[12/11/2019, 6:14:31 am] Jamie Kunst: I suggest we brief the workforce at Prestart and ensure if needed we rotate the workers and give them respite periods

Inside workers and guys in plant cabins are at less risk
[12/11/2019, 7:06:04 am] Daniel Smith: CFMEU at Roma. Wanting all works outside to cease. Need some
Feedback please.

[19/11/2019, 9:44:33 am] Brendan X. Taylor: Now offsite. A bit of interest in the LCR franna but no issues identified.
Basically just an introduction with some suggestions thrown in for improving Site Facilities.
[19/11/2019, 9:44:35 am] Brendan X. Taylor: They intend to submit notice to hold discussions with crew later this week.
[19/11/2019, 10:16:44 am] Terry Prior: All good. If/ when they submit a 'right of entry' notice let me know and we can have someone down there on tbe day as an observer only
[19/11/2019, 10:17:33 am] Matt Lennon: Do we have a global email address where the ROE for discussions is sent to?
[19/11/2019, 10:17:51 am] Matt Lennon: Or is this sent to Terry?
[19/11/2019, 10:21:50 am] Terry Prior: Good question. Global address is: ROE@cbgujv.com.au
[19/11/2019, 10:22:48 am] Matt Lennon: One more question Terry - is this type of notice sent to us or the subcontractor if the intent is to have discussions with the blokes?
[19/11/2019, 10:26:16 am] Terry Prior: It should come to us - as it is our site, and we greet the union at the gate and pass them on to subcontractor.
Occasionally a union will send them straight to the subby who in turn should send a copy to us.
[22/11/2019, 11:28:00 am] Michael Lowe: 3 x WHSQ onsite at Roma, enquiring about asbestos surveys /registers and content within buildings being demolished

[23/7/2020, 5:03:47 pm] James Maher 2: All,
I was at a training course @ WH&S more skills training centre today. While I was there WHSQ were running a practical session on concrete pumping for most of their inspectors. They had a few pumps set up walking through the dos and fonts of the new COP
Spoke with the pump supplier after the session had ended. There's a industry blitz planned for August on mobile concrete pumping.
Be worth getting the site teams to brush up on the new COP in Preperstion.

[30/11/2022, 6:26:17 pm] Jerry Katati: Good afternoon Team, apologies for the late notice as it was overlooked by the safety team. A subcontractor PO has tripped over a small steel plate at the bottom of the ramp to Tunnel 1, Gabba to Albert St on the way to his work location causing pain to the shoulder. The worker did not see the steel plate due to poor lighting in the cavern. The worker was taken to St Andrews for further assessment where no fracture was found at the time of assessment however the specialist recommended an MRI which was booked for 5.00pm, there has been no result as yet but still trying to get more info. Will advise once the result has been received, thanks.

[30/11/2022, 8:50:25 pm] Jerry Katati: Evening Team, an update from the injured worker, the MRI has revealed a fracture in the shoulder, the worker has been referred to a specialist, date tbc, however the worker has a certificate for office work until the specialist appointment. The worker only has minor discomfort thus far but feels he can return to suitable duties prior to specialist appointment. Will know more when we talk to the worker tomorrow. Thanks
