medical Practitioner and involving a Prescribed Drug/Only Drug could result in a Non Negative Result Initial Test if they are selected for Drug and Alcohol testing.

14.2 If in the above circumstance a Non Negative Result Initial Test occurs, and provided that the Worker has:

(a) Declared their use of the Prescribed Drug/Pharmacy Only Drug in a letter less than 12 months old from a registered medical practitioner before the commencement of testing; and

(b) Declared their use of the Prescribed Drug/Pharmacy Only Drug to the Authorised Testing Agent or Designated Collector before the commencement of testing;

(c) Then the Non Negative Result Initial Test result shall be recorded at the workplace and a second sample of oral fluid shall be taken and sent for confirmatory testing. The worker shall be allowed to remain at work but must be precluded from high risk construction work activity until the result of the confirmatory test is known.

14.3 Where the results of the confirmatory test identify the Prescribed Drug/Pharmacy Only Drug declared and the levels are consistent with that prescribed by the prescribed medical practitioner, then a Negative Result shall be recorded and no results retained.

14.4 Where the results of the confirmatory test identify the Prescribed Drug/Pharmacy Only Drug declared and the levels are not consistent with that prescribed by the Registered Medical Practitioner or another drug(s) type is recorded then a positive result confirmatory test shall be recorded.

14.5 Where the Worker has not provided both declarations contained within this part then the Worker shall be excluded from the workplace until the results of the confirmatory test are known.

15 TESTING RESULTS

15.1 Alcohol

(a) A worker who returns a negative alcohol test will be allowed to return to work with no record of the test kept. A worker who returns a positive result for alcohol (above 0.00mg/ml) will be deemed not fit for work and will not be permitted to return to work;

(b) When a worker tests positive to alcohol in their system the workers blood alcohol concentration (BAC) may be decreasing or it may be increasing. In the interests of safety the Workers will be directed to remain within the testing vicinity and they will be re-tested no sooner than 60 minutes after the original test;

(c) If the second test result is 0.000% the test will be regarded as negative and the Worker may return to normal duties. A Positive Result Confirmatory Test will not be recorded in these circumstances;

(d) If the later confirmatory test indicates a BAC of greater than 0.000% a Positive Result Confirmatory Test will be recorded;

(e) Alcohol testing shall be carried out by an Authorised Testing Agent agreed upon by the PC/Employer and the Union. The following steps shall be undertaken:

(i) Details of the identity of the Worker to be tested shall be recorded including the workplace name, work area and their employer will be listed on a drug and alcohol testing record form by the independent Authorised Testing Agent:

(ii) Workers with a BAC of greater than zero (greater than 0.000%) shall discontinue any work activities and shall be directed to undertake a second test sixty (60) minutes after the first test and the results recorded on a Drug and Alcohol Testing record Form by the independent Authorised Testing Agent:

(iii) Where the second test indicates a level greater than 0.00% BAC the Worker will be further excluded from work duties for the remainder of the shift;

(iv) Where a Worker is to be sent home using their own transport this shall only be permitted if the blood alcohol concentration test result is below that prescribed by applicable road transport legislation and has been determined as not rising for that Worker.
Note: If the Worker's blood alcohol concentration result is greater than or equal to 0.05% BAC, all reasonable assistance is to be afforded to ensure an affected Worker can make their way from the Workplace to a safe location without harm (e.g. taxi, lift from a friend or Supervisor).
Contractors will be responsible for the management/arrangements for their employees in accordance with their own employment arrangements.

(v) Any Worker that is excluded from work duties for the remainder of a shift or sent home, must, before commencing work for their next shift undertake an alcohol breath test prior to commencing that shift. If the results are negative (0.00mg/ml) the Worker shall be allowed to commence work. If the Worker returns a positive test they will not be allowed to commence work, hence page 9 of this document, **15.1** Alcohol- d) will apply.

15.2 Drugs

(a) A worker who returns a negative test will be allowed to return to work. A worker who returns a non-negative test result from their initial test (equal to or above the relevant cut-off levels of the

substances referred to in AS 4760) will be deemed not fit for work and will not be allowed to return to work. (Benzodiazepine level to be provided by the prescribed testing laboratory);

(b) Drug testing will be administered by the collection and analysis of an oral fluids specimen (saliva). Before conducting a drug test, the process used by the independent Authorised Testing Agent must be explained to the Worker providing the saliva sample;

(c) Collecting and testing of saliva specimens shall be carried out by an Authorised Testing Agent, agreed upon by the PC/Employer and the Union, and confirmatory testing is to be carried out by a NATA accredited laboratory;

(d) A Confirmatory Test will be required where a Non Negative Result Initial Test is recorded at the initial test. The handling of specimens taken for confirmatory testing is detailed in the process used by the Authorised Testing Agent and must be completed to Australian Standards;

(e) Any worker attending the workplace under the influence of drugs or alcohol will be prohibited from entry. A worker returning to the workplace following their exclusion for a Positive Result Confirmatory test will be required to submit to a drug and alcohol test prior to commencing work and receive a Negative Result Initial Test for Drugs or Alcohol prior to commencing work.

16 FORMS OF TESTING

16.1 Self-Testing

(a) The PC/Employer shall be required to provide sufficient self-testing facilities for alcohol and/or drugs for up to 10% of the workforce;

(b) Where self-test facilities are made available voluntary or self-testing for alcohol will be available for Workers prior to presenting for work. A wall mounted breathalyser (optional) will be located in an area that provides for discrete privacy for the worker, whilst completing the test so the test results cannot be inadvertently observed and disclosed to other parties;

(c) A Worker undertakes self-testing at his/her own accord; therefore, no test details are recorded. However, all Workers have obligations under the Work Health and Safety Act or equivalent occupational health and safety or occupational safety and health legislation in other States or Territories and must not wilfully place at risk their health and safety or the health and safety of other Workers or people at the workplace by commencing work if they believe they're impaired.

16.2 Random Shift Testing

(a) In terms of Random Shift Testing it is in imperative that the PC/Employer and the Union do not know on what day, or at what time the Authorised Testing Agent will conduct the tests;

(b) It is a condition of entry for all Workers at any workplace to comply with any request to participate in random Drug and Alcohol testing as a condition of employment or contract. This means that all Workers attending or seeking to attend a workplace will be eligible for testing;

(c) Testing for Alcohol or other Drugs for Workers shall be mandatory and will be undertaken at any time throughout the Worker's hours of work (including overtime) or at any time whilst at the workplace;

(d) Individual Workers will be selected for drug testing using a simple random selection process. A random draw will be conducted using an Authorised Testing Agent independent software to randomise the selection of Workers for testing;

(e) The random selection process includes the selection of Workers from across the entire workplace subject to the testing;

(f) A Worker selected for testing will be required to present themselves for testing within a reasonable time. Random shift testing shall be conducted in a room which provides for privacy for the selected worker during testing; the requirements for this room are outlined in the Room Requirements section of this policy.

16.3 For Cause Testing

(a) An employer/supervisor may only request an employee to undertake for cause testing if:

(i) The employee has been involved in an accident or incident, or had the potential to, cause:

(ii) serious and major damage to mobile plant or property; or

(iii) an injury to themselves or other individual(s);or

(iv) Participation in a relevant and specific industry focus area when the worker is undertaking High Risk Work as identified by the employer and consistent with OHS legislation. Workers will be selected for testing using a random selection process nominated by the employer following a consultation process in line with OHS legislation.

16.4 Post Incident Testing

(a) After the occurrence of a significant incident/event at a workplace, all Workers involved in the incident may be required to undergo an initial Drug and Alcohol test.

(b) Where a Worker(s) is to be tested following a significant incident/event they shall be supervised by an Employer Representative and Employee Representative continually from the time of the incident until they have completed all testing required.

(c) Post Incident Testing will be conducted as soon as practical after the incident/event and when it is safe to do so.

(d) An injured Worker who requires immediate medical attention may only be tested when it is appropriate and safe to do so. This will be determined by the Construction Manager, the HSR, Delegate and the relevant PIA in consultation with the attending medical practitioner. In such cases, where testing can be conducted while under medical care, a saliva testing process will be used.

16.5 Reasonable Concern Testing

(a) An employer may only request an employee to undertake reasonable concern testing if the following criteria are met:

(i) An observable phenomena occurs, which is:

- the direct observation of the employee of use of, and/or the physical behavioural symptoms of being impaired by, alcohol; and/or
- Unusual and/or inexplicable actions by the employee; or

(ii) There is evidence that the employee is involved in the use or possession of alcohol and/or other drugs while working; or

(iii) The employee has breached safety precautions or procedures.

16.6 Testing of Minors

(a) A letter of consent contained within the work experience and student placement procedure shall be signed by the parent or guardian of any worker who is a minor seeking to access a

workplace where the Impairment Policy is in place, as a condition of entry to that workplace. Alternatively, an equivalent letter signed by the parent or guardian can be provided through the minor's employer/host employer.

(b) Where a minor is selected for testing and:

(i) A letter of consent is held, then the provisions of this procedure shall apply; or

(ii) Where a letter of consent is not held, every effort will be made to contact the minor's parents/guardians to get verbal consent to participate in the testing procedure. If consent is given then the normal testing procedures will apply, if contact cannot be made and/or consent is not given then the minor will be excluded from any high risk activities or potentially excluded from site until consent is given.

17 REFUSAL TO TEST

17.1 If a Worker refuses to participate in workplace Drug and Alcohol testing the following will apply:

(a) The Employer, will inform the Worker and the workers chosen representative, that the refusal will have the same consequences as a non-negative result, i.e. that the employee will be deemed to be unfit for work due to the presence of alcohol or drugs;

(b) If the worker still refuses, the Employer and the PIA, shall consult with the worker and the workers chosen representative, regarding the requirements, process and consequences of refusing to test and encourage them to partake in the test. This would be the second request to be tested;

(c) If the worker still refuses, the refusal will be treated as a confirmed positive result, and will be subjected to the relevant consequences of such. All reasonable assistance is to be offered to ensure the employee can make their way from the workplace to a safe location without harm (i.e. taxi, lift from a friend or fellow worker). An agreed leave of absence arrangement is to apply for the duration of their absence.

18 DISCIPLINARY ACTION

18.1 The following sets out the action which may be taken when a worker returns a confirmed positive result to an alcohol or drug test.

18.2 First Occasion -A worker who has received a first confirmed positive test for alcohol or drugs (other than by self-testing) will be:

(a) Required to attend the Support as referred to in this Policy;

(b) Informed of the consequences of testing positive and their obligations to present, or remain in a fit state;

(c) Informed of further disciplinary action and testing requirements should they have a confirmed positive result (alcohol or drug) within the next 12 months.

18.4 A worker who has received three confirmed positive test results for alcohol or drugs which has been detected in a 12 month period may be disciplined under the Employer's disciplinary processes.

18.5 A worker who fails to attend EAP sessions may be disciplined under this policy in accordance with principles of natural justice.

18.6 No disciplinary action will be taken in respect of positive test results from a self-test.

19 SUPPORT

19.1 The Principle Contractor (PC)/Employer will make available support to workers in respect of drug and alcohol issues. This will include:

(a) allowing access to any Union support programs; and

(b) provide an employer funded Employee Assistance Provider (EAP) to be available to workers.

19.2 The worker will be allowed to access a Union support program and/or EAP counselling during normal working hours and without loss of pay, or any form of employer retribution.

annual leave on the date of termination. Where the Employee's leave balance would not include public holidays occurring within the 10 working days (excluding weekends) following termination, the Employee shall receive payment for these days.

14.6 In cases where the Employer is considering transferring or terminating the services of an elected Union Delegate or a Health and Safety Representative, a five day mandatory consultation period shall be initiated by the Employer with the Union prior to any final decision on transfer or termination being made. 15.3 Contributions will continue to be paid on behalf of an Employee during any absence on paid leave such as annual leave, long service leave (including leave paid for by QLeave or NTBuild), public holidays, sick leave and bereavement leave. The Employer shall also be required to make contributions while an Employee is absent from work and is claiming Workers' Compensation for a maximum period of 12 months.

15.4 Where the Employee's balance in the Employee's redundancy fund reaches $15,000.00 or an amount that equals 10 weeks' wages, the Employee will have the option to continue to have contributions paid to their redundancy fund or redirected to CBUS or BUSS(Q). It is the Employee's option only. Where an Employee exercises (or has exercised) this option, his or her redundancy entitlement will be deemed met for all current and future entitlements arising from the current employment engagement.

15.5 Contributions to the Employee's redundancy fund must be made, at a minimum, on a monthly basis. (a) the nature of the changes, any proposed timing of the changes and the expected likely effect on Employees; and

(b) any measures the Employer is proposing to take to avert or mitigate any adverse effects of such changes on Employees; and

(c) any other matters related to the changes which may affect the Employees.

33.3 In this clause major workplace changes that are likely to have a significant effect on Employees include:

(a) termination of employment;

(b) changes to composition, operation or size of the workforce or the skills required of Employees;

(c) elimination or diminution of job opportunities (including promotion/tenure);

(d) alteration of hours of work;

(e) retraining, relocation or restructuring; and

(f) changes to the legal or operational structure of the Employer or business, including changes to business ownership or control.

33.4 Where the Employer proposes to change an Employee's regular roster or ordinary hours of work, the Employer must consult with the Employee(s) affected and their Union, about the proposed change.

As soon as practicable after proposing to introduce the change, the Employer must:

(a) discuss with the relevant Employees the introduction of the change; and

(b) for the purposes of the discussion—provide to the relevant Employees and their Union:

(i) all relevant information about the change, including the nature of the change; and

(ii) information about what the Employer reasonably believes will be the effects of the change on the Employees; and

(iii) information about any other matters that the Employer reasonably believes are likely to affect the Employees; and

(c) invite the Employee(s) affected and their Union, to give their views about the impact of the proposed change (including any impact in relation to their family or caring responsibilities); and

(d) give consideration to any views about the impact of the proposed change that are given by the Employee(s) concerned and/or their Union.

33.5 The requirement to consult under this clause does not apply where an Employee has irregular, sporadic or unpredictable working hours.

33.6 These provisions are to be read in conjunction with other Agreement or Award provisions concerning the scheduling of work and notice requirements.

34. Individual flexibility agreements

34.1 Where the Employer wants to enter into a variation agreement it must provide a written proposal to the Employee. Where the Employee's understanding of written English is limited, the Employer must take measures, including translation into an appropriate language, to ensure the Employee understands the proposal.

34.2 The Employer must ensure that any variation agreement is genuinely agreed to by the Employer and the Employee and that the terms of the variation agreement:

(a) are about permitted matters under section 172 of the FW Act; and

(b) Relates only to:

(i) Time between which ordinary hours are worked;

(ii) Salary sacrifice agreements;

(iii) Reduction in ordinary hours;

(iv) Increase in annual leave accrual each year;

(v) Increase in rate of accrual of Rostered days off;

(vi) Increase in training leave (Union or otherwise);

(c) are not unlawful terms under section 194 of the FW Act; and

(d) result in the Employee being better off overall than the Employee would be if no arrangement (variation agreement) was made.

34.3 The Employer must also ensure that any such variation agreement is:

(a) in writing (including details of the terms that will be varied, how the variation agreement will vary the effect of the Enterprise Agreement terms, how the Employee will be better off overall in relation to the terms and conditions of his or her employment as a result of the arrangement, and the day on which the arrangement commences);

(b) includes the name of the Employer and Employee;

(c) signed by the parties, and if the Employee is under 18, by a parent or guardian of the Employee;

(d) provided to the Employee within 14 days after it is agreed to; and

(e) able to be terminated by either party giving written notice of not more than 28 days, or at any time by both parties agreeing in writing.

34.4 Where any of the requirements of this clause 34 are not met, the variation agreement is of no effect.

34.5 Upon request the Employer must provide copies of all flexibility agreements made under this clause to the Union/Employee representative.

35. Employment security, staffing levels, mode of recruitment and replacement labour

35.1 The Employer recognises that in certain circumstances the use of contractors and labour hire may affect the job security of Employees covered by this Agreement.

35.2 Use of Contractors

If the Employer wishes to engage contractors and their Employees to perform work in the classifications covered by this Agreement, the Employer must first consult in good faith with potentially affected Employees and their Union. Consultation will occur prior to the engagement of sub-contractors for the construction works.

If, after consultation, the Employer decides to engage bona fide contractors, these contractors and their Employees will receive terms and conditions of engagement (or terms no less favourable) as they would receive if they were engaged as Employees under

this Agreement performing the same work. The use of sham sub-contracting arrangements is a breach of this Agreement.

35.3 Supplementary Labour Hire

Where there is need for supplementary labour to meet temporary/peak work requirements, such labour may be accessed from bona fide businesses, including sub-contractors and labour hire companies, following consultation with the Employer Consultative Committee and/or Union(s) party to this Agreement. The Employer shall ensure that any Employees engaged by such businesses and performing work described in the classifications of this Agreement shall receive wages, allowances and conditions not less than those contained in this Agreement.

Supplementary labour is defined as temporary "top up" labour designed to meet short situations such as absences due to sick leave, annual leave, and short time work peaks. The Employer undertakes not to use supplementary labour in any position on site for a period of more than six weeks. Any departure from this maximum period shall require the consent of the Union.

36. Compliance with this Agreement

36.1 Step 1

Complaints, queries and concerns regarding entitlements paid in relation to the appropriate legal industrial instrument shall be raised and resolved in accordance with the current custom and practice. Duly authorised industrial personnel shall be provided access to time and wage records in accordance with all legal requirements.

36.2 Step 2

If the Union suspects significant breaches of the EBA and requests the production of an audit certificate in the approved form (APPENDIX 4A), the Employer must provide such certificate.

36.3 Step 3

Where further evidence exists of continuing non-compliance or significant breaches by the Employer, the Union may further request an independent audit report detailing all entitlements be provided by an auditor with a practice certificate from the Institute of Chartered Accountants or registered CPA. The auditor shall be approved by the Unions and all costs of the audit payable by the Employer.

36.4 The Employer will comply with the following conditions in preparing the independent audit report:

(a) engage an auditor who holds a current public practice certificate of the Institute of Chartered Accountants in Australia or CPA Australia;

(b) ensure that the audit include advice as set out in APPENDIX 4B;

(c) request that the work performed in the audit be in accordance with Australian Auditing Standard 802 "The Audit Report on Financial Information Other than a

General Purpose Financial Report" and Auditing Guidance Standard 1044 "Audit Reports on the Information Provided other than in a Financial Report"; and

(d) the independent audit report will include an audit certificate signed by the auditor, which will include advice as set out in APPENDIX 4B.

36.5 Failure to comply with the requirements of this clause, or the submission of a false or misleading audit certificate, may result in a Union party to this Agreement requiring a full audit of the Employer's time and wages records and all other records required to ensure compliance with this Agreement. The full audit will be conducted by an auditor who is approved by the Union and who is independent from the Employer's business.

37. Compliance with statutory requirements

37.1 The Employer shall adhere to the requirements of all Acts of Parliament of the Commonwealth and State and therefore comply with the requirements of all those ordinances, regulations, by-laws, orders and proclamations made or issued under any Act.

38. All-in payments (calculation of default rate)

38.1 All-in payments to Employees will not be made. All-in payments are defined as an hourly rate or piece work rate which is meant to cover wages and/or allowances and/or conditions, such as annual leave, sick leave, etc.

38.2 It is agreed that where a breach of this clause is made, the calculation for back pay shall be calculated on the basis of the hourly rate contained in this Enterprise Agreement plus the site allowance (if applicable), plus the multi-storey allowance and an additional 75% loading to cover entitlements other than CBUS/BUSS(Q), BERT, CIPQ and BEWT. Any difference between the hourly rate paid to the Employee, plus CBUS/BUSS(Q), BERT, CIPQ and BEWT shall form the settlement for the breach of this clause.

39. Posting of Agreement and notices

39.1 A true copy of this Agreement shall be exhibited in a conspicuous and convenient place on the premises of the Employer and on every Employee's worksite so as to be easily read by Employees.

40. Severability

40.1 It is the intention of those covered by this Agreement that the Agreement contains only permitted matters under the FW Act. The severance of any term of this Agreement that is, in whole or in part, of no effect by virtue of the operation of section 253 of the FW Act shall not be taken to affect the binding force and effect of the remainder of the Agreement. To the extent it is possible, all terms should be interprested in a manner that would make them permitted matters. The right provided for in subclause 32.4 above does not constitute an entitlement to hold discussions with one or more Employees other than by way of the procedures stipulated in Part 3-4 of the FW Act. The Employer will comply with the requirements of the *Privacy Act 1988* (Cth) in repsect to any requests made under subclause 32.7 above to which that Act applies. The subclauses 32.4 above and 32.7 above will not be exercised inconsistently with Part 3-4 of the FW Act. However, the exercise of rights under subclauses 32.4 above and 32.7 above does not necessarily invoke the operation of Part 3-4 in that information may be sought for purposes other than those identified in Part 3-4 and without the need for entry into workplaces.

41. Government procurement

41.1 The Employer, the Union and Employees recognise that government clients are an important source of work and that ensuring continued capacity to comply with written government purchasing guidelines will enhance availability of work and security of employment.

41.2 If the Union agrees in writing that the Employer will be ineligible to tender for government work due to a term in this Agreement then the Employer, the Union and the Employees covered will immediately seek a variation of this Agreement dealing with the notified issue to the extent necessary for the Employer to again be eligible to tender for government work.

41.3 Where the Employer is notified in writing by a government agency responsible for monitoring of a government purchasing guideline that it considers that the Employer will be ineligible to undertake government work due to a term in this Agreement, the following process will be undertaken:

(a) The Employer will provide the written notification from the government agency to the Union for its consideration; and

(b) The Union will provide the Employer with a written response within seven (7) days to advise whether the Union agrees with, or disputes, the written notification from the government agency.

41.4 If the Union disputes that the Employer will be ineligible to tender for government work due to a term of this Agreement, then the Employer or the Union may notify the Fair Work Commission of a dispute regarding the Agreement, and seek for it to be resolved by the Commission pursuant to clause 7 of this Agreement.

41.5 The reference to government purchasing guidelines in this clause includes, but is not limited to, the *Building Code 2013*. The terms of any variation required under this clause may be determined under the dispute resolution procedure in this Agreement. The intent of this clause is that the Employer is eligible to tender for government work.

42. Temporary foreign labour

42.1 Where the Employer is considering engaging temporary foreign labour, this will be done with strict adherence to the requirements in Appendix 5A of this Agreement, or otherwise agreed in writing between the parties.

APPENDIX 5A - TEMPORARY FOREIGN LABOUR

43. Definition

43.1 'Temporary foreign labour' means all persons who are not Australian citizens or permanent residents or New Zealand citizens who are resident in Australia ("Australian residents"), i.e. all non-residents.

43.2 The term includes all persons in Australia on temporary visas of all kinds, e.g. including subclass 457, subclass 417 (Working Holiday visa) and all other temporary visas.

44. Principles

44.1 The Employer endorses the following principles:

44.2 Temporary foreign workers are intended to supplement the Australian workforce, and will only be recruited and employed where there are insufficient Australian workers available to do the work, including through training.

44.3 Workers who are Australian residents will have preference in recruitment, employment and training opportunities relative to temporary foreign workers, to the maximum extent permitted by law.

44.4 While it may be agreed that recruitment of temporary foreign labour is necessary for a time, the intention is that reliance on temporary foreign labour will be reduced over time during the life of the Agreement.

45. Workforce plan

45.1 The Employer will provide to the union:

(a) a workforce plan, setting out for each occupational classification and for each year this Agreement operates, the expected number of workers required, showing numbers of Australian resident workers and temporary foreign workers in each classification; and the proportion which the temporary foreign workers represent in each classification.

(b) For the temporary foreign workers group, a separate table showing this group further broken down by occupational classification and visa subclass, i.e. subclass 457, 417 etc (OR 457s/all others).

(c) This workforce plan, the labour market and training plan in 4 and 5 below, will be agreed with the unions.

46. Labour market analysis

46.1 The Employer will provide to the union a 'labour market analysis', meaning the evidence on which it is claimed that Australian workers will not be available to do this work in each of the occupations concerned, in each of the years concerned. This would include:

(a) Any evidence of recent efforts to recruit Australian workers in these classifications at market rates, and the results of these campaigns;

(b) Research and data that provide an evidence base for skills shortages in the proposed occupation/s for which access to temporary foreign workers is proposed; and

(c) Consultation with the union.

47. Training Plan

47.1 The Employer will submit to the union documentation demonstrating:

47.2 A commitment to training in the occupations of known or anticipated shortage, and a detailed plan for doing so;

47.3 A commitment to reducing reliance on temporary foreign labour over time, and a detailed plan for doing so;

47.4 That training strategies are commensurate with the size of the temporary foreign workforce utilised on the project; and

47.5 How training targets will be enforced through its contracting model and measured and monitored over the term of the project.

48. Labour Market Testing (LMT)

48.1 No temporary foreign worker will be recruited without LMT to establish that there are no qualified Australian workers available to do the work.

48.2 LMT will include advertising the position nationally and notifying the vacancy to the union and the national online Jobs Board, to be established under the Federal government's EMA program.

48.3 The union will be provided with the results of recruitment campaigns including evidence of the number of Australian workers who applied for the positions and reasons why they were considered not suitable by the Employer.

48.4 LMT may be waived for certain classifications for specific periods, by agreement with the union, for example where it is agreed that there is a genuine national shortage of Australian workers in particular occupations.

48.5 The Employer will provide relocation assistance measures, to facilitate the recruitment of Australian workers to the locations concerned, from other areas in Australia.

49. English language skills standards

49.1 The Employer recognises the high-risk nature of work on construction sites and the absolute need to ensure worker safety. Accordingly, all temporary foreign workers will be required to have minimum English language proficiency at the minimum level prescribed for the 457 visa standard business sponsorship, i.e.:

49.2 English language proficiency that is equivalent to an International English Language Testing System (IELTS) test score of at least 5 in each of the four test components of speaking, reading, writing and listening.

49.3 Where an occupation requires a higher level of English (equivalent to IELTS test score of *more than 5* in each of the four test components) because it forms part of that occupation's registration, licensing or membership requirement, the temporary foreign worker must have at least the standard of English language proficiency required for the grant of that registration, licence or membership.

49.4 These minimum English language standards shall apply to temporary foreign workers in all occupational classifications (i.e. skilled, semi-skilled and unskilled).

50. Certification of qualifications, trade and otherwise

50.1 Temporary foreign workers in all occupational classifications will have their qualifications assessed and certified as meeting Australian standards, through mechanisms agreed with the union. This may include through existing bodies (such as TRA) or avenues endorsed by the Industry Skills Council.

50.2 Verification Of Work Rights Of Temporary Foreign Workers And Immigration Compliance

50.3 The Company recognises its obligations in respect of compliance with the Australian Immigration laws.

50.4 Existing and prospective Employees will be required to complete the Authority contained in APPENDIX 5 of this Agreement to obtain from Department of Immigration and Border Protection (DIBP) details of immigration status. No person will be allowed to undertake any work for the Company unless it is verified he / she has the right to work in Australia.

50.5 Copies of this authority will be available on request to the Secretary of the Union or nominee.

50.6 This provision will be strictly complied with by the Company.

50.7 The Company also undertakes to ensure that all temporary foreign labour employed on the project continue to be employed in accordance with the work entitlements of their visas. To this end, the Company will maintain HR systems (including utilising DIBP's Visa Entitlement Verification Online (VEVO) system on an ongoing basis), to ensure that temporary foreign workers are at all times employed in accordance with the work entitlements of their visas.

51. Redundancy

51.1 The Employer undertakes not to retrench Australian workers in any of the classifications sought, in the six months before the proposed commencement of the Agreement.

51.2 In the event of redundancies required during the life of the Agreement, in occupational classifications where both Australian workers and temporary foreign workers are employed, temporary foreign workers will be made redundant first, given that temporary foreign workers are intended to supplement the Australian workforce.

52. Private health insurance

52.1 The Employer will be responsible for maintaining private health insurance cover for all temporary foreign workers and their dependants in Australia (secondary visa holders), that is at least as comprehensive as the minimum level of coverage required under the subclass 457 visa program.

52.2 Visa holders who are enrolled with Medicare under reciprocal health care arrangements between Australia/other countries (e.g. UK, Ireland) will be considered as having met this requirement – and will not need to be covered by Employers on the project.

53. WHS and workers compensation matters

53.1 The Employer recognises that employment of temporary foreign labour on high-risk work sites can significantly increase the risk of injury to all workers.

53.2 To minimise the risk of injury to workers, the Employer therefore undertakes to develop and submit for approval by the union a WHS Plan which takes account of these higher risks, the Plan to be in place before foreign workers are employed in Australia.

53.3 Such plans must include follow-up measures to ensure that any temporary foreign workers who are killed or injured in workplace incidents receive the full entitlements that would have accrued to Australian workers in the same situation, and/or that their families do.

54. Workers compensation

54.1 The Employer undertakes to ensure that if any temporary foreign worker is injured and departs Australia following the workplace injury, the Employer will maintain any workers compensation payments to the injured worker on the same basis as if the worker was still resident in Australia.

55. Other

55.1 The Employer will inform all temporary foreign workers employed in writing (before commencing employment) of the precise wages and terms and conditions of employment, and industrial arrangement under which the temporary foreign workers are being employed.

55.2 The accommodation and welfare arrangements for the temporary foreign workers will be at the same standard as provided for Australian workers.

55.3 The Employer agrees to take measures to eliminate the risk of labour trafficking to work available on the project, and to provide evidence to unions that these measures have been assessed as adequate by the AFP or other agreed Commonwealth agency.

56. Disputes resolution mechanism

56.1 Disputes in relation to this clause shall be conducted in accordance with the disputes resolution procedure contained in this Agreement.

Dear Mr O'Connor,

Construction, Forestry, Mining and Energy Union
Annual Return of Information for 2016 [AR2016/154]

I refer to our letter dated 10 February 2016 reminding you of the obligation to lodge an Annual Return of Information for 2016 by **31 March 2016**. While the organisation has until the end of the month in which to lodge the information, we provide the following as a second and final reminder. Please ignore this letter if you have lodged the Annual Return in the last few days.

A signed and dated declaration certifying matters prescribed in the Fair Work (Registered Organisations) Act 2009 (the RO Act) must be lodged with the Fair Work Commission (the Commission) by that date. The matters to be included in the declaration are set out in the attached checklist.

The declaration must be signed by the Secretary, or where applicable, such other elected official who is required under the rules or by resolution of the organisation, to keep the relevant records (other prescribed officer). A declaration signed by a non-elected person does not meet this requirement. Further, you are reminded that the Secretary or other prescribed officer must also notify the Commission within 35 days of any changes to such records that may occur throughout the year.

If you require further information about an Annual Return you can refer to the 'Annual Information Requirements' page on our website and, in particular, our Webinar slides.

Once an Annual Return has been lodged, a copy will be posted on our website at List of Registered Organisations. Therefore, to protect the privacy of the relevant office holders listed in the declarations, it is recommended that officers list their official mailing address rather than personal home address.

We encourage you to lodge all returns electronically (e.g. as a pdf file) at orgs@fwc.gov.au. Please ensure that emailed documents include signatures where required.

Please note: failure to comply with these obligations is subject to a civil penalty provision (up to $54,000 for a body corporate and $10,800 for an individual per contravention), under s.305 of the RO Act. Finally, in maintaining the register of members, your attention is drawn to the circumstances where membership ceases to exist (s.230(2)(b) and s.171A of the RO Act).

Please do not hesitate to contact the Commission by phone on (03) 8661 7777 or by e-mail at orgs@fwc.gov.au if you wish to discuss the requirements outlined in this correspondence.

Yours sincerely,

Annastasia Kyriakidis

Dear Mr O'Connor,

Construction, Forestry, Mining and Energy Union
Annual Return of Information for 2016 [AR2016/154]

This is a courtesy letter to remind you of the obligation to lodge an Annual Return of Information for 2016 in respect of the Construction, Forestry, Mining and Energy Union by **31 March 2016**.

A signed and dated declaration certifying matters prescribed in the *Fair Work (Registered Organisations) Act 2009* (the RO Act) must be lodged with the Fair Work Commission (the Commission) by that date. The matters to be included in the declaration are set out in the attached checklist.

The declaration must be signed by the Secretary, or where applicable, such other elected official who is required under the rules or by resolution of the organisation, to keep the relevant records (other prescribed officer). A declaration signed by a non-elected person does not meet this requirement. Further, you are reminded that the Secretary or other prescribed officer must also notify the Commission within 35 days of any changes to such records that may occur throughout the year.

As previously advised, section 233 places the onus of lodgement on the organisation and not on each individual branch. It is therefore the national body that is obliged to collate and lodge all of the required information. Annual Return templates are available on the Commission website at Registered Organisations fact sheets, one for an organisation with branches and one for an organisation without branches.

Once an Annual Return has been lodged, a copy will be posted on our website at List of Registered Organisations. Therefore, to protect the privacy of the relevant office holders listed in the declarations, it is recommended that officers list their official mailing address rather than personal home address.

We encourage you to lodge all returns electronically (e.g. as a pdf file) at orgs@fwc.gov.au. Please ensure that emailed documents include signatures where required.

Please note: failure to comply with these obligations is subject to a civil penalty provision (up to $54,000 for a body corporate and $10,800 for an individual per contravention), under s.305 of the RO Act. Finally, in maintaining the register of members, your attention is drawn to the circumstances where membership ceases to exist (s.230(2)(b) and s.171A of the RO Act).

Please do not hesitate to contact the Commission by phone on (03) 8661 7777 or by e-mail at orgs@fwc.gov.au if you wish to discuss the requirements outlined in this correspondence.

Yours sincerely,

The Commission's risk-based approach

This year your annual return was assessed against a primary review. Consistent with the Commission's risk-based approach, most annual returns are the subject of a primary review.

The remainder receive an advanced review which is a more comprehensive review.

Each organisation should expect that in some years their annual return will be the subject of an advanced review.

The Commission's advanced review checklists are published on our website.
